*Ringelmann Chart:* The chart published and described in the U.S. Bureau of Mines Information Circular 8333, and on which are illustrated graduated shades of grey to black for use in estimating the light obscuring capacity of smoke.

*Roaster:* A device used to effect the expelling of volatile matter or to effect oxidation as required in the manufacturing of such products as prepared meats, grain, coffee beans, nuts, etc.

*Sintering Plant:* The plant used in connection with the process of fusing fine particles of metallic ores causing agglomeration of such particles. Such plant consists of, but is not limited to, sintering machines, handling facilities, wind boxes, stacks and other auxiliaries pertinent to the process.

*Smoke:* Small gas-borne particles, other than water that form a visible plume in the air from a source of atmospheric pollution.

*Solid Fuel:* Any material in its solid state capable of being consumed by a combustion process.

*Soot:* Agglomerated particles consisting essentially of carbonaceous material.

*Stack or Chimney:* Any conduit, duct, vent, flue, or opening of any kind whatsoever arranged to conduct any products of combustion to the atmosphere. It does not include breeching as defined herein.

*Stack Spray:* A nozzle or series of nozzles installed in a stack above the breeching used to inject wetting agents at high pressure to suppress the discharge of particulate matter from the stack.

*Standard Conditions:* A gas temperature of 60 degrees Fahrenheit and a gas pressure of 30 inches mercury.

*Standard Cubic Foot (scf):* The standard cubic foot is a measure of the volume of gas under standard conditions.

*Stokers:* Any mechanical device that feeds solid fuel uniformly onto a grate or hearth within a furnace.

*Surface Burning Type (Hand-Fired):* See definition of "Fuel-burning equipment, hand-fired type".

*Unit operation:* Methods where raw materials undergo physical change; methods by which raw materials may be altered into different states, such as vapor, liquid or solid without changing into a new substance with different properties and composition.

*Unit Process:* Reactions where raw materials undergo chemical change; where one or more raw materials are combined and completely changed into a new substance with different properties and composition.

*Vehicle:* A self-propelled mechanism, such as a truck, machine, tractor, roller, derrick, crane, trencher, portable hoisting engine or automobile; or any conveyance used for carrying persons or things, trailer, semi-trailer, boat, tug, or other apparatus which is not ordinarily permanently installed in one location but is used in various places over a wide area.

*Volatile Matter:* The gaseous constituents of solid fuels are determined by the Standard ASTM Procedure amended or revised to date.

17-2.2 It shall be unlawful, on and after June 29, 1970, to burn refuse, garbage or other debris in any boiler or any unit which has not been specifically designed for that purpose and for which an effective Certificate of Operation has not been issued.

17-2.3 It shall be unlawful within the City of Chicago and within one mile of the corporate limits for any person, owner, agent, operator, firm or corporation to permit to cause, suffer or allow the emission of any smoke from any source whatever of a density, shade or opacity equal to or greater than that described as #2 on the Ringelmann chart as published by the United States Bureau of Mines provided that the following exceptions to the provisions of this section shall be permitted for fuel burning, combustion or process equipment.

(1) For a period or periods aggregating 4 minutes in any 30 minutes of a density, shade or opacity equal to but not greater than that described as #2 on the Ringelmann Chart.

(2) For a period or periods aggregating 4 minutes in any 60 minutes of a density, shade or opacity equal to but not greater than that described as #2 on the Ringelmann Chart when building a new fire.

17-2.4 Subject to the provisions of Section 17-2.5, it shall be unlawful within the city of Chicago for any person owning or in charge of any fuel-burning, combustion or process equipment or device, or any portable boiler, to cause, suffer or allow the emission from any such source of any particulate matter except in conformity with the limits set forth as follows:

(1) The limitation for all industrial particulate emissions shall be 0.10 grains per standard cubic foot, with the exception of indirect heat exchanger emissions and incinerator emissions.

(2) The emissions from indirect heat exchangers shall be limited as follows:

For equipment over 288,000 and under 10 million BTU's per hour input, the dust emissions shall be limited to 0.5 pounds per million BTU's input. If the capacity rating of the fuel burning equipment is more than 10 million BTU's per hour input, the amounts of particulate matter which may be emitted for each million BTU input shall decrease as the capacity rating of the fuel burning equipment increases as follows:

(a) No more than .50 pounds for each million BTU's input from equipment having a capacity rating of 10 million;

(b) No more than .39 pounds for each million BTU's input from equipment having a capacity rating of 50 million;

(c) No more than .34 pounds for each million BTU's input from equipment having a capacity rating of 100 million;

(d) No more than .29 pounds for each million BTU's input from equipment having a capacity rating of 1,000 million; and

(e) No more than .18 pounds for each million BTU's input from equipment having a capacity rating of 5,000 million.

The amount of particulate matter which may be emitted from fuel furning equipment having an intermediate capacity rating shall be determined by linear interpolation when plotted on Log-Log Graph Paper. If two or more fuel burning units are connected to a single flue, the total capacity rating of all fuel burning units connected to the flue shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. If a single fuel burning unit is manifolded to two or more flues, the capacity rating of the single fuel burning unit shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. The foregoing requirements shall be measured by the methods of the American Society of Mechanical Engineers (ASME), Power Test Code 27-1957 (PTC27-1957), Determining Dust Concentration in a Gas Stream, which is hereby made a part of this chapter by reference, or in accordance with modified procedures mutually agreed upon by the Commissioner and such person. A copy of the said Code shall be kept on file in the office of the Department subject to examination by interested persons.

(3) A specified volume ratio, or other suitable index, or particulate bearing gas shall be established in accordance with section 17-1.11, subparagraph (11) for various pieces, types or classes of fuel-burning, combustion or process equipment or devices, which constitute potential sources of emission of particulate matter; provided, however, that with respect to coal burning combustion equipment the basic limitations set forth in subparagraph (1) of this section shall be adjusted to a gas volume based upon 50 per cent excess air.

(4) All existing combustion equipment shall meet the limitations of this section on and after June 29, 1970 and all new equipment shall meet the limitations upon installation.

(5) All existing process and control equipment shall meet the limitations set forth in subparagraph (1) of this section on and after June 29, 1969, and all new equipment shall meet the limitations upon installation.

(6) Emissions of particulate matter from all fuel burning combustion or process equipment or devices shall not exceed emissions which would result from operations in accordance with limitations set forth in this chapter.

(7) The basic limitation on the average emission into the atmosphere of particulate matter from an incinerator shall be 0.20 grains per cubic foot of gas at standard conditions. These calculations are to be made at 50 per cent excess air and are to be the result of tests conducted in the field under field conditions, costs of which shall be assumed by the owners if emissions exceed allowable limits. All existing incinerators shall meet the limitations set forth in this paragraph on and after June 29, 1971, and all new equipment shall meet the limitations upon installation.

(8) The emissions, other than water vapor, from any sources that are liable to generate or evolve into particulate form through phase change or other transformation shall be deemed to be particulate matter at the emitted point.

17-2.5 The following provisions shall be applicable to the processes and equipment hereinafter set forth in lieu of the limits upon the emission of smoke and particulate matter contained in sections 17-2.3 and 17-2.4 hereof:

(1) Railroad Locomotives—Diesel

(a) Immediately after starting the engine of a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than four minutes during the first fifteen minute period.

(b) Immediately after starting the steam generator on a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than two minutes but not thereafter.

(c) After a diesel yard or switching locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen minute period.

(d) After a diesel road or transfer locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen minute period.

(2) Steamships and Other Vessels

(a) When building, banking or cleaning fires or when maneuvering or ballasting, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than six minutes in any sixty minute period.

(b) When building original fires at the start of seasonal operations, or under emergency conditions when it is necessary to operate a boat with a fluctuating load upon the boilers to prevent danger to life or property, the foregoing restrictions on emissions shall not apply.

(c) When a steamship or other vessel is in service, except as provided to cover particular conditions stated in this section, the provisions of section 17-2.3 hereof shall apply.

(3) Sulfur Dioxide Limitation

(a) No person shall cause or permit the use, or, if intended for use in the City of Chicago, the purchase, sale, offer for sale, storage or transportation, of fuel which, as determined by the methods of the American Society for Testing and Materials, contains more than the following percentages of sulfur by weight:

For a period of two years, on and after June 23, 1970 fuel: 2.5 per cent

For a period of eighteen months, on and after June 23, 1971: fuel: 2.0 per cent

Thereafter: fuel: 1.5 per cent

(b) Upon the application of any person engaged in the operation of fuel burning equipment, the director with the approval of the appeal board may issue a certificate of operation in accordance with Section 17-2.41 of this chapter in those cases wherein the applicant shall establish that the fuel burning equipment is operated in such a manner or is equipped with such control apparatus as to continually prevent the emission of any sulfur compound or compounds in amounts greater than those that would be emitted from the burning (in the same fuel burning equipment without such control apparatus) of fuel containing any amount of sulfur by weight not in excess of the maximum amount permitted at the applicable time by this section.

(c) The provisions of subparagraph (3) (a) of this section shall not apply to acts performed with respect to fuel owned or under contract for purchase by a purchaser who uses or intends to use such fuel in any fuel burning equipment for which a certificate of operation has been issued under subparagraph (3) (b), or where a variance has been granted pursuant to the provisions of Section 17-2.56(3) of this chapter.

(d) When periods of stagnation, for 24 hours or greater, occur, the commissioner shall have the power to implement a Pollution Incident Control Plan, whereby plants that have an annual fuel consumption of 60,000 tons of coal or 14,500,000 gallons of oil are required either to switch to a low sulfur fuel (less than 1.5% sulfur by weight) or curtail emission of sulfur dioxide pollution during this period until the commissioner determines that the stagnation period no longer exists.

All persons responsible for the operation within the city of any of the processes or equipment above named shall undertake or participate in a program of research to determine feasible methods of measuring and controlling emissions therefrom in accordance with Section 17-1.14 hereof.

17-2.6 It shall be unlawful within the City of Chicago and within one mile of the corporate limits for any person, owner, agent, operator, firm or corporation to permit to cause, suffer or allow the discharge, emission or release into the atmosphere from any source whatsoever of such quantities of soot, fly ash, dust, cinders, dirt, oxides, gases, vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter or any other materials in such place, manner or concentration as to constitute atmospheric pollution.

17-2.7 Any emission of smoke, particulate matter or other matter from any single such source in excess of the limitations established in or pursuant to Sections 17-2.3, 17-2.4 and 17-2.5 shall be deemed and is hereby declared to be a public nuisance, and may be summarily abated by the commissioner. Such abatement may be in addition to the administrative proceedings, fines and penalties herein provided.

The commissioner is further empowered to institute legal proceedings for the abatement or prosecution of emissions of smoke, particulate or other matter which causes injury, detriment, nuisance or annoyance to the public or endangers the health, comfort, safety or welfare or the public, or causes or has a natural tendency to cause injury or damage to business or property. Such abatement may be in addition to the administrative proceedings, fines and penalties herein provided.

17-2.8 Nothing in this chapter shall be construed to impair any cause of action, or legal remedy therefor, of any person or the public for injury or damage arising from the discharge, emission or release into the atmosphere from any source whatsoever of such quantities of smoke, soot, fly ash, dust, cinders, dirt, noxious or obnoxious acids, fumes, oxides, gases, vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter or any other materials in such place, manner or concentration as to constitute atmospheric pollution or a common law nuisance.

17-2.9 Failure of any person as owner or agent, operator, member of any operating crew, engineman, fireman, janitor, or in any other capacity, to comply with any provision of this chapter shall be deemed a violation of this chapter and shall be subject to the fines and penalties as hereinafter provided. It shall be the duty of owners or agents of any fuel-burning, combustion or process equipment or device to instruct, or cause to be instructed, the operators, operating crews, enginemen, firemen, hostlers, janitors, or any other person, operating such equipment or device about the proper operation of such combustion equipment or device.

17-2.10 It shall be unlawful to burn paper, wood, garbage, leaves, building construction, demolition debris or any other combustible material in open fires or in metal containers; provided, however, that the effective date for the prohibition of open burning of leaves shall be on and after June 29, 1970.

17-2.11 It shall be unlawful for any person to build, erect, install or use any article, machine, equipment or other contrivance that dilutes, reduces or conceals an emission, without reducing the quantity of pollutants released into the atmosphere and which, in its unaltered condition, would constitute a violation of Sections 17-2.3, 17-2.4 or 17-2.6 of this chapter.

17-2.12 No person shall operate, or cause to be operated, upon any street, highway, public place, stream or waterway, or private premises within the City of Chicago, any internal combustion engines of any motor vehicle, boat, tug or other vehicle, while stationary or moving, which emits from any source any particulate material, smoke, obnoxious or noxious gases, fumes or vapors or any other atmospheric pollutant, in violation of Sections 17-2.3, 17-2.4 or 17-2.6 of this chapter; provided, the foregoing shall not apply to the operation of aircraft at municipal airports.

17-2.13 It shall be unlawful for any person to cause or permit the handling, loading, unloading, reloading, storing, transferring, placing, depositing, throwing, discarding, or scattering of any ashes, fly ash, cinders, slag or dust collected from any combustion process, any dust, dirt, chaff, wastepaper, trash, rubbish, waste, or refuse matter of any kind, or any other substance or material whatever, which is likely to be scattered by the wind or is susceptible to being wind-borne, without taking reasonable precautions or measures so as to minimize atmospheric pollution.

17-2.14 Subject to the provision of Section 17-2.17 hereof, it shall be unlawful for any person to operate or maintain, or cause to be operated or maintained, any building, structure, or premises, open area, right of way, storage pile of materials, yard, vessel, or vehicle, or construction, alteration, building, demolition or wrecking operation, or any other enterprise, which has or involves any matter, material, or substance likely to be scattered by the wind, or susceptible to being wind-borne, without taking reasonable precautions or measures so as to minimize atmospheric pollution.

17-2.15 The commissioner shall have jurisdiction and authority over the sources of any matter, material, or substance likely to be scattered by the wind, or susceptible to becoming airborne or a contributing factor to atmospheric pollution, and shall have authority to abate wind-borne nuisances and to instigate prosecutions for violations of any provision of this chapter or any other chapter of this code relating to the eradication or control of matter susceptible to being wind-borne. For the purpose of minimizing atmospheric pollution, he shall, with the advice and consent of the advisory board, prescribe reasonable, specific operating and maintenance practices for buildings, structures, premises, open areas, automobiles, and/or truck parking and sales lots, private roadways, rights of way, storage piles of materials, yards, vessels, vehicles, construction, alteration, building, demolition or wrecking operations, and any other enterprise, which has or involves any matter, material, or substance susceptible to being wind-borne and for the handling, transportation, disposition, or other operation, with respect to any material subject to being wind-borne, which practices shall be embodied in the code of recommended practices.

17-2.16 The commissioner is hereby authorized to issue notices of violation for the purpose of giving notice to persons allegedly violating any of the provisions of this chapter or other ordinances relating to atmospheric pollution. If at the time of any original inspection, or annual inspection, or any other inspection, it is found that any fuel-burning, combustion or process equipment or device, or premises, is being operated or managed or is in such a condition or so installed that smoke, particulate, or other matter is being emited or may be emitted therefrom in violation of any emission limitation or other requirement or jurisdiction provided in this chapter, the commissioner may give notice in writing to any or all persons owning, operating, or in charge of such equipment or device, or premises, of the defective equipment or device, condition or operation, or violation. Such notice may be given by any inspector or other properly trained authorized agent of said commissioner, by delivering such notice to any person owning, operating, or in charge of the equipment or device, or premises, involved, or by leaving a copy thereof with a person in charge of such equipment, device, or premises, or by mailing a copy directed to the last known address of the person to be notified. Such notice may direct the alleged violator to appear and to present such notice at a designated office of the department in the City Hall or the Central Office Building at the date and hour specified thereon for the purpose of conferring with respect to the alleged violation and the corrective measures, if any, which should be taken. Such notice may contain a demand upon such person or persons to discontinue use of such equipment or device, or premises, until the correction thereof has been approved by the commissioner. Such notice shall allow up to ten days' time to correct the equipment or device, or condition or operation, and report compliance to the commissioner.

Failure to comply with such notice within ten days from its date, or within any extension of time granted under section 17-2.53 hereof, shall be a violation of this section and, upon such failure, the commissioner may revoke any existing certificate of operation for such equipment or device.

17-2.17 No person shall maintain or conduct, or cause to be maintained or conducted, any parking lot or automobile or truck sales lot, or use any real property for a private roadway unless such real property is covered or treated with a surface or substance or otherwise maintained in such manner as to minimize atmospheric pollution.

17-2.18 It shall be unlawful for any person to operate any surface burning type (hand-fired) of combustion equipment with any solid fuel other than a low volatile solid fuel unless:

(1) The commissioner has issued a certificate of operation therefor in accordance with section 17-2.35 or section 17-2.40, authorizing the use of other than low volatile solid fuel with such equipment;

(2) The commissioner has approved the equipment or types of equipment in accordance with section 17-2.24;

(3) The commissioner has issued an allowable fuel certificate for such equipment in accordance with sections 17-2.21, 17-2.22 and 17-2.23; or

(4) The appeal board has granted an individual variance for such equipment in accordance with section 17-2.54.

The foregoing restrictions shall not apply with respect to the burning of combustible refuse in such equipment in accordance with rules and regulations issued by the commissioner.

17-2.19 A solid fuel containing volatile matter in excess of 23% on an ash free basis shall be considered a low volatile solid fuel provided it meets the same standards in regard to smoke production as a low volatile solid fuel, and subject to the following conditions in order to ascertain whether or not such standards are met:

Adequate supplies of such solid fuel shall be made available to the commissioner to conduct such reasonable tests as he shall deem necessary to determine that such fuel meets the standards heretofore established. The reasonable expense of any such tests shall be borne by the person seeking the approval of such solid fuel.

The commissioner shall maintain and, upon request, furnish a list of brands or trade names of solid fuels which have been tested for conformity with the provisions of this chapter and which as a result of such tests have been approved.

17-2.20 Solid fuel, other than low volatile solid fuel, may be used or consumed only in mechanical combustion equipment or mechanically fired apparatus; except that after suitable inspections and tests have proven to the commissioner that any combination of surface burning type (hand-fired) of equipment and appurtenances and fuel can comply with the emission limitations established by or under this chapter, the commissioner shall approve the use of such combination of equipment and fuel.

17-2.21 The commissioner is hereby authorized to isue allowable fuel certificates for the use of any solid fuel other than a low volatile solid fuel in surface burning types (hand-fired) of equipment when approved in accordance with section 17-2.20, 17-2.23 or 17-2.24; provided, that with respect to equipment subject to annual inspection under this chapter, the commissioner may issue a certificate of operation in lieu of an allowable fuel certificate. Any such certificate issued by the commissioner shall be permanently attached and affixed to the fuel-burning equipment for which it is issued, in a manner so that it may be readily seen on inspection and, when so attached, shall constitute notice to all persons of the matter contained in such certification.

17-2.22 Each allowable fuel certificate issued by the commissioner shall identify the fuel-burning equipment, its major components and the owner or person responsible therefor and such other details as the commissioner may specify, and shall include the certification of the commissioner that such equipment may be operated with any solid fuel of not more than the volatile content specified therein by the commissioner.

17-2.23 The commissioner shall not issue installation permits or certificate of operation or allowable fuel certificates for any surface-burning type (hand-fired) of equipment for which installation permits or certificates of operation or allowable fuel certificates are required, unless the fuel to be used in such equipment shall be a low volatile solid fuel, or unless, after appropriate tests, it has been established to the satisfaction of the commissioner that such equipment is capable of burning the fuel to be used therewith without exceeding emission limitations established by or under this chapter.

17-2.24 For the purpose of determining that surface-burning types (hand-fired) of equipment are suitable for burning solid fuel other than low volatile solid fuel so as not to violate any provisions of this chapter:

(1) The commissioner shall have the authority to test each new type (new type being that which changes the manner of combustion) of surface burning type (hand-fired) of equipment offered for sale or use in the city of Chicago. Where he finds as a fact and so certifies that such equipment in which the fresh fuel is fired by hand is so designed that it will burn any solid fuel of any, or a specified, volatile content without exceeding the emission limitations established by or under this chapter, he shall issue an allowable fuel certificate for the type of equipment so tested and approved and shall authorize the tagging thereof in accordance with subparagraph (2) of this section. The cost to the city of all tests made for the determination of such authorization shall be borne by the applicant therefor.

(2) Any surface-burning type (hand-fired) of equipment so approved that is sold, offered for sale, exchanged, delivered or installed for use in the city shall bear a certificate or a plate or tag in accordance with the regulations of the department which identifies the equipment and the category for which it is approved.

17-2.25 It shall be unlawful for any person knowingly to sell, exchange, deliver, haul or transport to the ultimate consumer for use and consumption in any surface-burning type (hand-fired) of equipment in the city, any solid fuel which does not meet the standards of a low volatile solid fuel or which has not been approved for use with such equipment by issuance of an allowable fuel certificate or certificate of operation; provided, that the delivery, or transportation of solid fuel by railroad companies and other common carriers in the course of their common carrier business shall not be a violation of the provisions of this section.

17-2.26 It shall be unlawful for any person to sell, offer for sale, expose for sale, exchange, deliver or install for use in the city:

(1) Any make, model, or type of domestic refuse-burning equipment which has not been approved by the commissioner; or

(2) Any make, model, or type of approved domestic refuse-burning equipment for the burning of any type of refuse other than the types for which the refuse-burning equipment has been approved by the commissioner.

The delivery or transportation of any refuse-burning equipment by railroad companies and other common carriers in the course of their common carrier business shall not be deemed to be a violation of the provisions of this section.

17-2.27 Prior to approval, plans of each make, model, or type of domestic refuse-burning equipment shall be submitted to the department and such equipment be subjected to such tests as may be deemed necessary to establish its air pollution potential. For this purpose the commissioner may rely, in whole or in part, upon tests of such equipment previously conducted by nationally recognized associations.

(1) The commissioner shall list each make, model, or type of domestic refuse-burning equipment which he has approved, and shall designate

the approval as being limited to one of the following two categories:

Type A. Domestic burning equipment for ordinary paper or similar material only;

Type B. Domestic incinerators for burning rubbish and garbage.

(2) Any approved domestic refuse-burning equipment that is sold, offered for sale, exchanged, delivered or installed for use in the city shall bear a plate or tag in accordance with the regulations of the department which identifies the equipment and the category for which it is approved.

(3) Any person, firm, or corporation whose domestic refuse-burning equipment is submitted for tests by the department must pay all reasonable expenses necessary to the attendant tests, and the department shall furnish the submitter a copy of the results of such tests.

17-2.28 It shall be unlawful for any person to install, erect, construct, reconstruct, alter, or add to, or cause to be installed, erected, constructed, reconstructed, altered, or added to, any fuel-burning, combustion or process equipment or device, or any equipment pertaining thereto, or any stack or chimney connected therewith, within the city, excepting domestic heating plants, domestic refuse-burning equipment, locomotives, steamships and internal combustion engines, or to make, or cause to be made, major repairs to any high pressure boiler furnace or the brickwork on or about the same in said city, until an application for installation and operating permits on forms supplied by the department including suitable plans and specifications of the fuel-burning, combustion or process equipment or device, or high pressure boiler furnace repair, and the structures or buildings used in connection therewith, has been filed in duplicate by the owner, contractor, installer, or other person, or his agent, in the office of, and has been approved by, the commissioner as being so designed that the same can be managed and operated to conform to the provisions of this chapter, and an installation permit issued by him for such installation, erection, construction, reconstruction, alteration, addition to, or repair.

Provided, however, that maintenance or repairs or alterations which are minor in scope or do not change the capacity of such fuel-burning, combustion or process equipment or device and which do not involve any change in the method of combustion or materially affect the emission of smoke, dust, fumes, or other products of combustion therefrom, may be made without an installation permit; provided further, that an emergency repair may be made prior to the aplication for, and the issuance of, a required installation permit in the event an emergency arises and serious consequences would result if the repair were to be deferred. When such repair is made in emergency, application for an installation permit or an operating permit therefor shall be filed in duplicate by the person or his agent in the office of the commissioner within a reasonable time after the start of such work. Each installation permit shall be posted in a conspicuous place at, or near, the work for which it was issued.

17-2.29 The plans and specifications, submitted pursuant to section 17-2.28, of the fuel-burning, combustion equipment or device other than process or process equipment shall show the type of installation, the form and dimensions of such equipment or device, more particularly the proposed boiler, furnace, fuel burner, refuse burner, stack and ducts, together with the description and dimensions of the building or part thereof in which such equipment is to be located, the amount of work and the amount of heating to be done by such equipment, including all provisions made for the purpose of securing complete combustion of the fuel or refuse to be used and the manner in which it is to be burned for the purpose of preventing emissions in excess of the limitations established by or under this chapter. Said plans and specifications shall also show the character of the fuel or refuse to be burned, the maximum quantity of the same to be burned per hour, the operating requirements, and the use of such equipment; and that the room or premises in which such equipment shall be located is provided with adequate means of ventilation to provide sufficient air to complete the combustion process. Such plans and specifications shall further show, the dimensions of such room in which such equipment is to be located, the location and dimensions of all stacks used in connection with or as a part of said equipment, the location and dimensions of all stacks of any buildings or structures immediately adjoining and contiguous to the premises in question the frequency and duration of emissions, composition of effluents and range of collector efficiency. The commissioner may require such additional data as he deems necessary for the purpose of issuing a permit for the installation or operation of any such equipment.

The plans and specifications, submitted pursuant to section 17-2.28 of process or process equipment shall contain such information and data as the commissioner may deem necessary to determine the emission potential of such process or process equipment, including, but not limited to, the frequency and duration of emissions, except composition of effluents and range of collector efficiency.

17-2.30 The plans and specifications submitted pursuant to section 17-2.28 shall be prepared under the direction of, or approved by, a registered professional engineer and bear his seal.

17-2.31 Without the approval of the commissioner, no installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning, combustion or process equipment or device, or major repair to any high pressure boiler furnace for which an installation permit has been issued, shall be made which is not in accordance with the plans, specifications, and other pertinent information upon which such permit was issued.

17-2.32 Any application pursuant to section 17-2.28 shall be approved or rejected within ten days after it is filed in the office of the commissioner. Upon the inspection and approval of said plans and specifications by the commissioner and upon the payment of the fees hereinafter provided, and if such plans and specifications shall show that adequate provisions to insure compliance with the provisions of this chapter have been made, a permit for the installation, erection, construction, reconstruction, alteration of, or addition to, such fuel-burning, combustion or process equipment or device, or repair of high pressure boiler furnace, shall be issued. The issuance of an installation permit for any fuel-burning equipment or device may be conditioned upon the agreement of owner or operator or both to operate such equipment or device only with fuels of a specified volatile content or in such specified manner as may be appropriate to insure that such equipment or device can be operated in a manner which will not result in emission of smoke, particulate or other matter in excess of the maximum limitations established by or under this chapter. As soon as the commissioner has issued the permit as above provided, it shall be the duty of the various departments of the city having charge of the inspection of the premises wherein such equipment or process is located to cooperate with the commissioner to see that the execution of the work so authorized by said permit shall be done in conformity with the approved plans and specifications, and the code of recommended practices.

17-2.33 The requirement of filing plans and specifications involving the installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning combustion or process equipment or device, or the building of pilot plants or processes, or repair to any high pressure boiler furnace, to be used in or to become a part of a secret process is hereby suspended, upon the filing with the department, in lieu of the filing of plans and specifications, of an affidavit of a responsible person to the effect that such equipment or process is to be so used. Such person may also be required to furnish bond or other proof of financial responsibility in accordance with section 17-2.34. The suspension of the filing of such plans and specifications shall in no way relieve the person or persons responsible for the secret process from complying with all other provisions of this chapter.

17-2.34 If the proposed plans and specifications submitted pursuant to section 17-2.28 are not sufficiently complete, in the judgment of the commissioner, to show that the equipment or device for which such plans and specifications were submitted can consistently comply with and can be operated within the provisions of this chapter, either because the design or process is unconventional or untried, or because the person has elected to omit confidential details, or because there are insufficient data on which to estimate the air pollution potential, the commissioner is authorized to require as a condition precedent to the issuance of an installation permit or certificate of operation proof of financial responsibility and of ability to make any changes that may be required after construction to insure compliance with the provisions of this chapter. Such proof, in the discretion of the commissioner, may be a written statement to such effect, signed by the owner or a responsible officer of a financially sound organization, or a written guarantee of performance signed by a responsible supplier or contractor or other responsible person. The responsibility of any such person or soundness of any such organization shall be a matter within the judgment of the commissioner, subject to the right of appeal.

In the event that he is not given adequate proof of financial responsibility and of ability to make any changes that may be required, the commissioner may require any such person, as owner, lessee, operator, supplier, contractor, vendor, or other person, to file with the commissioner a surety bond running to the Cty of Chicago in the sum of not to exceed fifty thousand dollars, executed by such person or persons, as principal, and two or more sureties, or a surety company authorized to do business in this state, said bond to be approved as to form and amount in accordance with the provisions of section 7-4 of this code, assuring compliance with the conditions of the permit and any agreement or guarantee and ability to make changes necessary for compliance with the provisions of this chapter.

17-2.35 Upon completion of any work for which an installation permit was issued, the department shall be notified by the person or persons responsible therefor, and, if upon inspection it is found that such work is in conformity with the plans and specifications, and is found to operate within the provisions of Sections 17-2.3, 17-2.4 and 17-2.6, the commissioner shall issue a certificate of operation forthwith.

17-2.36 If an installation permit for which an application is required by section 17-2.28 is not procured prior to the start of any work for which such a permit is required or if any work for which an installation permit has been issued fails to comply with the plans and specifications filed in connection therewith or with the terms of such permit, the commissioner shall have authority to stop all work and seal the installation or equipment and further work or operation shall not proceed until the commissioner has issued an installation permit and has been assured that the work will proceed in accordance with the installation permit. Persons responsible for such equipment may also be required to furnish bond or other proof of responsibility in accordance with section 17-2.34.

17-2.37 Any person who has started or completed the installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning, combustion or process equipment or device, or any equipment pertaining thereto, or any stack or chimney connected therewith, or has started or completed, or caused to be started or completed, the major repair of any high pressure boiler furnace or the brickwork on or about the same without first having obtained a permit for such work from the commissioner pursuant to section 17-2.32, shall be subject to the fines and penalties herein provided.

17-2.38 If the installation, erection, construction, reconstruction, alteration, addition, or repair is not completed within one year of the date of issuance of the installation permit, or any extended period allowed by the commissioner, the permit shall become void and all fees paid shall be forfeited.

17-2.39 It shall be the duty of any person responsible for any discontinued or dismantled fuel-burning, combustion or process equipment or device coming under the jurisdiction of the permits or fees provisions of this chapter to report to the department within thirty days the permanent discontinuance or dismantlement of such equipment or device.

17-2.40 An annual inspection shall be made by the department of all fuel-burning, combustion or process equipment or devices, coming under the provisions of this chapter, whether or not a certificate of operation or allowable fuel certificate allowing use of such equipment or process has been previously issued by the commissioner, to see that such equipment or process can be so managed and operated that no smoke, particulate, or other matter shall be emitted therefrom in violation of any emission limitation or other requirement provided under this chapter; provided, however, that no annual inspection shall be required of locomotives, ships, boats, tugs, internal combustion engines, domestic heating plants, or domestic refuse-burning equipment; and provided, also, that where any fuel-burning, combustion or process equipment or device has been installed, erected, constructed, reconstructed, altered, added to, or repaired pursuant to a permit issued under section 17-2.32, has been inspected in accordance with the requirements of section 17-2.35 hereof, and has been in operation less than six months, an annual inspection will not be required until six months from the date such equipment was first put under fire after the completion of such work.

The fees for each annual inspection, as hereinafter provided, shall include the issuance of a certificate of operation.

Each annual certificate of operation shall be effective from the date thereof for a period of one year or until the next annual inspection.

17-2.41 Upon a finding that any fuel-burning, combustion or process equipment or device inspected, on any original, annual or subsequent inspection, has been found to comply with the provisions of this chapter, and after payment of the prescribed fee, the commissioner shall issue a certificate of operation which shall be posted in a conspicuous place at or near the equipment or process. Any certificate of operation may contain such information and certifications as are contained in allowable fuel certificates pursuant to section 17-2.22.

17-2.42 It shall be unlawful for any person or his agent to use or operate any fuel-burning, combustion or process equipment or device which is subject to annual inspection, as hereinabove set forth, without having an effective certificate of operation therefor.

17-2.43 The commissioner shall have the same power and jurisdiction over all fuel-burning, combustion or process equipment or devices owned or operated by any branch of the federal, state or local governments and any municipal corporation as over all other fuel-burning, combustion or process equipment or devices subject to the terms of this chapter; and all such branches and corporations shall be subject to the requirements of this chapter.

It shall be the duty of the commissioner to inspect at least once in each year all of such installations, and also to preserve a record of the condition with respect to the requirements of this chapter of such installations as shown by such inspection. No fee shall be charged or paid to the department or to any of its employees for any original, annual or subsequent inspection of any such installation or for the certificate of operation therefor issued by the department.

17-2.44 Fees for the inspection of plans and issuing installation permits for the installation, erection, construction, reconstruction, alteration of, or addition to, fuel-burning, combustion or process equipment or devices, and installation of apparatus or devices for the prevention or arresting of the discharge smoke, particulate, liquid, gaseous, or other matter shall be as follows:

| | |
|---|---|
| Filing fee for the evaluation of plans of fuel-burning and refuse-burning equipment | $ 5.00 |
| Filing fee for the evaluation of plans of process equipment or control devices | |
| 1 to 10 Unit Processes and Unit Operations | 5.00 |
| 11 to 100 Unit Processes and Unit Operations | 10.00 |
| 101 and Over Unit Processes and Unit Operations | 15.00 |

Permits for the installation, erection, construction, reconstruction, alteration of, or addition to any fuel-burning, combustion or process equipment or device, dust loading device or chimney.

Fuel-burning equipment used for space heating, steam and hot water generation for each unit:

| | |
|---|---|
| Of a capacity of less than 288,000 Btu/Hr. | $10.00 |
| Of a capacity of 288,000 Btu/Hr and less than 960,000 Btu/Hr | 15.00 |
| Of a capacity of 960,000 Btu/Hr and less than 2,880,000 Btu/Hr | 20.00 |
| Of a capacity of 2,880,000 Btu/Hr or more | 30.00 |

Refuse-burning equipment, for each unit:

| | |
|---|---|
| With less than five square feet of grate area | $ 5.00 |
| With five square feet and less than ten square feet | 10.00 |
| With ten square feet and less than fifteen square feet of grate area | 15.00 |
| With fifteen square feet and less than twenty square feet of grate area | 20.00 |
| With twenty or more square feet of grate area | 25.00 |
| Per one unit operation of one unit process creating atmospheric pollution or any device controlling atmospheric pollution | $10.00 |

17-2.45 Fees shall be as follows for the examination or inspection of any new or reconstructed fuel-burning, combustion or process equipment or device, after its erection or reconstruction, and before its operation and maintenance:

Fuel-burning equipment used for space heating, steam and hot water generation for each unit:

| | |
|---|---|
| Of a capacity of less than 288,000 Btu/Hr. | $10.00 |
| Of a capacity of 288,000 Btu/Hr and less than 960,000 Btu/Hr | 20.00 |
| Of a capacity of 960,000 Btu/Hr and less than 2,880,000 Btu/Hr | 30.00 |
| Of a capacity of 2,880,000 Btu/Hr or more | 40.00 |

Refuse-burning equipment, for each unit:

| | |
|---|---|
| With less than five square feet of grate area | $10.00 |
| With five square feet and less than ten square feet | 20.00 |
| With ten square feet and less than fifteen square feet of grate area | 30.00 |
| With fifteen square feet and less than twenty square feet of grate area | 40.00 |
| With twenty or more square feet of grate area | 50.00 |
| Per one unit operation or one unit process creating atmospheric pollution or any device controlling atmospheric pollution | $10.00 |

17-2.46 Fees shall be as follows for the annual inspection of fuel-burning, combustion or process equipment or devices: Fuel-burning equipment used for space heating, steam and hot water generation for each unit:

| | |
|---|---|
| Of a capacity of 288,000 Btu/Hr and less than 2,400,000 Btu/Hr | $10.00 |
| Of a capacity of 2,400,000 Btu/Hr and less than 6,000,000 Btu/Hr | 15.00 |
| Of a capacity of 6,000,000 Btu/Hr or more | 20.00 |

Refuse-burning equipment, for each unit:

| | |
|---|---|
| With less than seven square feet of grate area | $ 5.00 |
| With seven square feet and less than twenty square feet | 10.00 |
| With twenty square feet and less than fifty square feet grate area | 12.00 |
| With fifty square feet or more of grate area | 15.00 |
| Per one unit operation or one unit process creating atmospheric pollution or any device controlling atmospheric pollution | 5.00 |

The fee for annual inspection shall include the issuing of a certificate of operation.

17-2.47 All fees or penalties prescribed for the issuance of permits, licenses or certificates, or for the inspection of plans, premises or equipment, under any provision of this chapter, shall be paid to the commissioner, who shall render to the person making such payment a receipt stating the amount and purpose for which such fee or penalty has been paid, a duplicate of which shall be made part of the records of the department. All fees and penalties thus received shall be deposited with the city collector for the corporate fund.

17-2.48 All fees or penalties prescribed for the payment of which is required under any provision of this chapter, shall constitute a debt due the city. The corporation counsel shall, at the request of the commissioner, institute civil suit in the name of the city to recover the amount of any such unpaid fee or penalty. No civil judgment, or any act by the corporation counsel, the commissioner, or the violator, shall bar or prevent a criminal prosecution for each and every violation of this chapter.

17-2.49 In the event the installation of the fuel-burning, combustion or process equipment or device is not completed or that the commissioner or any other authorized officer of any department of the city refuses issuance of a permit for the erection or construction of any building or structure in which such equipment, process or device was to be located, the fee which has been paid for the permit or the certificate of operation may be refunded upon proper presentation of the facts; provided, however, that no refund shall be made after a period of one year from the payment of the fee.

17-2.50 The Commissioner shall remit all inspection or examination fees charged against any charitable, religious or educational institution when the furnace or other combustion equipment, device or apparatus inspected is located in or upon premises used and occupied exclusively by such institution; provided, however, that such charitable, religious or educational institution is not carried on for, or connected with any institution conducted for private gain or profit. The commissioner may require every application for the remission of such fees to be verified by affidavit of one or more taxpayers of the city.

17-2.51 In the event of unavoidable failure or breakdown of any fuel-burning, combustion or process equipment or device or other circumstances beyond the control of any person owning or operating such equipment, including necessary shutdowns of smoke abatement or dust collection equipment for purposes of maintenance or repair, which tends to produce unlawful emission of smoke, particulate, or other matter, the owner or managing agent of such equipment or process shall immediately notify the department of such failure, breakdown or other circumstance together with all pertinent facts relating thereto and a statement of the date upon which the condition will be rectified, and shall also report to it when such defect has been removed. Immunity from prosecution under such circumstances shall be at the discretion of the commissioner.

17-2.52 The commissioner is hereby authorized to conduct or cause to be conducted, any test or tests as may be necessary to determine the extent of emission of particulate matter from any fuel burning, combustion or process equipment or devise, if and when, in his judgment, there is evidence that any such equipment, process or device is exceeding any emission limitation prescribed by or under this chapter. The result of any test shall be made available to the person responsible for such property tested. Tests shall be made and the results calculated in accordance, where applicable, with American Society of Mechanical Engineers "Power Test Codes, Test code for determining dust concentration in a gas stream PTC-27-1957" procedure as revised from time to time or in accordance with modified procedures mutually agreed upon between the commissioner and the person. All tests and calculations shall be made under the direction of a competent engineer. Any test or tests to be conducted on the premises where such equipment or device is located shall be made during reasonable hours, after written notice to, and with the cooperation of, the owner or operator. The cost of any test or tests and calculations shall be a debt due the city from any person responsible as owner, operator or otherwise of such fuel-burning, combustion or process equipment or device in all cases when such test or tests shall have proven any emission of particulate matter in violation of any provision of this chapter, and such unpaid debt shall be recoverable in any court of competent jurisdiction. If any such emission is shown by such test or tests to be within the limits of emission prescribed in this chapter, the cost of such test or tests shall be charged to the annual appropriation of the department.

17-2.53 In the event any person is compelled to, or deems it advisable to, install any new equipment, process or device, appliance, means or methods, including needed control equipment, in order to comply with any provision of this chapter and exemption from the operation of this chapter is reasonably necessary in order to allow sufficient time for such installation, such exemption may be granted by the commissioner on good cause shown. Upon complaint in writing by any such person, setting forth that it is impossible in the operation of any plant, fuel-burning, combustion or process equipment or device, or apparatus, to operate the same in complete compliance with the requirements of this chapter, and stating evidence satisfactory to the commissioner that such person has taken, or will take, all steps necessary to provide for future compliance with the provisions of this chapter, and giving assurance to the commissioner that the acquisition and installation of the proper equipment, process, device, or appliance, or control equipment, will be effected within a reasonable period of time, stating specifically the nature and extent thereof, and upon the finding by the commissioner on investigation by him of the facts, that said complaint is well grounded, the commissioner is authorized to permit the operation of such plant, fuel-burning, combustion or process equipment or device, or apparatus, for a reasonable period of time within which period the necessary equipment, process, device, appliance, means or methods, or control equipment, is to be acquired and installed; provided, however, that the commissioner is empowered to grant further reasonable extensions of time upon proof of extenuating circumstances, and that an order of the commissioner denying a complaint for a period of grace or an extension of time shall be subject to review by the appeal board, as hereinabove provided. During any such granted period, such persons shall not be subject to the fines and penalties hereinafter provided for the noncompliance sought to be remedied; if, however, such person wilfully fails in the time allowed to conform with applicable provision or provisions of this chapter, or to comply with his assurance and agreement, he shall be subject to all applicable fines and penalties herein provided dating from the date of the beginning of the said period or periods.

It shall be the duty of such person to notify the commissioner immediately of the completion of such installation.

17-2.54 For the purpose of aiding the commissioner in establishing a code of recommended practices and in reaching technically correct decisions on all matters pertaining to the enforcement of the provisions of this chapter, a technical advisory board, to be appointed by the mayor, by and with the consent of the city council, is hereby established. The advisory board shall consist of seven members, one of whom shall be designated by the mayor as chairman and four of whom shall constitute a quorum. They shall be appointed for a term of four years, or until their respective successors are appointed and qualified, except that of the initially appointed board, two members shall serve for one year, two members for two years, two members for three years, and one member for four years. Six members shall be scientists, or registered professional engineers acquainted with at least one phase of air pollution and its control as well as with industrial processes and equipment, whose experience and training qualify them to give competent technical advice to the commissioner. They shall not be interested in the sale to the public of any fuel-burning, combustion or process equipment or device, water pollution control device or noise abatement device. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

It shall be the duty of the advisory board to work with the commissioner in the promulgation and adoption of the code of recommended practices. It shall be the further duty of the advisory board to advise the commissioner and the appeal board with respect to the technical points concerned with the enforcement of the provisions of this chapter; but neither the commissioner nor the appeal board shall be required to act on the advice of the advisory board if, in their respective opinions, there is good and sufficient reason to believe that such advice will not serve the best interests of the public.

Meetings of the advisory board shall be held at such times as deemed necessary by the chairman or by the commissioner. The compensation of each member shall be as set forth in the annual appropriation ordinance.

17-2.55 An appeal board, to be appointed by the mayor, by and with the consent of the city council, is hereby established. The appeal board shall consist of seven members, one of whom shall be designated by the mayor as chairman, and four of whom shall constitute a quorum. They shall be appointed and qualified, except that of the initially appointed appeal board, two members shall serve for one year, two members for two years, two members for three years, and one member for four years. They shall be residents of the City of Chicago.

One member shall have had at least five years' business or administrative experience in the ownership or operation of industrial or commercial enterprises; one member shall be a registered physician who has had at least five years medical practice in one or more of the fields of public health, industrial hygiene or epidemiology; one member shall be at the time of his appointment, and for at least five years prior thereto, actively engaged as a chief operating engineer of a plant containing high pressure boilers, and who is also a licensed engineer; one member shall be at the time of his appointment, and for five years prior thereto, actively engaged as a registered professional engineer in the solid fuel industry or in the construction, design, or operation of fuel-burning, combustion or process equipment; one member shall be at the time of his appointment, and for five years thereto, licensed to practice law in the State of Illinois; two members shall be appointed at large. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

Meetings of the appeal board shall be held at the call of the chairman, and at such other times as the appeal board may determine. The appeal board shall have the power to adopt and enforce such rules and regulations as it may deem necessary to carry into effect the appeal powers herein provided and in connection therewith may call upon the advisory board for technical assistance and advice. All hearings conducted by the appeal board shall be open to the public. Any person may appear and testify at a hearing, either in person or by duly authorized representative or attorney.

The appeal board shall keep minutes of its proceedings showing the vote of each member upon each question, or if he is absent or failing to vote, indicating such fact, and shall also keep records of its hearings and other official actions. Every rule and regulation, every amendment or repeal thereof, and every order, requirement, decision, or determination of the appeal board shall be filed immediately in the office of the department and shall be a public record.

A majority of the appeal board is hereby vested with the following jurisdiction and authority:

(1) To decide appeals from any decision, ruling, regulation, determination or order made by the commissioner under this chapter, or failure to act upon request within a reasonable period of the commissioner, in the manner and subject to the standards set out in section 17-2.4 hereof;

(2) To pass upon applications for extensions of time for compliance, or for exemptions or variances in the manner and subject to the standards set out in section 17-2.4 hereof;

(3) To decide all matters referred to it or upon which it is required to pass under this chapter.

17-2.56 (1) The appeal board is given further authority for the granting of individual variances for any fuel-burning, combustion or process equipment or device, beyond the limitations prescribed in sections 17-2.3 and 17-2.4 or any other section of this chapter, except as provided in subsection (3) hereof, whenever it is found, upon the presentation of adequate proof, that because of conditions beyond control compliance with any provision of this chapter or other ordinance relating to atmospheric pollution, or with the code of recommended practices, or any rule, regulation, requirement or order of the commissioner or of the appeal board, or the failure of the commissioner to act on any complaint, will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity, in either case without a sufficient corresponding benefit or advantage to the people in the reduction of atmospheric pollution; in such case there shall be prescribed other and different requirements not more onerous applicable to plants or equipment involved.

(2) In determining under what conditions and to what extent a variance from any of said requirements is necessary and will be permitted, the appeal board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the public health, safety and welfare and to any lawful business, occupation or activity involved, resulting from requiring compliance with any such requirement or resulting from granting a variance.

(3) The appeal board is further given authority to grant an individual variation for fuel burning equipment from the provisions of Section 17-2.5(3)(a) hereof under the following conditions:

(a) Said variation shall be limited so that such equipment may be permitted to burn fuel containing percentages of sulfur by weight in excess of the limitations prescribed by said Section 17-2.5(3)(a) hereof whenever an applicant shall establish before the board that it can and will pursue a bona fide program restricting the quantity of fuel burned in said equipment in the aggregate owned or operated in the City of Chicago by said applicant with the effect that:

(1) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than eighty-three per cent (83%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for each of the two years from and after June 29, 1969.

(2) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than sixty-six percent (66%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for a period of one year from and after June 29, 1971.

(3) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than fifty-eight per cent (58%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for a period of one year from and after June 29, 1973.

(4) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than fifty percent (50%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for each year thereafter.

(b) The variance shall not permit the applicant, in meeting the percentages set forth in (1), (2), (3) and (4) of this subsection to operate his equipment in any calendar month so that the sulphur compound emissions for that month materially exceed such percentages of such emissions in the corresponding calendar month of 1967.

The compensation of each member of the appeal board shall be as set forth in the annual appropriation ordinance.

17-2.57 Any person taking exception to and affected by any final decision, ruling, requirement, rule, regulation or order, or failure to act upon request within a reasonable period of the commissioner, may take an appear to the appeal board as established by this chapter. Such appeal shall be taken within thirty days after receiving notice of such decision, ruling, requirement, rule, regulation or order, or failure to act upon request within a reasonable period, by filing with the commissioner a notice of appeal directed to the appeal board, specifying the grounds thereof and the relief prayed for. The commissioner shall forthwith furnish to the appeal board all the papers relating to the case. Beginning with the date of filing of the appeal, the appeal board, not less than five days nor more than ten days thereafter, shall set a date for the hearing, which shall be held within the following twenty-one days, and shall give written notice thereof by mail to the interested parties. The appeal board may in its discretion grant continuances. Such an appeal shall act as a stay of the decision, ruling, requirement, rule, regulation or order in question until the appeal board has taken final action on the appeal. At the hearing any party may appear in person or by agent or attorney, and present evidence, both written and oral, pertinent to the questions and issues involved, and may examine and cross-examine witnesses. The appeal board, no later than ninety days after the filing date, shall affirm, modify or reverse the decision, ruling, requirement, rule, regulation or order of the commissioner or order him to act. The decision of the appeal board shall be binding on the commissioner.

The provisions of the "Administrative Review Act", approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply and govern all proceedings for the judicial review of final administrative decisions hereunder.

The appeal board at its expense shall provide a stenographer to take the testimony and preserve a record of all proceedings under this chapter. The notice of appeal, the notice of hearing, all other documents in the nature of pleadings and written motions filed in the proceedings, the transcript of testimony and the findings of fact and decisions shall be the record of the proceedings. The appeal board shall furnish a transcript of such record to any person interested as a party to such hearing upon the payment thereof of seventy-five cents per page for each original transcript, and twenty-five cents per page for each carbon copy thereof. However, the charges of any part of such transcript ordered or paid for previous to the writing of the original record shall be twenty-five cents per page.

The appeal board shall not be required to certify any record or file any answer or otherwise appear in any proceeding for judicial review unless the party filing the appeal deposits the sum of ninety-five cents per page representing costs of certification. Failure on the part of the appellant to make such deposits shall be grounds for dismissal of the action. Upon judicial review the secretary of the appeal board shall certify the record.

17-2.58 After any person has been previously notified of three or more violations of this chapter within any consecutive twelve-month period in respect to the emission of smoke, particulate or other matter by the same piece of equipment in excess of the emission limitations herein provided or in respect to violations of other requirements provided in this chapter, such person shall be notified in writing to show cause before the commissioner on a day certain, not less than twenty days from date of service of such notice, why the equipment or process causing such violations should not be sealed. This last notice herein provided for may be given by mail, directed to the last known address of the person to be notified, or if such person or his whereabouts is unknown, then by posting a notice on or near the premises at which the violations shall have occurred. Upon the date specified in the notice such person may appear at such hearing in person or by representative, with or without counsel. If such person fails to appear at such hearing or if upon such hearing the commissioner shall find and determine that the violations are due to defective equipment or equipment which is incapable of being operated within the maximum emission limitations established by or under this chapter, or that corrective measures previously ordered by the commissioner have not been employed to eliminate the causes producing the violations, he may enter an order revoking any certificate or permit outstanding for such equipment or process and directing that the same be sealed by an inspector or other authorized agent of the commissioner.

17-2.59 Upon notice and hearing, if notice and hearing has not previously been provided, the commissioner may order that the use of any fuel-burning, combustion or process equipment or device shall be discontinued and may seal such equipment or process.

(1) As provided in sections 17-2.36 and 17-2.55 of this chapter;

(2) When a certificate of operation is refused in the case of any original, annual or subsequent inspection, because the person required to procure such certificate has not complied with the provisions of this chapter;

(3) In the case of movable equipment, or portable boilers, or vehicles, when immediate correction of a condition causing a violation of this chapter is not made by the operator of such equipment, portable boiler or vehicle when ordered to do so by the commissioner or his authorized representative.

17-2.60 Whenever, in connection with the enforcement of this chapter, any fuel-burning, combustion or process equipment or device, or any plant, building, structure, premises, portable boiler or vehicle, has been sealed at the direction of the commissioner, the seal shall not be broken or removed except on written order of the commissioner. The breaking or removal of this seal without such order shall be a violation of this chapter, and each day such seal remains broken or removed shall constitute a separate offense.

17-2.61 The commissioner, or anyone authorized to act for him, in the performance of his duties and for the purpose of enforcing and administering this chapter or any order, regulation or rule promugated pursuant thereto, or for the purpose of obtaining facts with respect to any complaint or non-compliance, is hereby authorized and empowered to enter into any building, structure, establishment, premises or enclosure or other place at all reasonable hours for the purpose of inspecting any fuel-burning, combustion or process equipment or device situated therein; or to stop, detain and inspect any portable boiler or vehicle; and shall collect and preserve any and all evidence pertaining to any alleged violation of any provision of this chapter. If any person in any way denies, obstructs or hampers such entrance or inspection, the commissioner is hereby authorized to refuse the issuance of any certificate or permit for any fuel-burning, combustion or process equipment or device with respect to which entrance or inspection has been denied in the event one has not been issued, or to revoke any outstanding certificate or permit issued for such equipment or device.

17-2.62 Any person found guilty of violation, disobeying, omitting, neglecting, or refusing to comply with, or resisting or opposing the enforcement of, any of the provisions of this chapter, except when otherwise specifically provided, upon conviction thereof shall be punished by a fine of not less than ten dollars nor more than two hundred dollars for the first offense, and not less than fifty dollars nor more than two hundred dollars for the second and each subsequent offense, in any ninety day period. A separate and distinct offense shall be regarded as committed each day on which such person shall continue or permit any such violation, or failure to comply is permitted to exist after notification thereof. In addition to such fines and penalties, the permit, or certificate or operation of such person, or of the offending property, may be suspended or revoked, as hereinbefore provided.

17-2.63 All persons causing, participating in, or permitting any violation of any provision of this chapter shall be severally or jointly liable therefor and as such subject to the fines and penalties provided by this chapter.

17-2.64 Prosecutions under this chapter shall be instituted by the commissioner and shall be prosecuted in the name of the city.

The issuance and delivery by the commissioner of any permit, certificate for installation, erection, construction, reconstruction, repair, alteration, or addition thereto, of any fuel-burning, combustion or process equipment or device, or any appurtenance thereto, or certificate for use or operation of any such property, or permit to maintain an open fire, or permit to operate any portable boiler or vehicle, shall not be held to exempt any person to whom any such permit or certificate has been issued or delivered, or who is in possession of any such permit or certificate, from prosecution on account of the emission of smoke, particulate or other matter in violation of this chapter, caused or permitted by any such person or persons, or any other violation of the provisions of this chapter by such person or persons.

17-2.65 If any provision, clause, sentence, paragraph, section, or part of this chapter, or application thereof to any person, firm, corporation or circumstance, shall, for any reason, be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, said judgment shall not affect, impair or invalidate the remainder of this chapter and the application of such provision to other persons, firms, corporations or circumstances, but shall be confined in its operation to the provision, clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which such judgment shall have been rendered and to the person, firm, corporation or circumstance involved. It is hereby declared to be the legislative intent of the city council that this chapter would have been adopted had such invalid provision or provisions not been included.

17-2.66 Any prosecution arising from a violation of any ordinance or part of ordinance repealed herein or hereby, whether expressly or by implication, which prosecution may be pending at the time this chapter becomes effective, or any prosecution which may be started within one year after the effective date of this chapter, in consequence of any violation of any ordinance or part of ordinance so repealed, which violation was committed previous to the effective date of this chapter, shall be tried and determined exactly as if such ordinance or part thereof had not been repealed.

17-2.67 This article shall not be considered or construed as in any way repealing, modifying or nullifying any other ordinance of the city or the provisions of this code or any rules and regulations thereunder, except those ordinances or provisions expressly repealed hereby. This article shall be deemed to be concurrent with and supplemental to any ordinances of the city or any provisions of this code.

## Article III

## INDUSTRIAL WASTE CONTROL

17-3.1 Unless otherwise specifically indicated, the meaning of the terms used in this Article shall be as follows:

(a) "Commissioner" shall mean the Commissioner of Environmental Control of the City of Chicago.

(b) "Combined sewer" shall mean a sewer receiving both surface runoff and sewage.

(c) "Garbage" shall mean solid wastes from the preparation, cooking and dispensing of food, and from the handling, storage or sale of meat, fish, fowl, fruit, or vegetables and condemned food.

(d) "Ground or comminuted garbage" shall mean wastes from the preparation, cooking and dispensing of foods that has been comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

(e) "Industrial wastes" shall mean the solids, liquid or gaseous wastes resulting from any industrial, manufacturing, trade or business process or from the development, recovery or processing of natural resources.

(f) The term "Other Wastes" shall mean decayed wood, sawdust, shavings, bark, lime, refuse, ashes, garbage, offal, oil, tar, chemicals and all other substances except sewage and industrial wastes.

(g) "Intercepting sewer" shall mean any sewer built, acquired, or maintained by The Metropolitan Sanitary District of Greater Chicago for the purpose of receiving sewage or combined sewage and storm flow from one or more local sewers.

(h) "The Metropolitan Sanitary District of Greater Chicago" shall mean the municipal corporation organized and existing under the laws of the State of Illinois enacted by the Illinois State Legislature July 1, 1889, entitled "An Act to Create Sanitary Districts and to Remove Obstructions in the Des Plaines and Illinois Rivers", as amended, and shall hereafter be referred to as the Sanitary District.

(i) "Natural outlet" shall mean any outlet into a water-course, pond, ditch, lake, or other body of surface water.

(j) "Person" shall be as defined in Section 17-2.1 of this chapter.

(k) "Pollution" shall mean the discharge of deposit in or upon such waters of sewage, industrial wastes, or other wastes containing soluble or insoluble solids of organic or inorganic nature which may deplete the dissolved oxygen content of such waters, contribute settleable solids that may form sludge deposits, contain oil, grease, or floating solids which may cause unsightly appearance on the surface of such waters, or contains soluble materials detrimental to aquatic life, all beyond the content of such like substances present in an equal volume of the effluent discharge from the sewage treatment works of the Sanitary District into similar receiving waters.

(l) "Sewage" shall mean a combination of water carried wastes from residences, business buildings, institutional, and industrial establishments, together with such ground, surface and storm waters as may be present.

(m) "Sewage Treatment Works" shall mean the arrangement of devices and structures for treating sewage and industrial wastes.

(n) "Sewage Works" shall mean all facilities for collecting, pumping, treating and disposing of sewage and industrial wastes.

(o) "Sewer" shall mean a pipe or conduit for carrying sewage or other waste liquids.

(p) "Sewage System" shall mean the network of sewers and appurtenances for collection, transportation, and pumping of sewage and industrial wastes.

(q) "Storm sewer" shall mean a pipe or conduit which carries storm, surface water and drainage but excludes sewage and industrial wastes. It may, however, carry cooling waters and unpolluted waters.

(r) The term "toxic substances" shall mean any substance whether gaseous, liquid or solid which when discharged into the sewer system in sufficient quantities will interfere with any sewage treatment process, or will constitute a hazard to human beings or animals, or will inhibit aquatic life or create a hazard to recreation in the receiving waters of the effluent from the sewage treatment works of The Metropolitan Sanitary District of Greater Chicago.

(s) The term "Waters" shall mean all waters of any river, stream, water course, pond, or lake wholly or partly within the territorial boundaries of the City of Chicago.

(t) "Water-course" shall mean any channel, natural or artificial, whether lined or unlined, for drainage of storm water, ground water or clear water.

17-3.2 It shall be unlawful for any person to install any drain outlet or other facility for the discharge, into any of the waters or water courses within or adjoining the City of Chicago, or any industrial wastes or other wastes that will cause the pollution of such waters or water courses, without having obtained a written permit from the Commissioner; and no changes, additions or extensions to any such existing drain outlet or other facility for such discharge, shall be made without having obtained a written permit for the same from the Commissioner.

17-3.3 Whenever an industrial plant or other establishment discharges or proposes to discharge industrial wastes into any waters, sewer, drain, water course or natural outlet in the City of Chicago and it becomes necessary either to:

(a) Reduce or modify the objectionable characteristics or constituents of such industrial wastes to meet the limits or requirements provided for in Section 17.3.4 hereof, and to prevent pollution; or to

(b) Control the quantities and rates of discharge of such industrial wastes over a twenty-four (24) hour day and a seven (7) day week to prevent surge discharges which may place an unreasonable burden upon the sewage works of The Metropolitan Sanitary District of Greater Chicago;

the Commissioner shall require the owner, operator or tenant of such industrial plant, or other establishment, to provide adequate preliminary treatment or handling facilities to accomplish such a result. Before any permit for the construction of preliminary treatment or handling facilities shall be issued, plans, specifications and other pertinent data or information relating to such proposed treatment or handling facilities shall be submitted by the industry for the approval of the Commissioner. No permit shall be issued and no construction of such facilities shall be commenced without the prior written approval of the Commissioner; and no substantial alteration or addition to or in the sewer or drain or in the preliminary treatment or handling facilities shall be made without the prior written approval of the Commissioner.

17-3.4 Except as otherwise provided herein, no person shall discharge or cause to be discharged any of the following described wastes or waters into any sewer, water course, natural outlet or waters within or partially within or adjoining the boundaries of the City of Chicago:

(a) Water or wastes containing more than 100 parts per million (833 pounds per million gallons) of fats, oils or greases if such water or wastes are in the opinion of the Commissioner, sufficient (1) to interfere with the biological processes of a sewage treatment plant; (2) interfere with proper operation of the sewage works; (3) cause obstruction to flow in sewers; (4) cause pollution as herein defined.

(b) Liquids, solids, or gases which by reason of their nature or quantity are sufficient to cause fire or explosion or be injurious in any way to the sewage works structures or to the operation of the sewage works.

(c) Noxious or malodorous liquids, gases or substances which whether singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for their maintenance and repair.

(d) Water or wastes having a pH lower than 4.5 or higher than 10.0 or having corrosive properties sufficient to cause damage or hazards to structures, equipment, or personnel of the sewage works or of interfering with the proper operation of the sewerage system or sewage treatment works.

(e) Water or wastes containing toxic substances in quantities which are sufficient to interfere with the biological processes of the sewage treatment works.

(f) Garbage that has not been ground or comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

(g) Radio-active wastes unless they comply with the Atomic Energy Commission Act of 1954 (68 Stat. 919 as amended and Part 20, Sub-Part D-Waste Disposal, Section 20.303, of the Regulations issued by the Atomic Energy Commission), or amendments thereto.

(h) Solid or viscous wastes which cause obstruction to the flow in sewers or other interference with the proper operation of the sewerage system or sewage treatment works, such as grease, uncomminuted garbage, animal guts or tissues, paunch manure, bone, hair, hides, fleshings, entrails, feathers, sand, cinders, ashes, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grain, waste paper, wood, plastic, gas tar, asphalt, residues, residues from refining or processing of fuels or lubricating oil, gasoline, naptha, and similar substances.

(i) Liquids or vapors having a temperature higher than 150° F. at the point of entrance into a public sewer.

17-3.5 Wherever possible clean waters from air conditioning, cooling or condensing systems or from swimming pools or clean waters resulting from pre-treatment of industrial wastes shall be discharged into a storm sewer, combined sewer or natural outlet approved by the Commissioner.

17-3.6 Any person discharging industrial wastes into a sewer shall construct and maintain a suitable control manhole or manholes downstream from any such places of discharge to permit observation, measurement and sampling of such wastes by the Commissioner or by personnel of the Sanitary District as hereinafter provided. Where no manhole has been constructed or can be constructed, as in the case of some existing industries, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected.

17-3.7 The Commissioner shall have the right to enter and set up, on the owner's property, such devices as may be necessary to conduct a gauging and sampling operation after first giving ten days advance notice of his intention so to do. While performing said gauging and sampling, the Commissioner or his representative and anyone performing said work in his behalf shall observe and comply with all Safety Rules applicable to the premises, established by the said owner or occupant.

The Commissioner is hereby authorized to make arrangements for the Sanitary District, without incurring any legal or financial obligation upon the City of Chicago, to undertake and conduct such gauging and sampling operations, in its behalf; and to provide the necessary devices and facilities as well as the personnel, and also to make the analyses of samples of such wastes, as hereinafter provided, in its own laboratories and other facilities or equipment; provided, that no such arrangements with the Sanitary District shall place any personnel of the Sanitary District under the control of the Commissioner or cause such personnel of the Sanitary District to be treated as employees of the City of Chicago for any purpose whatsoever.

17-3.8 All analyses to determine the strength and character of industrial wastes shall be made in accordance with the latest edition of "Standard Methods for the Examination of Water and Sewage" prepared and published jointly by the American Public Health Association, American Water Works Association, and the Water Pollution Control Federation. Strength, character and quantity of wastes shall be based on composite samples taken over a 24-hour or longer period from the flow from all plant outlets discharging into a single public sewer.

17-3.9 Application for permission to connect an industrial waste sewer into any sewer of the City of Chicago or to discharge into any waters, water course or channel within the City of Chicago shall be made on a standard form obtainable from the office of the Bureau of Sewers, Department of Water and Sewers of the City of Chicago.

17-3.10 Whenever the Commissioner shall determine that sewage or industrial wastes or other wastes are being discharged into any of the said waters, water courses, natural outlets or sewers of the City of Chicago, which in the opinion of said Commissioner pollutes said waters or water courses or interferes with the operation of the sewerage system of the City of Chicago or with the operation of the sewage treatment works, by the Sanitary District, to which the latter is connected, said Commissioner may order whomsoever causes such discharges to show cause before him why such discharge should not be discontinued. In such case a notice shall be served on the offending person directing him to appear before such Commissioner to show cause why an order should not be made directing the discontinuance of such discharge. Such notice shall specify the time and place of such hearing and shall be served personally or by registered mail at least ten (10) days before such hearing. Said Commissioner or his duly accredited representative may take evidence with reference to said offense at such hearing and upon its conclusion the Commissioner, if he finds a violation of this Article, may issue an order to such offending party directing that within a specified period of time thereafter such discharge be discontinued unless adequate treatment works shall have been installed or existing treatment works shall have been made adequate and shall be so operated as to eliminate such pollution.

17-3.11 Any permit authorized and issued under the provisions of this Article may, when necessary, in the opinion of the Commissioner, to prevent pollution of waters, water courses, or to prevent interference with the efficient operation of the sewage system of the City of Chicago or of the system and works of the Sanitary District for the collection and treatment of the sewage of the City of Chicago, be revoked or modified by the Commissioner, after investigation, notice and hearing as provided in the preceding Section 17-3.10 hereof.

17-3.12 An Appeal Board, to be appointed by the Mayor, by and with the consent of the City Council is hereby established. The Appeal Board shall consist of three members, one of whom shall be designated by the Mayor as Chairman, and two of whom shall constitute a quorum. They shall be appointed for a term of three years, or until their respective successors are appointed and qualified, except that of the initially appointed appeal board, one member shall serve for one year, one member for two years, and one member for three years.

One member shall have had at least five years business or admininstrative experience in the ownership or operation of industrial or commercial enterprises; one member shall at the time of his appointment and for at least five years prior thereto have been actively engaged in the field of sanitation and sewage or industrial waste disposal; one member shall be at the time of his appointment and for at least five years prior thereto actively engaged as a registered professional engineer having special competence in the field of sanitary engineering. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

Meetings of the Appeal Board shall be held at the call of the Chairman, and at such other times as the Appeal Board may determine. The Appeal Board shall have the power to adopt and enforce such rules and regulations as it may deem necessary to carry into effect the appeal powers herein provided. All hearings conducted by the Appeal Board shall be open to the public. Any person may appear and testify at a hearing, either in person or by duly authorized representative or attorney.

The Appeal Board shall keep minutes of its proceedings showing the vote of each member upon each question, or if he is absent or failing to vote, indicating such fact, and shall also keep records of its hearings and other official actions. Every rule and regulation, every amendment or repeal thereof, and every order, requirement, decision or determination of the Appeal Board shall be filed immediately in the Office of the Commissioner and shall be a public record.

A majority of the Appeal Board shall be hereby vested with the following jurisdiction and authority:

1) to decide appeals from any decision, ruling, determination, or order made by the Commissioner under this chapter, or failure by the Commissioner to act upon a request within a reasonable period, in the manner and subject to the standards set out in Section 17-3.13 hereof;
2) to pass upon applications for extensions of time for compliance;
3) to decide all matters referred to it or upon which it is required to pass under this Article.

The compensation of each member of the Appeal Board shall be as set forth in the annual appropriation ordinance.

17-3.13 Any person taking exception to and effected by any final decision, ruling, requirement, order, or failure to act upon request within a reasonable period by the Commissioner, may take an appeal to the Appeal Board as established by this Article. Such appeal shall be taken within thirty days after receiving notice of such decision, ruling, requirement, order, or failure to act upon request within a reasonable period, by filing with the Commissioner a notice of appeal directed to the Appeal Board, specifying the grounds thereof and the relief prayed for. The Commissioner shall forthwith furnish to the Appeal Board all the papers relating to the case, including the transcript of any hearing before the Commissioner. The Appeal Board not less than five days and not more than ten days after the date of filing the appeal, shall set a date for the hearing and shall give notice thereof by mail to the interested parties. The Appeal Board may in its discretion grant continuances. Such an appeal shall act as a stay of the decision, ruling, requirement, or order in question until the Appeal Board has taken final action on the appeal. At the hearing any party may appear in person or by agent or attorney, and present evidence, both written and oral, pertinent to the questions and issues involved, and may examine and cross-examine witnesses. A party may rely, in whole or in part, on evidence adduced in a hearing before the Commissioner under Section 17- , hereof. Such reliance shall not affect or limit the right of a party to cross-examine witnesses, adduce additional evidence or present argument. The Appeal Board, after the hearing, shall affirm, modify or reverse the decision, ruling, requirement, rule, regulation or order of the Commissioner or order him to act. The decision of the Appeal Board shall be binding on the Commissioner.

The provisions of the "Administrative Review Act" approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply and govern all proceedings for the judicial review of final administrative decisions hereunder.

The Appeal Board at its expense shall provide a stenographer to take the testimony and preserve a record of all proceedings under this Article. The notice of appeal, the notice of hearing, all other documents in the nature of pleadings and written motions, filed in the proceedings, the transcript of testimony and the findings of fact and decisions shall be the record of the proceedings. The Appeal Board shall furnish a transcript of such record to any person interested as a party to such hearing upon the payment thereof of seventy-five cents per page for each original transcript, and twenty-five cents per page for each carbon copy thereof. However, the charges of any part of such transcript ordered or paid for previous to the writing of the original record shall be twenty-five cents per page.

The Appeal Board shall not be required to certify any record or file any answer or otherwise appear in any proceeding for judicial review unless the party filing the appeal deposits the sum of ninety-five cents per page representing costs of certification. Failure on the part of the appellant to make such deposits shall be grounds for dismissal of the action. Upon judicial review the secretary of the Appeal Board shall certify the record.

17-3.14 If any person discharges sewage or industrial wastes or other wastes into the aforesaid waters, water courses or sewerage system in violation of any of the provisions of Sections 17-3.2, 17-3.3, 17-3.4, or 17-3.5 of this Article or of the unappealed final order or requirement of the Commissioner, made pursuant to the provisions of Section 17-3.10 hereof or of the Appeal Board resulting from an appeal to the latter, an action may be brought by the Corporation Counsel of the City of Chicago for a fine as prescribed in Section 17-3.10 or for an injunction or other chancery relief to discontinue such discharge.

17-3.15 Whoever violates any of the provisions of Section 17-3.2, 17-3.3, 17-3.4 or 17-3.5 of this Article or refuses to comply with the unappealed final order or requirement of the Commissioner, made pursuant to the provisions of Section 17-3.10 hereof or of the Appeals Board resulting from an appeal to the latter shall be fined not more than five hundred dollars ($500.00). Each day's continuance of such violation or failure to comply shall constitute a separate offense.

### Article IV

### Noise and Vibration Control

17-4.1 No person shall make, or cause, permit or allow to be made, upon a public way, or in such close proximity to a public way as to be distinctly and loudly audible upon such public way, any noise of any kind by crying, calling or shouting or by means of any whistle, rattle, bell, gong, clapper, hammer, drum, horn, hand organ, mechanically operated piano, other musical instrument, wind instrument, sound amplifier, or similar mechanical device; provided, that the said restrictions shall not apply to any licensed peddler crying or calling for the purpose of advertising goods, wares or merchandise when lawfully using any public alley in the city between the hours of 11 a.m. and 6 p.m.

17-4.2 No person shall use or perform any hand organ or other musical instrument or device, for pay or in expectation of payment, in any public way or public place of the city before nine o'clock a.m. or after nine o'clock p.m. of any day, under a penalty of not less than ten dollars nor more than twenty-five dollars for each offense.

17-4.3 All rails, pillars, and columns of iron, steel, or other metal which are being transported on the public ways of the city shall be so loaded as to avoid causing loud noises or disturbing the peace and quiet of such public ways, under a penalty of not more than twenty-five dollars for each offense.

17-4.4 No person shall blow or cause to be blown, within the city the steam whistle of any stationary steam plant as a signal for commencing or suspending work, or for any other purpose.

This section shall not be construed as forbidding the use of steam whistles as alarm signals in case of fire, collision, or other imminent danger.

17-4.5 It shall be unlawful for any person to construct or maintain, within two hundred feet of any residence, a factory wherein are used pneumatic hammers or other apparatus which cause loud or unusual noises. Any person violating any of the provisions of this section shall be fined not less than twenty-five dollars nor more than one hundred dollars for each offense, and each day's violation shall be considered a separate and distinct offense.

17-4.6 It shall be unlawful for any person to use any pile driver, shovel, hammer, derrick, hoist, tractor, roller or other mechanical apparatus operated by fuel or electric power in building or construction operations between the hours of 9:30 o'clock in the evening and 8:00 o'clock in the morning, except for work on public improvements and work of public-service utilities, within 600 feet of any building used for residential or hospital purposes.

Any person violating this section shall be fined not less than fifty dollars for each offense, and each day's violation of the same shall constitute a separate and distinct offense.

17-4.7 It shall be unlawful for any person to operate the motor of a motor vehicle of a weight in excess of five tons for a consecutive period longer than two minutes while such vehicle is standing on private property located within 150 feet of property zoned and used for residential purposes except where such vehicle is standing within a completely enclosed structure.

This section shall not apply to buses operated for the transportation of passengers by any political subdivision of the state of Illinois while standing in established bus turn-arounds, bus terminals, bus-parking lots and bus-storage yards.

17-4.8 No person owning, or in possession or control of any building or premises shall use the same, permit the use of the same, or rent the same to be used for any business or employment, or for any purpose of pleasure or recreation, if such use shall, by its boisterous nature, disturb or destroy the peace of the neighborhood in which such building or premise is situated, or be dangerous or detrimental to health.

17-4.9 Any property use established in a Manufacturing District as defined and designated under the provisions of the Chicago Zoning Ordinance (Municipal Code of Chicago, Chapter 194A), shall be so operated as to comply with the performance standards governing noise set forth hereinafter for the district in which such use shall be located, provided that such performance standards shall not be applicable to the structural alteration or relocation of existing buildings occurring hereafter or the enlargement, expansion or addition to existing uses occurring hereafter when such alteration, relocation, enlargement, expansion or addition takes place upon property which, at the time of the passage of this comprehensive amendment, is owned or occupied by the same person, firm or corporation, or their respective heirs, legal representatives or successors, making such alteration, relocation, enlargement, expansion or addition and, provided further, that such performance standards also shall not be applicable to new construction by such owner or occupier upon previously undeveloped property which, at the time of such construction, is contiguous to an existing manufacturing use and, at the time of the passage of this comprehensive amendment, is being held by such owner or occupied for development for manufacturing purposes. All such construction, alteration, relocation, enlargement, expansion or addition to which the performance standards hereinafter set forth shall not be applicable shall, nevertheless, be controlled so as not to become a nuisance to adjacent uses.

17-4.10 Sound levels shall be measured with a sound level meter and associated octave band filter manufactured according to standards prescribed by the American Standards Association. Measurements shall be made using the flat network of the sound level meter. Impulsive type noises shall be subject to the performance standards hereinafter prescribed provided that such noises shall be capable of being accurately measured with such equipment. Noises capable of being so measured, for the purpose of this comprehensive amendment, shall be those noises which cause rapid fluctuations of the needle of the sound level meter with a variation of no more than plus or minus two decibels. Noises incapable of being so measured, such as those of an irregular and intermittent nature, shall be controlled so as not to become a nuisance to adjacent uses.

17-4.11 In all instances in which an M2 General Manufacturing or M3 Heavy Manufacturing District does not adjoin a Residence or Business District, the performance standards governing noise for the M1 Restricted Manufacturing Districts shall apply at the nearest Residence or Business District boundary line, as these districts are defined and designated under the provisions of the Chicago Zoning Ordinance (Municipal Code of Chicago, Chapter 194A).

17-4.12 In the M1-1 to M1-5 Zoning Districts inclusive, at no point on the boundary of a Residence or Business Zoning District shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts indicated:

| *Octave Band Cycles Per Second* | *Along Residence District Boundaries— Maximum Permitted Sound Level in Decibels* | *Along Business District Boundaries— Maximum Permitted Sound Level in Decibels* |
|---|---|---|
| 0 to 75 | 72 | 79 |
| 75 to 150 | 67 | 74 |
| 150 to 300 | 59 | 65 |
| 300 to 600 | 52 | 59 |
| 600 to 1200 | 46 | 53 |
| 1200 to 2400 | 40 | 47 |
| 2400 to 4800 | 34 | 41 |
| above 4800 | 32 | 39 |

17-4.13 In the M2-1 to M2-5 Zoning Districts inclusive at no point either on the boundary of a residence or business district or at 125 feet from the nearest property line of a plant or operation, whichever distance is greater, shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts included:

| *Octave Band Cycles Per Second* | *Maximum Permitted Sound Level in Decibels Along Residence District Boundaries or 125 feet from Plant or Operation Property Line* | *Maximum Permitted Sound Level in Decibels Along Business District Boundaries or 125 feet from Plant or Operation Property Line* |
|---|---|---|
| 0 to 75 | 72 | 79 |
| 75 to 150 | 67 | 74 |
| 150 to 300 | 61 | 68 |
| 300 to 600 | 55 | 62 |
| 600 to 1200 | 50 | 56 |
| 1200 to 2400 | 45 | 51 |
| 2400 to 4800 | 41 | 47 |
| above 4800 | 38 | 44 |

17-4.14 In the M3-1 to M3-5 Zoning Districts inclusive, at no point either on the boundary of a residence or business district or at 125 feet from the nearest property line of a plant or operation, whichever distance is greater, shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts included:

| *Octave Band Cycles Per Second* | *Maximum Permitted Sound Level in Decibels Along Residence District Boundaries or 125 feet from Plant or Operation Property Line* | *Maximum Permitted Sound Level in Decibels Along Business District Boundaries or 125 feet from Plant or Operation Property Line* |
|---|---|---|
| 0 to 75 | 75 | 80 |
| 75 to 150 | 70 | 75 |
| 150 to 300 | 65 | 70 |
| 300 to 600 | 59 | 64 |
| 600 to 1200 | 63 | 58 |
| 1200 to 2400 | 48 | 53 |
| 2400 to 4800 | 44 | 49 |
| above 4800 | 41 | 46 |

17-4.15 Any property use established in a Manufacturing District shall be so operated as to comply with the performance standards governing vibration set forth hereinafter for the Zoning district in which such use shall be located. No use already established on the effective date of this amendment shall be so altered or modified as to conflict with, or further conflict with, the performance standards governing vibration established hereinafter for the Zoning district in which such use is located.

17-4.16 In the M1-1 to M1-5 Zoning Districts inclusive, any use or portion thereof creating intense earth-shaking vibrations such as are created by heavy drop forges, or heavy hydraulic surges shall be set back at least 300 feet from the lot lines on all sides, except for lot lines adjoining an M3 Zoning District where such set back shall not be required, but in no case shall any such vibration be allowed to create a nuisance or hazard beyond the lot lines.

17-4.17 In the M2-1 to M2-5 Zoning Districts inclusive, any use or portion thereof creating intense earth-shaking vibrations such as are created by heavy drop forges, or heavy hydraulic surges, shall be set back at least 300 feet from the boundary of a Residence, Business, or Commercial Zoning District and at least 150 feet from the boundary of an M1 Zoning District, unless such operation is controlled in such a manner as to prevent transmission beyond the lot lines of earthshaking vibrations perceptible without the aid of instruments.

17-4.18 In the M3-1 to M3-5 Zoning Districts inclusive, the performance standards governing vibration in the M2 Zoning Districts shall apply.

17-4.19 Any person violating any of the provisions of this Article shall be fined not less than five dollars and not more than two hundred dollars for each offense, except where otherwise specifically provided. A separate and distinct offense shall be held to have been committed each day any person continues to violate any of the provisions of this Article.

## Article V

### HARBOR POLLUTION CONTROL

17-5.1 No person shall throw, discharge, dump, or deposit, or cause, suffer, or procure to be thrown, discharged, dumped or deposited, in the harbor or anywhere in Lake Michigan, within ten miles of the corporate limits, any clay, earth, ashes or other heavy substance, filth, logs, floating matter, obstructions or refuse, unless said material shall be placed inside of a breakwater so arranged as not to permit the escape of such clay, earth, ashes or other heavy substance or substances, filth, logs, floating matter, obstructions or refuse into the body of Lake Michigan.

No tug owner, captain, or other person in charge or command of a tug shall tow inside the harbor any dumping scow or like vessel, with or without a collapsible or adjustable botttom, loaded with clay, earth, ashes or other heavy substance, filth, logs, floating matter, obstructions or any refuse, unless there is on board at the time of such towing an inspector from the Department of Environmental Control.

17-5.2 No person shall throw, dump, place, deposit or cause or permit to be thrown, dumped, placed or deposited any pollutant as defined in Section 31-21(k) of this Code, or any garbage, refuse, filth, putrid or unwholesome substance, or the contents of any toilet or head, catchbasin, or grease trap upon the margin or banks, or within the limits or into the waters of the harbor. Discharge of any of the aforementioned pollutants within the radius of four miles of any domestic raw water intake is further expressly prohibited.

17-5.3 In addition to the pollutants enumerated in Section 17-5.2 aforesaid, no operator of any vessel, craft, floats or motor boat shall discharge, dump or deposit into the harbor any fuel, solid or liquid, or the contents of any ballast tank, bilge tank or other receptacle capable of causing pollution of waters.

17-5.4 All vessels, craft, floats and motor boats equipped with toilets, heads, urinals, or capable of discharging galley wastes which have not been discharged through a grease trap or grease interceptor, or solid or liquid waste from shipboard hospital facilities, shall be equipped with a waste retention tank of approved type and capacity to store such waste material for subsequent disposal at a shoreside facility.

17-5.5 A treatment system, utilizing a method of waste treatment approved by the Commissioner of Environmental Control and complying with the Rules and Regulations Establishing Water Quality Criteria for Lake Michigan as set by the Illinois Sanitary Water Board may be permissible on vessels, crafts, floats or motor boats operating in harbor waters in lieu of a retention tank. The effluent of any waste treatment system not meeting the approved standard of the Illinois Sanitary Water Board shall be discharged and collected in a retention tank while such vessel, craft, floats or motor boat is located or operating within the harbor of Chicago. All such waste retention tanks must be properly equipped with pumps and piping so that wastes can be discharged from a connection located above the water line to approved shore-based or floating installations.

17-5.6 Every wharf, dock, pier, seawall, slip, riverbank retaining wall, riverbank bulkhead, dolphin, boom, bulkhead, jetty, mooring facility, piling, sheeting or other similar structure on or appurtenant to premises abutting on the harbor which has disintegrated, rotted, deteriorated, or is otherwise out of repair, or is in unsanitary condition, or in an unsafe or dangerous condition, or which in any manner endangers the health or safety of any person or persons, or which in any manner endangers navigation is hereby declared to be a harbor pollution.

17-5.7 The Commissioner of Environmental Control shall have the authority to promulgate rules and regulations necessary to the effective control of harbor pollution.

Any person who violates any of the provisions of Sections 17-5.1, 17-5.2, 17-5.3, 17-5.4, and 17-5.5, shall be fined not less than $50.00 nor more than $200.00 for each offense and each day's continuance of such violation shall constitute a separate offense.

17-5.8 No person being a manufacturer of gas, or engaged about the manufacture thereof, shall throw, deposit, or allow to run, or permit to be thrown or deposited into the harbor, or into any sewer therewith connected, any gas-tar or any refuse matter of or from any gas house, works, or manufactory.

17-5.9 It shall be unlawful for any dredge or other machine to cut clay or dredge sand or other material from the bed or bottom of the harbor, unless the person present conducting such work has in his possession a permit in writing from the Department of Environmental Control, in which permit the location and time occupied in such work shall be specified. The person conducting such work shall produce such permit on demand of any dredging inspector, the Commissioner or any of his assistants.

## Article VI

### DUMPING OF REFUSE

17-6.1 No person shall dump or deposit or cause to be dumped or deposited anywhere within the City, any garbage, ashes, refuse, trash, rubbish, miscellaneous waste, manure or other substance that may contain disease germs or be scattered by the wind, or decompose, or become filthy, noxious or unhealthful, except at a sanitary landfill site for which a permit has been properly issued by the Commissioner of Environmental Control. Such dumping without a permit is hereby delared to be a nuisance.

17-6.2

(a) The Commissioner of Environmental Control is hereby authorized and directed to make such rules and regulations as are necessary to effectuate the purpose of this Article.

(b) Application for such permit to operate a sanitary landfill on private property shall be accompanied by:

1. The written consent of the owner or his authorized agent and evidence of payment of real estate property taxes.
2. An indemnifying bond with good and sufficient sureties approved by the City Comptroller in the penal sum of $50,000.00 conditioned that the said applicant will comply with the regulations of this code and the rules and regulations of the Commissioner of Environmental Control pertaining to the dumping of the above-mentioned substances.
3. A plat plan and survey, together with engiineering survey and report which shall include a description of the property, the method of operation, the type of available cover, fencing, water pumping equipment, fire fighting equipment, access roads, equipment storage, lights, rodent control measures, water drainage (including grade and area), and the direction of fill.

4. Approval by the Zoning Administrator.

17-6.3 Upon receipt of such application, the Commissioner of Environmental Control shall give notice in writing to the Alderman of the Ward in which such dumping is to be done, that such application has been made. Such application shall be held in abeyance until an intervening council meeting is held or written waiver of objection or written consent by the Alderman is received.

17-6.4 Permit fees shall be as follows:

25 acre tract or less — $1,300.00 annually
26 to 50 acre tract — $2,600.00 annually
51 to 75 acre tract — $3,900.00 annually
Over 75 acre tract—$5,200.00 annually

17-6.5 The Commissioner of Environmental Control shall issue a permit for a sanitary landfill if there is compliance with all sections of this chapter and any other chapter of the Municipal Code of Chicago applicable thereto. Prior to the issuance of said permit, the Commissioner may request the approval of any other department of the City of Chicago.

17-6.6 All refuse deposited at site shall be compacted in layers. The layers of compacted refuse shall not exceed eight feet in height for each lift. Water wells located in the general area of sanitary landfills shall be subject to inspection and approval by the Department of Health of the City of Chicago and wells not considered safe from possible pollution or contamination shall be modified in such a way as to make their continued use safe.

17-6.7 Proper drainage, water pumping or treatment shall be provided for the fill itself. Fill may not be so implaced as to prevent a run-off for adjacent land.

17-6.8 Cover material must be earth, sandy loam, slag from steel mills or similar material approved by the Department of Environmental Control.

17-6.9 All refuse dumped must be covered daily by at least six inches of cover. Final cover shall be compacted to a depth of not less than 24 inches. Where the "trench system" of sanitary landfill is used successive parallel trenches must be at least two (2) feet apart.

17-6.10 Final grade shall be determined by the Department of Environmental Control depending on the particular site. Permit shall specify the grade to which the dumping authorized thereby is permitted and dumping in excess of the grade set forth in the permit shall constitute a violation of the permit.

17-6.11 Inspection of all dumping operations shall be under the jurisdiction of the Commissioner of Environmental Control. Inspections as necessary shall be made by a Sanitary Engineer who is qualified by both education and experience.

17-6.12 Dumping permits may be revoked by the Mayor upon recommendation of the Commissioner of Environmental Control for cause.

17-6.13 No ground or material filled with offensive matter or substance that will emit or allow to arise through or from the same any offensive smell or deleterious exhalation shall be opened or turned up, or the surface thereof removed, between the first day of May and the first day of October of any year, except according to permit first therefor obtained from the Commissioner of Environmental Control.

*Section 2.* That Sections 21-34 and 21-35 inclusive of Chapter 21; Sections 31-2.1 to 31-2.15, inclusive, of Chapter 31; Sections 38-8 to 38-12, inclusive, of Chapter 38 and Sections 99-4.2, 99-36.1, 99-36.2, 99-36.3, 99-36.4, 99-36.5, 99-36.6, 99-36.7, 99-36.8, 99-36.9, 99-36.10, 99-37, 99-56, 99-57, 99-58, 99-59, 99-60, 99-60.1, 99-60.2 and 99-61, of Chapter 99, all a part of the Municipal Code of Chicago be, and the same hereby are cancelled, nullified, repealed and held for naught.

*Section 3.* That all of the powers, duties and activities now being performed by the department or department head assigned to perform said powers, duties and activities in the Chapters and Sections cancelled, nullified, repealed and held for naught in Section 2 hereof, be and the same shall continue and inure to and under the jurisdiction and control of the Commissioner of Environmental Control.

*Section 4.* This ordinance shall be in full force and effect from and after January 1, 1970.

### *Action Deferred*—ON PROPOSED ORDINANCE TRANSFERRING FUNCTIONS OF BUREAU OF FORESTRY, PARKWAYS AND BEAUTIFICATION FROM DEPT. OF PUBLIC WORKS TO DEPT. OF STREETS AND SANITATION.

The Committee on Finance submitted the following report, which was, at the request of two aldermen present (Alderman Keane and Alderman Wigoda) *Deferred* and ordered published:

CHICAGO, December 9, 1969.

***To the President and Members of the City Council:***

Your Committee on Finance, to which was referred a communication dated December 2, 1969 from the office of the Mayor transmitting an ordinance transferring the functions of the Bureau of Forestry from the Department of Public Works to the Department of Streets and Sanitation, having had the same under advisement begs leave to report and recommend that Your Honorable Body pass the proposed ordinance transmitted herewith.

This recommendation was concurred in by 35 members of the committee, with no dissenting vote.

Respectfully submitted,
(Signed) THOMAS E. KEANE,
*Chairman.*

The proposed ordinance transmitted with the foregoing committee report reads as follows:

*Whereas,* It is deemed advisable and in the best interests of the City of Chicago that the Bureau of Forestry, Parkways and Beautification now under the jurisdiction and control of the commissioner of public works be removed therefrom and be placed under the jurisdiction and control of the commissioner of streets and sanitation; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

*Section 1.* That Sections 14-22, 14-23 and 14-24 be and are hereby added to Chapter 14 of the Municipal Code of Chicago, and shall read as follows:

14-22 There is hereby established the Bureau of Forestry, Parkways and Beautification, which shall be under the jurisdiction and control of the commissioner of streets and sanitation, and shall embrace the general superintendent of forestry, parkways and beautification and such other employes as the city council may provide by annual appropriation ordinance.

14-23 The general superintendent of forestry, parkways and beautification shall be under the immediate jurisdiction and control of the commissioner of streets and sanitation, and shall have the management and control, including maintenance of the municipal nursery, street parkways and boulevards, all trees, plants and shrubs planted and to be planted in the public ways of the city, and of all public squares, triangles and other open spaces at street intersections that have not been acquired or turned over to the Chicago Park District. In addition, the general superintendent shall plan, design, construct and maintain beautification projects on public rights of way, and small tot-lots, playgrounds and passive recreation areas on city-owned property or property acquired by the city in accordance with a beautification program to be developed in cooperation and co-ordination with the Chicago Beautiful Committee.

14-24 The commissioner of streets and sanitation is hereby authorized to appoint according to law a person to be known as General Superintendent, who shall be a man skilled and learned in the science of forestry.

The General Superintendent of the bureau of forestry, parkways and beautification, shall have the following powers and duties:

Superintend, regulate and encourage the preservation, culture and planting of shade and ornamental trees, plants and shrubbery in the public ways of the city;

Prune, spray, cultivate and otherwise maintain such trees, plants and shrubbery, and to direct the time and method of trimming the same;

Advise, without charge, owners and occupants of lots regarding the kind of trees, plants and shrubbery and the method of planting best adapted to, or most desirable on, particular streets;

Take such measures as may be deemed necessary for the control and extermination of insects and other pests and plant diseases which may injuriously affect trees, plants or shrubs that are now growing or may hereafter be growing on the public ways of the city;

Report to the corporation counsel all cases which come to his knowledge of violations of provisions of this code respecting such trees, plants and shrubbery;

Keep a record of all transactions of his office, subject to such rules and regulations as the commissioner of streets and sanitation may prescribe, and whenever the commissioner of streets and sanitation may require, make a full and detailed report of such transactions.

Plan, design, program, construct and maintain beautification and recreational projects in cooperation with the Chicago Beautiful Committee;

Assist the Chicago Beautiful Committee by providing services, materials and supplies in accordance with an established annual program;

Process applications for federal assistance in financing beautification projects.

*Section 2.* That Sections 8-39, 8-40 and 8-41 of the Municipal Code of Chicago, included in Chapter 8 thereof, be and the same hereby are cancelled, nullified, repealed and held for naught.

*Section 3.* That all of the powers, duties and activities now being performed by the Bureau of Forestry, Parkways and Beautification now under the jurisdiction and control of the commissioner of public works, be and the same shall continue and enure to and under the jurisdiction and control of the commissioner of streets and sanitation.

*Section 4.* This ordinance shall be in full force and effect from and after January 1, 1970.

### *Action Deferred*—ON PROPOSED ORDINANCE FOR INCREASE IN WATER RATES FOR WATER SERVICE PROVIDED BY CITY OF CHICAGO.

The Committee on Finance submitted the following report, which was, at the request of two aldermen present (Alderman Keane and Alderman Wigoda) *Deferred* and ordered published:

CHICAGO, December 9, 1969.

***To the President and Members of the City Council:***

Your Committee on Finance, to which was referred a communication dated December 2, 1969 from the Office of the Mayor transmitting an ordinance amending the Municipal Code of the City of Chicago to provide for an increase in the water rates charged for water service connection provided by the City of Chicago, having had the same under advisement, begs leave to report and recommend that Your Honorable Body pass the proposed ordinance transmitted herewith.

This recommendation was concurred in by 35 members of the committee, with no dissenting vote.

Respectfully submitted,

(Signed) THOMAS E. KEANE,
*Chairman.*

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Be It Ordained by the City Council of the City of Chicago:

*Section 1.* Section 185-21 of the Municipal Code of Chicago is amended as follows:

By substituting for the words "thirty-five dollars" in the second paragraph, as printed, the words "fifty dollars".

*Section 2.* Section 185-26 is amended as follows:

By striking out the figures appearing in the right-hand column in the first paragraph, as printed, and substituting the following words and figures:

| *Per Annum* | *Per Annum* |
|---|---|
| $ 9.10 | $42.50 |
| 12.50 | 45.90 |
| 17.10 | 49.40 |

| 33.10 | 65.30 |
| 34.40 | 68.80 |
| 40.00 | 73.40. |

By striking out the two lines, as printed following said tabulation, and substituting the following:

"For each additional five feet, or major fraction thereof, in excess of 87 feet a charge of three dollars and fifty cents ($3.50) shall be made."

By substituting for the fifth paragraph, as printed, the following:

"For each story in height of building in excess of one story, a charge of five dollars and sixty cents ($5.60) per annum shall be made in addition to the foregoing."

By substituting for the words "one dollar and eighty cents" in the eighth paragraph, as printed, the words "two dollars and thirty cents ($2.30)".

By substituting for the figure "9.20" in the eleventh paragraph, as printed, the figure "$11.50".

By substituting for the figure "21.20" in the twelfth paragraph, as printed, the figure "26.50".

By substituting for the thirteenth paragraph, as printed, the following:

For fixtures for use of apartments having less than the above equipment the following:

For each water closet—per annum $11.50.

If such water closet is open to the use of more than one family an additional charge of $11.50 shall be made for each such family.

For each wash basin—per annum $3.50.

For each family sink which is open to the use of not more than one family—per annum $11.50.

If such sink is open to the use of more than one family, an additional charge of $11.50 per annum shall be made for each such family.

By substituting for the sixteenth, seventeenth and eighteenth paragraphs, as printed, the following:

For all other water closets, baths, basins and sinks in excess of this number, the following charges shall be made:

For each water closet—per annum $11.50
For each bath— per annum $11.50
For each wash basin— per annum $ 3.50
For each sink— per annum $ 3.50

For other fixtures, devices or occupancies—as provided for in Section 185-27.

The amounts to be charged for service to buildings or premises in Class 'D' shall be the amounts heretofore specified as minimum charge for service, and in buildings not to exceed one story in height this charge shall include one water closet. In addition the following charges shall be made:

For each water closet—per annum $12.50
For each wash basin— per annum $ 9.10
For each sink— per annum $ 9.10
For each miscellaneous opening not otherwise provided for— per annum $ 9.10

For other fixtures, devices or occupancies—as provided for in Section 185-27.

The amounts to be charged for service to buildings in Class 'E' shall be the amounts heretofore specified as minimum charge for service, and in buildings not to exceed one story in height this charge shall include one water closet. In addition, the following charges shall be made:

For fixtures open to general or public use:
For each water closet—per annum $12.50
For each wash basin— per annum $ 9.10
For each sink— per annum $ 9.10
For fixtures not open to general or public use:
For each water closet—per annum $11.50
For each wash basin— per annum $ 3.50
For each sink— per annum $ 3.50

For other fixtures, devices or occupancies—as provided for in Section 185-27.

*Section 3.* Section 185-27 is amended by substituting for the column of figures at the right-hand side of said section, as printed, the following figures in consecutive order:

## COMMITTEE ON LOCAL TRANSPORTATION.

### *Action Deferred*—ON PROPOSED ORDINANCE TO AMEND REGULATIONS GOVERNING TAXICAB RATES BETWEEN POINT OF ORIGIN AND DESTINATION, ETC.

The Committee on Local Transportation submitted a report, which was, at the request of two aldermen present (Alderman Marzullo and Alderman Sheridan) *Deferred* and ordered published:

CHICAGO, December 4, 1969.

*To the President and Members of the City Council:*

Your Committee on Local Transportation, having had under consideration a proposed ordinance transmitted with a communication signed by Mr. Arthur Dickholtz, President, Flash Cab Company (referred on October 8, 1969) to amend Section 28-30(a) of Chapter 28 of the Municipal Code of Chicago concerning regulations governing taxicab rates between point of origin and destination, etc., begs leave to recommend that Your Honorable Body pass the said proposed ordinance, which is transmitted herewith.

This recommendation was concurred in by 8 members of the committee, with no dissenting vote.

Respectfully submitted,

(Signed) VITO MARZULLO,
*Chairman.*

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Be It Ordained by the City Council of the City of Chicago:

That Section 30(a) of Chapter 28 of the Municipal Code of Chicago be and it is hereby amended to read as follows:

(Taxicab fares) 28-30. (a) Commencing with the effective date of this ordinance, the rates of fare for taxicabs while being operated between a point of origin and a destination within the corporate limits of the City shall be as set forth in the following schedule, which rates are hereby declared to be just and reasonable:

| | |
|---|---|
| For the first 1/5 mile or fraction thereof | 40¢ |
| For each additional 2/7 miles or fraction thereof | 10¢ |
| For each one and one-half minutes of waiting time | 10¢ |
| For each additional passenger of 12 years or more | 20¢ |

Waiting time shall include the time beginning two minutes after call time at the place to which the taxicab has been called, when it is not in motion, the time consumed by unavoidable delays, at street intersections, bridges or elsewhere and the time consumed while standing at the direction of a passenger.

Every passenger under twelve years of age when accompanied by an adult shall be carried without charge.

Ordinary hand baggage of passengers shall be carried without charge.

Immediately on arrival at the passenger's destination it shall be the duty of the chauffeur to throw the taximeter lever to the non-recording position and to call the passenger's attention to the fare registered.

It is unlawful for any person to demand or collect any fare for taxicab service which is more or less than the rates established by the foregoing schedule, or for any passenger to refuse payment of the fare so registered.

# REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

### *Referred*—PROPOSED ORDINANCES CONCERNING SPECIFIED URBAN RENEWAL AND REDEVELOPMENT PROJECTS.

Honorable Richard J. Daley, Mayor, at the request of Lewis W. Hill, Chairman of the Department of Urban Renewal, submitted communications dated December 16, 1969, transmitting the following proposed ordinances affecting specified Urban Renewal and Redevelopment Projects, which were *Referred to the Committee on Planning and Housing,* as follows:

To Approve Addendum to the Englewood Conservation Plan;

To Approve the Land Disposition Plan for Slum and Blighted Area Redevelopment Project Central West;

To Approve the Land Disposition Plan for Slum and Blighted Area Redevelopment Project 87th-Mackinaw;

To Approve Sale of Certain Land in Slum and Blighted Area Redevelopment Project 79th-Normal.

### Tribute Paid to Late Joseph D. Murphy.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called Joseph D. Murphy, a member of the Chicago Transit Authority to his eternal reward on December 11, 1969; and

WHEREAS, Joseph D. Murphy, a native Chicagoan, and well known executive in the securities business, began his career 60 years ago as a messenger, and in Horatio Alger tradition rose to the position of President of Stifel Nicolaus and Company, with which he was associated for 38 years; and

WHEREAS, Mr. Murphy served with distinction as a Member of the Chicago Transit Authority since 1958, during which time he contributed to the stability and sound management of the Authority by overseeing its financial affairs. He actively assisted in securing the financing for the 180 air-conditioned cars now operating on the Lake Street segment of the CTA Rapid Transit System; and

WHEREAS, Mr. Murphy, throughout his lifetime dedicated his efforts to lending assistance to state and local governments in developing plans for financing much needed public projects which included: obtaining seven million dollars in financing which provided a system of state armory buildings in small Illinois towns; developing the financing for the new Mackinac Straits bridge in Michigan which provides easy access to travelers between the upper and lower peninsulas of Michigan; as one of a small group of civic and business leaders developing a plan for financing O'Hare International Airport; and

WHEREAS, Mr. Murphy gave unstintingly of his time and efforts on behalf of the City of Chicago and its citizens; now, therefore,

*Be It Resolved,* That the Mayor and Members of the City Council of the City of Chicago, in meeting assembled this 16th day of December, A. D., 1969, make public acknowledgment of their sorrow in the passing of Joseph D. Murphy, and extend to his family their sincere sympathy; and

*Be It Further Resolved,* That a suitable copy of this resolution be presented to the family of Joseph D. Murphy.

Alderman Keane moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Keane in seconding the resolution spoke of the many contributions the late Mr. Murphy had made as a member of the board of the Chicago Transit Authority, also in securing air conditioned cars for the transit system. He cited his assistance in the financing and building of the Mackinac Bridge, as an outstanding example of his service to all people. He stated that his financial genius had been at the service of his City, the State and the National Government. He expressed a profound sense of loss and extended his sympathy to all the members of the bereaved family.

Honorable Richard J. Daley, Mayor, then addressed the Council stating that he too felt the passing of Mr. Murphy keenly. He spoke of how his assistance in arranging the sale of bonds for building O'Hare Airport had resulted in a considerable saving for the City of Chicago. He praised him for his service to Chicago, the C. T. A. and all his financial assistance in numerous projects. He too extended his condolences to Mr. Murphy's family.

### *CITY COUNCIL INFORMED AS TO MISCELLANEOUS DOCUMENTS FILED OR RECEIVED IN CITY CLERK'S OFFICE.*

Twelve (12) new concrete catchbasins shall be built and connected with the existing sewer in S. Lotus Avenue and located at necessary points in the roadway of and adjacent to the curb line of said S. Lotus Avenue.

Twelve (12) new concrete catchbasins shall be built and connected with the existing sewer in S. Linder Avenue and located at necessary points in the roadway of and adjacent to the curb line of said S. Linder Avenue.

Twelve (12) new concrete catchbasins shall be built and connected with the existing sewer in S. Luna Avenue and located at necessary points in the roadway of and adjacent to the curb line of said S. Luna Avenue.

Said new concrete manhole(s) shall be cylindrical in shape and shall have an internal diameter of three (3) feet, excepting the upper portion one and one-half (1½) feet in height, which shall be conical in shape, being reduced to two (2) feet internal diameter at the top. The walls of said manhole(s) shall be five (5) inches in thickness. The invert of the sewer through the manhole(s) shall be built of concrete six (6) inches in thickness and one each side thereof shall be built a solid concrete foundation eight (8) inches in thickness, measuring down from the center of the sewer, making the entire foundation four (4) feet in diameter.

Each of said new concrete catchbasins shall be cylindrical in shape and shall have an internal diameter of four (4) feet, excepting the upper portion two (2) feet in height, which shall be conical in shape, being reduced to two (2) feet internal diameter at the top. The walls of said catchbasins shall be (5) inches in thickness and shall be built of precast concrete blocks or precast concrete rings, or concrete molded in place and shall rest upon a concrete floor four (4) inches in thickness composed of precast planks or concrete molded in place.

Each of the catchbasins shall be connected in a direct line which shall slope downward from the outlet to the sewer herein specified by means of tile pipe of eight (8) inches internal diameter. The inside bottom of said outlet shall be set four (4) feet above the floor of each of said catchbasins.

Said new manholes and new catchbasins shall be provided with a suitable cast iron cover, which cover, inclusive of lid, shall weigh five hundred forty (540) pounds. Said covers shall be set so that the top of same shall conform with the surface of the finished pavement herein described.

The concrete used in the construction of the manholes and catchbasins herein provided shall be composed of one (1) part of the best quality of portland cement, six (6) parts of clean torpedo sand, or clean crushed stone of uniformly varying sizes which will pass through a ring of three-eighths (⅜) inch internal diameter and be held on a two hundred (200) mesh sieve. Sample cylinders of the concrete or sample concrete blocks, when tested, should show a compressive strength of two thousand five hundred (2500) pounds per square inch as the average for five (5) samples tested, and no single sample shall have a compressive strength of less than two thousand (2000) pounds per square inch.

The existing sewer manhole(s) located in the roadway(s) of above specified streets(s) and the existing sewer catchbasin located in said roadway(s) or in the sidewalk space adjacent to the curb lines of said above specified streets(s) shall be adjusted with material of the same kind and quality as that of which they were originally constructed, or materials, herein specified for manholes and catchbasin(s) in such a manner as to make the top of the cover(s) of said manhole(s) and catchbasin(s) conform with the surface of the finished pavement herein described, or where an existing catchbasin is located in the sidewalk space the top of the cover(s) of said catchbasin(s) shall conform with the top of the adjacent curb.

Trench backfill (sand) to be used around manhole and catchbasin connections and where necessary.

Chicago Standard frame(s) and lid(s) to be used where necessary on said proposed improvement.

A catchbasin inlet shall be constructed in the gutter in the roadway(s) of said above specified street(s) opposite each of said existing sewer catchbasin(s) where such catchbasin(s) are located in the sidewalk space. Said inlet shall consist of a suitable cast iron frame weighing one hundred and ninety (190) pounds, a cast iron inlet grate twenty-one and one-half (21½) inches by fourteen and one-half (14½) inches weighing ninety (90) pounds with a cast iron inlet bend weighing eighty-five (85) pounds, set in a new pavement surface and foundation opposite the adjacent catchbasin in such a manner that the top of the cover of said inlet shall conform with the surface of the pavement herein described. The cast iron bends of said inlet shall be connected to the adjacent catchbasin approximately five (5) feet therefrom by means of eight (8) inch vitrified tile pipe. The center of the eight (8) inch tile pipe at its connection with said cast iron bend shall be twenty-one (21) inches below the top of said grade and at the connection with the catchbasin shall be forty-five (45) inches below the top of said catchbasin. The top of said cast iron grating shall conform to the upper surface of the gutter immediately adjacent.

All tile pipe used throughout said improvement shall be straight, smooth and sound, thoroughly burned, well glazed, free from lumps and other imperfections and of the following required thickness(es): for ten (10) inch pipe, seven-eighths (⅞) inch, for eight (8) inch pipe, three quarter (¾) inch.

The mortar used in the laying of tile pipe, in making connection with sewers and catchbasins and in adjusting sewer manholes and catchbasins as herein described shall consist of the best quality of natural hydraulic cement mortar or type two (2) portland cement mortar in the following proportions, viz: one (1) part natural hydraulic cement or one (1) part type two (2) portland cement and two (2) parts clean, sharp sand.

The elevation of the center of said eight (8) inch tile pipe from said new catchbasins where they connect with the said sewers shall be as follows:

The curb shall be seven (7) inches thick and the height at the back shall vary from nineteen (19) inches at the catchbasin inlets to thirteen (13) inches at the summits and the gutter shall be twelve (12) inches in width and ten (10) inches in thickness. The upper roadway edge of the curb shall be rounded to an arc of a circle having a radius of two (2) inches.

Said combined curb and gutter shall be constructed upon a foundation flooded with water and thoroughly compacted to an even surface, and said combined curb and gutter shall be backfilled with earth free from animal or vegetable matter, said filling to be four (4) feet wide at the top of the curb and even therewith and shall slope down at the rate of one and one-half (1½) feet horizontal to one (1) foot vertical.

Said combined curb and gutter shall conform to the surface of the finished roadway as herein described. The top edge of the curb on each side of the roadway of each of said specified street shall be at an elevation of straight lines connecting the several points at the curb elevations herein described, and the top edge of the curb on each side of the roadways of all intersecting alley(s) extended from the curb line of each side of each of said specified street(s) shall rise from the curb line to the street line at the rate of one (1) inch vertical to three (3) feet horizontal from the elevation of the curb of said specified street(s) between the points herein described. The curb elevations of said specified street(s) shall be as follows, to wit:

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified streets shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four inches internal diameter and hold on a ring of of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly roller and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices. The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mixture shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

*Asphaltic Concrete Surface Course, Fine Dense Graded Aggregate Type*

| | |
|---|---|
| Passing ½ inch sieve | 95-100% |
| Passing ½ inch, retained on No. 4 sieve | 45- 65% |
| Passing No. 4 retained on No. 10 sieve | 10- 30% |
| Passing No. 10 retained on No. 40 sieve | 5- 18% |
| Passing No. 40 retained on No. 50 sieve | 7- 22% |
| Passing No. 80 retained on No. 200 sieve | 5- 13% |
| Passing No. 200 sieve | 4- 8% |
| Bitumen | 5- 7% |

(Table 45.llp. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is the be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

### Pozzolanic Base Course

IV-2. On the subgrade as formed and compacted shall be placed and compacted to the depth shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than 6 inch (compacted) in thickness. When the thickness specified is more than 6 inches the base course shall be constructed in 2 or more approximately equal layers. Each layer shall be deposited, full-lane width, directly on the prepared subgrade or on the preceeding layer of compacted mixture with a mechanical spreader box of a type approved by the Engineer. Where the base must be constructed in more than one layer, the previous layer shall be maintained in a moistened condition until the succeeding layer is placed. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same day as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing, the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100 per cent of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

(b) All pozzolanic mixture shall be placed and compacted the same day as it is mixed. The entire base course within the increment of work shall be completed within 24 hours.

(c) Except in specific cases, when otherwise permitted by the Engineer the pozzolanic base course mixture shall be placed between April 15 and October 15 and only when the temperature is 40 or more.

(d) The three wheel or tandem rollers shall weigh from 6 to 10 tons and shall weigh not less than 200 pounds nor more than 325 pounds per inch width of roller. The compression developed by the pneumatic-tired roller shall be not less than 225 pounds per inch of tire width.

IV-4 MATERIALS. All materials shall conform to the following requirements:

(a) Lime. High-calcium hydrated lime or monohydrated dolomitic lime shall be used. The lime shall have a total oxide (calcium and magnesium) equivalent of not less than 85 per cent and a loss of ignition of not more than 25 per cent. Monohydrated dolomitic lime shall have only the calcium component hydrated. Exposure of the lime to air shall be held to a minimum. If more than 10 per cent of the lime has reverted to a corbonate, it shall not be used.

(b) Fly ash. The pozzolan, prior to dampening thereof to alleviate the dust problem shall comply with the requirements of AST Designation: C-379 or C-432 with 10% maximum loss on ignition. The tests prescribed by this specification shall be performed at the option of the engineer. At the time of mixing the pozzolan shall be in a finely divided condition such that 95% shall pass a ½ inch seive when dry-sieved.

(c) Course Aggregate. The course aggregate shall be gravel, crushed stone, crushed slag or boiler slag meeting the following requirements:

(1) Gravel, crushed stone or crushed slag. The gradation for all three materials, shall be as follows:

| *Sieve* | *Per Cent by Weight Passing* |
|---|---|
| One inch | 100% |
| ½ inch | 60-100% |
| No. 4 | 40-100% |
| No. 40 | 10- 35% |
| No. 200 | |
| (gravel) | 0- 10% |
| (crushed stone & slag) | 0- 15% |

(2) Boiler slag. The slag shall be wet bottom boiler slag produced as a by-product of a power plant burning pulverized bituminous coal. The slag shall be composed of hard durable particles and shall be free of excessive or harmful amounts or foreign substances. Boiler slag or granulated slag in an oven dry condition shall meet the following gradation requirements:

| *Sieve* | *Per Cent by Weight Passing* |
|---|---|
| No. 4 | 80-100% |
| No. 10 | 55- 90% |
| No. 40 | 0- 25% |
| No. 200 | 0- 10% |

Note: Granulated slag will be permitted only when authorized in writing by the Engineer.

d) Samples. The contractor, shall at his own expense, submit to the Engineer a minimum of 25 pounds of lime, 100 pounds of fly ash and 150 pounds of the course aggregate which he proposed for use in the pozzolanic mixture. The lime, when sampled, shall immediately be placed in a sealed container and shall be kept sealed. Samples shall be furnished at least 45 days prior to the construction of the pozzolanic base course. The samples as submitted will be tested for acceptance of materials and also to determine whether or not they will produce a satisfactory mixture; and will be used to determine preliminary proportions for the mixture composition.

IV-4 COMPOSITION OF MIXTURE.

(a) The lime, pozzolan and aggregate shall be proportioned within the following limits on a dry-weight basis:

PERCENT BY WEIGHT OF TOTAL DRY MIXTURE.

| *Ingredient* | *Gravel, Crushed Stone, Crushed Slag or Aggregate Blend* | *Boiler Slag* |
|---|---|---|
| Lime | 2- 5 | 2- 4 |
| Pozzolan | 8-16 | 15-30 |
| Aggregate | 79-90 | 56-78 |

(b) The actual proportions of lime, pozzolan, water and aggregate will be set by the Engineer before work begins and will be based on tests conducted on mixtures composed of samples of the constituent materials furnished by the Contractor. The right is reserved by the Engineer to make such changes in proportions during the progress of the work as he may consider necessary.

(c) The composition of the mixture shall be such that when molded into cylinders, cured and tested as stated in the following paragraph, each cylinder shall have a minimum compressive strength of 450 psi and a maximum weight loss of 14% after 12 cycles of freezing and thawing.

(d) Test cylinder shall be molded at the optimum moisture content and maximum density in accordance with AASHO Designation T 160, Method C, except that the 5 lift requirement is replaced with 3 lifts and no replacement of course aggregate (+¾ inch sieve) is made. The molded specimens shall immediately be placed in an oven with forced air circulation for 7 days at 100+3 F. At the end of 7 days, the test cylinders for compressive strength testing shall be removed from the containers, allowed to cool to room temperature, soaked for four hours capped and broken for compressive strength within one hour of time of removal from water. The specimens to be tested for freeze-thaw resistance shall be cured in the same manner as the strength specimens without the 4 hour soaking period. After curing the specimens shall be subjected to 12 cycles of freezing and thawing in accordance with AASHO Designation: D 560, sections 5, 9 and 10 pertaining to specimen No. 2 (weight loss specimen).

IV-5 MIXING.

(a) The constituents of the mixture shall be accurately proportioned and thoroughly mixed in a mechanical mixer at a central mixing plant. The measuring devices for proportioning the mixer, either by volume or by weight shall be of such accuracy that the proportions of the mixture based on total dry weight will be maintained within the following tolerances:

| | |
|---|---|
| Lime | +0.3 percent by weight |
| Fly ash | +1.5 percent by weight |
| Aggregate | +2.0 percent by weight |

(b) The equipment used must be provided with means, meeting with approval of the Engineer, for calibration and check tests of measuring devices. In all plants, the water shall be proportioned by weight or volume and there shall be means by which the Engineer may readily verify the amount of water per batch or the rate of flow for continuous mixing. The contractor shall provide a platform scale and make arrangements for the use of a certified truck scale of sufficient capacity for calibration and periodic check tests of the feeders or measuring devices as needed during production.

(c) The mixer shall be capable of producing a uniform mixture. Mixing operations shall be continued until all ingredients are distributed evenly throughout the mixture and a uniform mixture, free of segregation, is obtained. The engineer shall be the sole judge of the adequacy of mixing. The mixer shall be capable of discharging the mixture without undue segregation. The moisture content at the time of mixing shall be such that the moisture content at the time of compaction will be within 85 to 110 percent of the optimum moisture determined.

IV-6. PRIME COAT. On the prepared base after removing, by sweeping or otherwise, any loose material, dirt or debris, shall be applied a prime coat of bituminous material at the rate of 0.15 to 0.30 gallons per square yard, using asphalt: MC -0 .

Prime coat for the above and its application shall conform to the following:

(a) This material shall be homogenous and shall show no separation of asphalt after thorough mixing, within 30 days after delivery, provided separation has not been caused by freezing. It shall coat the aggregate being used in the work to the satisfaction of the engineer and shall conform to the following requirements:

| | | |
|---|---|---|
| Flash Point (Tag open cup) °F. | | 100 plus |
| Viscosity, Saybolt Furolat 77° | Sec. 75-150 | |
| Distillate to 437° | 25- | |
| Distillate to 500° | 40- 70 | |
| Distillate to 600° | 75- 93 | |
| Residue from Distillation to 680°F. percent volume by difference | | 50 plus |
| Tests on Residue: | | |
| Penetration at 77°F. 100g 5, | Sec. 150-300 | |
| Ductility at 77°F. cm (when penetration at 77°F. is between 150-200) | | 100 plus |
| Ductility at 60°F. cm (when penetration at 77°F. is between 200-300) | | 100 plus |
| Bitumen soluble in carbon disulphide, percent | | 99.5 plus |

(b) The pressure distributor used for applying the liquid shall meet the following requirements:

It shall operate smoothly at low speed.

It shall have a dial and pressure gauge, spray bars of various lengths, and a hand spray bar for applying materials at street and alley returns and radius corners.

(c) A tank thermometer to determine the temperature of the contents of the tank and a tachometer to enable the driver to maintain the constant speed necessary for the correct application of the specified quantity of bitumen. The cost of this material, together with the cost of labor, equipment and other costs required in placing such materials shall be included in the unit price bid per square yard of pavement.

Upon the primed pozzolanic base course shall be placed two courses of asphaltic concrete and shall meet the same requirements as previously stated.

### SECTION VI

VI-I. This item shall consist of a mixture of aggregate (crushed stone) and bituminous material, plant mixed and constructed on a prepared subgrade in accordance with the requirements of the Board of Local Improvements. The base course shall be laid according to the lines and grades as established by the Engineer. The thickness will be as shown on the standards or plans or as established by the Engineer.

VI-II. All materials shall conform to the requirements of the Standard Specifications for Road and Bridge construction, State of Illinois, adopted August 1, 1968 and the supplemental specifications in effect on the date of invitation for bids.

(a) The sources of supply shall be State approved. Satisfactory evidence shall be presented by the material supplier as to the ability of the source of supply to furnish the aggregate in proper quantity and meet the requirements as to grading and quality.

(b) Gradation of the aggregate shall meet the following requirements:

| | |
|---|---|
| Passing 1″ sieve | 100% |
| Passing ½″ sieve | 60-100% |
| Passing No. 4 sieve | 40- 65% |
| Passing No. 8 sieve | 25- 55% |
| Passing No. 200 sieve | 5- 15% |

The Contractor may have the option of deviating from these requirements provided he receive the approval of the Engineer. The Contractor must notify the Engineer a sufficient time in advance of his operation.

(c) If approved by the Engineer, the material may be produced by blending aggregate from more than one source. The components of a blend need not be of the same kind of material. The method of blending must meet the approval of the Engineer. The sources of material and the blending proportions shall not be changed during the progress of the work without written permission from the Engineer.

(d) The bituminous materials used in the mixture shall be asphalt cements of 85-100, 100-120, or 120-150 penetration grade. The same grade of bituminous material shall be used throughout the work. The Engineer reserves the right to specify the grade to be used. The percentage of residual bitumen shall be 3 to 6%. The Engineer may make such changes in proportions during the progress of the work as he may consider necessary.

(e) *Samples and Tests.*

A ½ gallon sample of the bituminous aggregate mixture for each 5,000 tons produced, shall be taken by the Engineer for extraction tests. A minimum of three samples shall be submitted. The sample shall be a composite sample taken from at least 5 trucks. A one-quart sample of the bituminous material being used shall be taken by the Engineer at the same time the bituminous aggregate mixture sample is taken. The sample shall be taken from the line leading to the asphalt bucket or pug mill spray bar or directly from the asphalt bucket or spray bar. Paving asphalt shall be submitted in a one-quart friction top can.

(f) *Mixture Composition and Control Factors.* The Contractor, at his expense, shall submit a sample of 100 pounds of the aggregate to the Engineer which he proposes to use in the bituminous mixture. The sample shall be submitted at least three weeks prior to start of base construction. The aggregate sample shall be taken under the supervision of the Engineer.

At the time of submitting the sample, the Contractor shall state the source of the aggregate and the source and grade of the asphalt that he will use. The sample submitted to the Engineer when mixed with the designated grade of asphalt shall produce a satisfactory bituminous mixture that will have a strength of at least 100 pounds greater than the minimum requirements shown on the plans. If the material will not produce a satisfactory mixture meeting this requirement, the Contractor shall submit a material that will comply.

If the aggregate furnished for design purposes contains some crusher material, the Contractor shall submit with the sample a statement giving the percentage of plus No. 4 material that is crushed. Throughout the improvement this percentage shall be maintained within a minus 5 percentage points of this amount.

(g) The mix to be used shall be prepared as required by the appropriate state specification.

(h) The Engineer may order any tests that he may deem necessary to insure the quality of the work.

VI-III. *Construction Procedure.*

(a) Transportation of bituminous mixes shall be governed by Article 46.14 of the Standard State Specifications.

(b) The subgrade shall be prepared as required in Section II of these specifications. The Contractor shall notify the Board of Local Improvements a sufficient time before laying the base course to allow for an inspection of the subgrade. The base course shall not be placed except in the presence of the Engineer or his representative.

(c) The base course shall be spread by an approved type asphalt spreading and finishing machine. The machine shall meet the requirements of Article 133.3 and its addendums of the State Specifications, or it may be a type approved by the Engineer.

(d) The base course shall be constructed only when the temperature in the shade is at least 40 degrees F. In specific cases, the Engineer may order a waiver of this limitation.

(e) The base course mix shall be delivered at a temperature of 225 degrees to 325 degrees F.

(f) The base course may be constructed in one or more courses, the decision shall be made by the Engineer for each project.

(g) The base course shall be compacted with three-wheel rollers or tandem rollers weighing from 6 to 12 tons and shall not weigh less than 200 pounds nor more than 400 pounds per inch of width of roller. Vibrating rollers will be permitted if approved by the Engineer.

(h) The first layer of the bituminous mixture shall be compacted to a density of not less than 90% of the theoretical density. Succeeding layers or where one layer is used shall be compacted to a density of not less than 90%. The theoretical density shall be computed from the saturated surface dry specific gravity of the aggregate, and the specific gravity of the asphalt at 77 degrees F., or it may be determined by the high pressure air meter. The density of each of the finished layers of bituminous mixes shall be obtained from specimens furnished by the Contractor. Specimens shall be cut by the Contractor from the finished layer with a core drill. The diameter of a specimen shall in no case be less than 3⅞ inches nor more than 4 inches. Four specimens shall be taken for each day's run for each layer. When directed by the Engineer, additional specimens shall be taken but the total number from one day's run shall not exceed 20. The Contractor shall remove the specimens at locations designated by and in the presence of the Engineer and transport them to a location designated by the Engineer. Extreme care shall be taken to avoid damage to the specimens. The holes caused by the removal of the specimens shall be refilled immediately with bituminous aggregate mixture meeting these specifications, compacted and finished to the satisfaction of the Engineer. The cost of the work required in taking and transporting the specimens and in refilling the holes caused by removal of the specimens shall not be paid for separately, but shall be included in the unit price bid per square yard for pavement.

(i) The stability of the completed base course shall be not less than 900 pounds as required by the State of Illinois.

(j) *Tolerance in Thickness.* It is the intent that the base course shall be constructed to the nominal thickness shown on the plans. Thickness determinations shall be made at such points as the Engineer may select. If thicknesses less than 95% of nominal thickness are encountered, the extent and depth of the deficient area shall be determined and Bituminous Mixture Base Course or Bituminous Concrete Surface Course shall be placed by the Contractor at his expense to bring the deficient area of the base to nominal thickness. If Bituminous Concrete Surface Course is used, it may be placed as part of the surfacing operation.

(k) On the finished base course shall be laid a bituminous concrete course of 1½ inches in thickness, the surface course shall be constructed in accordance with the requirements of Section IV-12 through IV-19 of these Specifications.

P.C.C. Sidewalk removal and replacement.

Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of said street(s). Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Additional masonry where necessary.

Curb removal where necessary.

P.C.C. Driveways removal and replacement.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

*Section 2.* That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

*Section 3.* That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled, "An Act Concerning Local Improvements", approved June 14, A.D. 1897, and the amendments thereto, and that of said special assessment the sum of Thirteen Thousand One Hundred Forty-One and Seventy-Five One-Hundredths Dollars ($13,141.75) not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with

Article 9-2 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

*Section 4.* That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of six (6) per centum per annum according to law until paid.

*Section 5.* That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public lands), bonds shall be issued payable out of said installments bearing interest at the rate of six (6) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled, "An Act Concerning Local Improvements", approved June 14th, A.D. 1897, and the amendments thereto.

*Section 6.* That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

*Section 7.* That all ordinances, or parts of ordinances, conflicting with this ordinance be and the same are hereby repealed.

*Section 8.* This ordinance shall be in force from and after its passage.

## COMMITTEE ON FINANCE.

### Single Lot in Unincorporated Territory Annexed to City of Chicago; Incorporated within Boundaries of 13th Ward and Classified for Zoning Purposes.

The Committee on Finance submitted a report recommending that the City Council pass the following two proposed ordinances transmitted therewith to annex to the City of Chicago a single lot adjacent to W. 77th Street and S. Laporte Avenue now in unincorporated territory to be included within the boundaries of the 13th Ward and classified for zoning purposes.

On separate motions made by Alderman Keane *each* of the two proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—**46.**

*Nays*—None.

Said ordinances as passed read respectively as follows (the Italic heading in each case not being a part of the ordinance):

*Annexation of Territory*

Whereas, The property hereinafter described lies within unincorporated territory; and

Whereas, Said property hereinafter described contains less than sixty (60) acres; and

Whereas, Said property, as hereinafter described, is wholly surrounded by the City of Chicago, and is situated in the County of Cook and State of Illinois; and

Whereas, The City Council of the City of Chicago hereby declares that all steps, proceedings, and actions proper for the purpose of authorizing the annexation of said territory to the City of Chicago have been complied with according to law; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

Section 1. That the territory known and described as follows, to wit:

> Lot 32 in Cicero Avenue and 77th Street Subdivision, being a Subdivision of the South 1/5 of the North 5/12 of the South 60 Acres of the East ½ of the Southeast ¼ of Section 28, Township 38 North, Range 13 East of the Third Principal Meridian, in Cook County, Illinois,

said property lying within unincorporated territory containing sixty (60) acres or less and being wholly surounded by the City of Chicago, be and the same is hereby annexed to the City of Chicago and incorporated within the boundaries of the 13th Ward.

Section 2. The City Clerk is hereby directed to file in the Office of the Recorder of Deeds of Cook County, Illinois, in the manner and form and at the time prescribed by statute in such case made and provided, a certified copy of this ordinance, and a proper map of the territory hereby annexed, duly certified by the Mayor and City Clerk.

SECTION 3. This ordinance shall be in force and effect from and after its passage.

### *Zoning Classification of Annexed Area*

WHEREAS, The Corporate Authorities of the City of Chicago have by ordinance annexed certain lands as hereinafter described; and

WHEREAS, The Department of Development and Planning, pursuant to the provisions of Article 5.4 of the Comprehensive Zoning Amendment of the City of Chicago, has reviewed said annexation and made certain recommendations concerning zoning of said territory; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That the territory described as follows:

> Lot 32 in Cicero Avenue and 77th Street Subdivision, being a Subdivision of the South 1/5 of the North 5/12 of the South 60 Acres of the East ½ of the Southeast ¼ of Section 28, Township 38 North, Range 13 East of the Third Principal Meridian in Cook County, Illinois,

be and the same hereby is zoned R4 General Residence District.

SECTION 2. That this ordinance shall be in force and effect from and after its passage and filing of the annexation ordinance concerning said lands hereinbefore described.

### Execution of Lease Agreement Authorized with American Airlines, Inc. for Hangar Site Addition at Chicago-O'Hare International Airport.

The Committee on Finance submitted a report recommending that the City Council pass a proposed ordinance transmitted therewith, to authorize execution of lease agreement with American Airlines, Inc., for hangar site addition at Chicago-O'Hare International Airport.

On motion of Alderman Keane the said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—46.

*Nays*—None.

**The following is said ordinance as passed:**

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That the Mayor, subject to attestation by the City Clerk, approval of the City Comptroller and the Commissioner of Aviation, and by the Corporation Counsel as to form and legality, is authorized to execute in behalf of the City of Chicago an Agreement with American Airlines, Inc., for certain therein to be described premises at Chicago-O'Hare International Airport, said agreement to be in the following form:

### HANGAR SITE LEASE

This Lease, made and entered into as of this.... day of ................, 19..., by and between the City of Chicago, a municipal corporation of the State of Illinois (hereinafter referred to as "City"), and American Airlines, Inc., a corporation organized and existing under and by virtue of the laws of the State of Delaware (hereinafter referred to as "Airline"),

WITNESSETH:

Whereas, City owns and operates the airport known as Chicago-O'Hare International Airport (a plat of said airport being attached hereto as Exhibit A and made a part hereof) situated in the County of Cook and the County of DuPage, State of Illinois (hereinafter, together with any additions thereto or enlargements thereof, whether or not made with corporate funds of City, Government Grants in Aid, Approved Revenue Bonds (as such term is hereinafter defined) or any other funds of any nature whatsoever, referred to as the "Airport") with the power to lease premises and facilities and to grant rights and privileges with respect thereto, all as hereinafter provided; and

Whereas, City and Airline have entered into an agreement as of January 1, 1959, entitled and hereinafter referred to as the Airport Use Agreement; and

Whereas, Airline is engaged in the business of air transportation and desires to lease certain premises and facilities and to obtain certain rights and privileges with respect thereto and to the use of the Airport upon the terms and conditions hereinafter provided; and

Whereas, City is willing to lease to Airline such premises and facilities, and to grant to Airline such rights and privileges, upon the terms and conditions hereinafter provided;

Now, Therefore, for and in consideration of the premises (which are incorporated into the body of this lease as fully as if they were set forth therein) and of the mutual covenants and agreements herein contained, and other valuable considerations, the parties hereto covenant and agree as follows:

### Article I

#### *Premises*

Section 1.01—*Lease of Premises—Use of Demised Premises.* City does hereby lease to Airline, and Airline does hereby lease from City a parcel of land comprising twenty-two and five hundred sixty-nine one thousandths (22.569) acres (hereinafter, together with any buildings and improvements now or hereafter located thereon, referred to as the "Demised Premises") located at the Airport in the Hangar Area and shown as outlined in "Red" and described in Exhibit A attached hereto, together with the facilities, rights and privileges hereinafter described.

Airline is hereby granted the exclusive use of the Demised Premises, subject to the terms and provisions hereof and to rules and regulations promulgated by City in accordance with Article VI hereof for any and all purposes reasonably necessary or convenient in connection with the conduct by Airline of air transportation, including, without limitation, the following:

(a) the repairing, maintenance, conditioning, testing, parking, moving and storage of aircraft and other equipment operated by Airline or by any other scheduled air transportation company;

(b) the loading and unloading of persons, property, cargo and mail upon or from aircraft operated by Airline or by any other scheduled air transportation company; provided, however, such loading and unloading shall not be so conducted as to constitute use of the demised premises as a substitute for normal passenger terminal area operations;

(c) the servicing of aircraft and other equipment operated by Airline or by any other scheduled air transportation company, with gasoline, oil, greases, lubricants and any other fuel or propellant, and with foods, beverages and other supplies and materials;

(d) the training of personnel in its employ or under its direction;

(e) the maintenance and operation, subject to the approval of the Commissioner of Aviation with respect to compliance with applicable safety requirements, of facilities and equipment for the storage, handling and dispensing of gasoline, oil, greases, lubricants and any other fuel or propellant, and other supplies and material;

(f) the maintenance and operation, subject to the approval of the Commissioner of Aviation with respect to compliance with applicable health and safety requirements of a water storage tank or tanks and sewerage systems and related facilities and equipment, including the right to grant to others the use of the same under such conditions as Airline may prescribe;

(g) the maintenance and operation of communication, meteorological and aerial navigation facilities and equipment; provided, the exercise of such right does not interfere with City's operation of the Airport for the benefit of all aircraft using the Airport;

(h) the maintenance and operation of a private cafeteria, restaurant and other food and beverage preparing and dispensing facilities and equipment for the purpose of preparing and serving foods and beverages for consumption by Airline's employees and invitees and for consumption on aircraft operated by Airline or by any other scheduled air transportation company; provided, however, that nothing contained in this subparagraph (h) shall be deemed to give Airline the right to maintain or operate a public cafeteria, restaurant or other food and beverage preparing and dispensing facilities and equipment for the purpose of selling food or beverages to the public as a caterer or otherwise;

(i) the maintenance and operation of automobile parking areas on the demised premises for the parking of automobiles by Airlines' employees and invitees;

(j) the maintenance and operation of reservations offices, administrative offices and operations offices;

(k) the sale, disposal or exchange of Airline's aircraft, engines, accessories, gasoline, oil, greases, lubricants, other fuel or propellant, other equipment or supplies, and any articles or goods used by or acquired for use by Airline in connection with its conduct of air transportation; provided, however, that Airline shall not sell, dispose of or exchange any such items to others than its employees or scheduled air transportation operators, unless such items represent surplus items at the time no longer reasonably necessary in connection with the conduct by Airline of its air transportation business; and provided further, that Airline shall not sell, dispose of or exchange gasoline, oil, greases, lubricants, fuel or propellants, except to a subsidiary or affiliated company or to other scheduled air transportation companies;

(l) the purchase or otherwise obtaining and using of property of any nature, reasonably necessary or convenient for its operations, from any supplier of its choice; and

(m) the maintenance and operation of hangar buildings, facilities and equipment and the carrying on of activities reasonably necessary or convenient in connection with the foregoing;

provided, however, that the foregoing shall not permit the conduct by Airline of any business separate from its operation of an air transportation system; and further provided, that the rights conferred under this Article I may be exercised by Airline alone or in conjunction with other Airline Parties, directly or through another designated by it or them, excepting that the rights conferred by subparagraph (c) above to service aircraft and other equipment with gasoline, oil, greases, lubricants, and other fuel or propellant may be exercised by Airline in conjunction with other Airline Parties, either directly or through another designated by them, only with respect to aircraft and other equipment operated by Airline Parties.

Section 1.02—*Ingress and egress. Right to connect taxiway, roadways, etc.* Subject to rules and regulations promulgated by City in accordance with Article VI hereof, Airline shall have the right and privilege over the Airport of ingress to and egress from the demised premises for its employees, agents, passengers, guests, patrons and invitees, its or their suppliers of materials and furnishers of service, and its or their aircraft, equipment, vehicles, machinery and other property, including the right to construct, install, maintain, use and operate facilities and equipment on the Airport for the purpose of connecting the demised premises with taxiways, roadways, water lines, sewer lines, drainage ditches and utility lines serving the Hangar Site Area, any such connection to be at a point and over a route approved by the Commissioner of Aviation and the Commissioner of Public Works, as being the most practical place and route available. Airline shall pay all charges for electric power furnished to the demised premises. Except as in this Lease or any other Agreement between City and Airline otherwise specifically provided, no charges, fees or tolls of any nature, direct or indirect, shall be imposed by City upon Airline, its employees, agents, passengers, guests, patrons and invitees, its or their suppliers of materials and furnishers of service, for such right of ingress and egress, or for the privilege of purchasing, selling or using any materials or services purchased or otherwise obtained by Airline as provided in subparagraphs (k) and (l) of this Section, or transporting, loading, unloading or handling persons, property, cargo, or mail in connection with Airline's business or exercising any right or privilege granted by City hereunder. The foregoing shall not preclude City or its Concessionaires from making and collecting a charge for the use of public automobile parking areas, sightseeing facilities or ground transportation to or from the Airport furnished by City or its concessionaires, or preclude City from imposing any sales, occupation or other taxes provided by law, permit or license fee not inconsistent with the rights and privileges granted to Airline hereunder.

Section 1.03—*Use of Premises on Behalf of or by Others.* Any of the premises leased to Airline under this Article I may also be used, in whole or in part, by Airline on behalf of or in conjunction with any other Airline Party or Parties in connection with the conduct of air transportation by such other Airline Party or Parties, to the same extent as Airline is entitled to use such premises in its own behalf in connection with its conduct of air transportation. Airline shall also be entitled to sublease any of such premises, in whole (subject to the prior approval of City) or in part, to any other Airline Party or Parties for use in connection with the conduct of air transportation by such other Airline Party or Parties, to the same extent as Airline is entitled to use such premises in its own behalf in connection with its conduct of air transportation. In case of any use of any of such premises by Airline on behalf of or in conjunction with any other Airline Party or Parties, or in case of any sublease of any of such premises in accordance with the foregoing provisions, Airline shall remain liable for its obligations hereunder and the rights and privileges granted hereunder to Airline, its employees, agents, passengers, guests, patrons and invitees and its or their suppliers of materials and furnishers of service shall be granted with respect to such premises (except as may be otherwise provided in any such sublease) to such other Airline Party or Parties, and its or their employees, agents, passengers, guests, patrons, invitees, suppliers of materials and furnishers of service.

Notwithstanding the foregoing provisions of this Section 1.03, no use of any of the premises leased to Airline under this Article I may be made by Airline on behalf of or in conjunction with any other Airline Party or Parties, Airline shall not sublease any part or parcel of the demised premises or permit the use or occupancy of any part or parcel of the demised premises (except by other "Airport Use Agreement Parties" as set forth herein) except upon the prior written approval of, and subject to such other terms and conditions as may be imposed by the Commissioner of Aviation and the City Council, in each instance.

### Article II

*Term*

This Lease shall be for a term of twenty (20) years commencing on the ..... day of ........., 19..., and unless earlier terminated or extended as provided herein, expiring on the ..... day of ......................., 198...

### Article III

*Rentals*

As rental for the Demised Premises, and all of the rights granted hereunder, Airline shall pay on or before the first day of each calendar month a monthly rental (hereinafter called "ground rental") of Three Thousand Seven Hundred Sixty-One and 50/100 Dollars ($3,761.50). Said payments to be made in advance, commencing on the effective date of this lease as described in Section 16.02 hereof.

The ground rental shall be payable at the office of the City Comptroller. Any rental payable by Airline hereunder which is not paid when due shall bear interest at the rate of seven per cent (7%) per annum from the due date thereof until paid. If any rental hereunder commences or terminates prior to the last day of any month, such rental for such month shall be determined on a pro rata basis according to the number of days of such month involved.

### Article IV

*Construction and Maintenance of Hangar*

Section 4.01—*Construction of Hangar by Airline.* Airline shall be permitted to construct on the Demised Premises a hangar (which term as used herein, includes related hangar ramp aprons, facilities and fixtures necessary or incidental to normal operation of a hangar). For the purpose of this Section 4.01, construction of Airline's hangar on the Demised Premises may include construction by Airline of connections with any taxiway, roadway, water line, sewer line, drainage ditch and utility lines serving the Demised Premises. All of the plans and specifications for Airline's construction hereunder shall be submitted to the Commissioner of Aviation and the Commissioner of Public Works for approval prior to the commencement of construction.

Section 4.02—*Construction, Maintenance and Repair by Airline.* In addition to the initial construction permitted in Section 4.01, above, Airline may construct or install, at its own expense, any buildings, improvements, facilities and equipment, and any additions thereto, on the Demised Premises. All such construction or installation shall be made after obtaining any requisite building or construction licenses or permits. Plans and specifications of any such proposed construction or installation (including the initial construction and any substantial alteration or addition thereto) shall be submitted to and receive the approval of the Commissioner of Aviation and the Commissioner of Public Works prior to the commencement of construction or installation. Subject to the provisions of Section 4.01 and Article VIII hereof, Airline shall keep and maintain all buildings, improvements and facilities and additions thereto, constructed or installed by Airline on the Demised Premises in good condition and repair. No restrictions shall be placed on Airline as to the architects, builders or contractors who may be employed by it in connection with construction, installation, alteration, repair or maintenance by Airline on the Demised Premises. All buildings and permanent improvements constructed by Airline on the Demised Premises shall become the property of City upon completion of construction thereof.

Notwithstanding the foregoing, Airline shall, after completion of the construction provided for by Section 4.01 hereof, keep the Demised Premises and all construction and installations made thereon in a sanitary and sightly condition, and shall comply with all health and safety requirements applicable thereto.

Any advertising signs installed by Airline shall be limited to those which advertise air transportation, and the number, general type, size, design and location of such signs shall be subject to the approval of the Commissioner of Aviation.

Section 4.03—*Lighting.* Airline shall illuminate the apron in front of each building on the Demised Premises with flood lights and shall place and maintain at all times red obstruction lights on the highest point and on each corner of such building and on the highest point of each smoke stack, pole, aerial and antenna on the Demised Premises. The obstruction light fixtures shall be of a dual type and the lights shall be kept burning at Airline's expense from dusk to dawn and during period of restricted visibility.

Section 4.04—*Covenant Against Liens.* Airline shall keep the Demised Premises and the buildings, improvements and facilities constructed thereon free and clear of any and all liens in any way arising out of the action, or use thereof, by Airline; provided, however, that Airline may in good faith contest the validity of any lien.

Section 4.05—*Performance by City upon Failure of Airline to Maintain.* In the event Airline fails to perform for a period of thirty (30) days after notice from City so to do, any obligation required by Sections 4.02, 4.03 and 4.04 hereof to be performed by Airline, City may enter the premises involved (without such entering causing or constituting a termination of this Lease or an interference with the possession of said premises by Airline) and do all things necessary to perform such obligation, charging to Airline the cost and expense thereof and Airline agrees to pay City such charge in addition to any other amounts payable by Airline hereunder; provided, however, that if Airline's failure to perform any such obligation endangers the safety of the public or of employees of City, and City so states in its notice to Airline, City may perform such obligation of Airline at any time after the giving of such notice and charge to Airline, and Airline shall pay, as aforesaid, the cost and expense of such performance.

## Article V

*Performance by City*

Section 5.01—*Facilities Furnished by City.* In addition to the taxiways and roadways connections to be constructed by Airline, City has constructed taxiways, roadways, water lines, sewer lines and drainage ditches serving the Demised Premises. Airline is granted the right and privilege to use all of such taxiways, roadways, water lines, sewer lines and drainage ditches in common with others; provided, however, that Airline shall be required to pay to City a reasonable charge for direct metered water supplied by City to Airline through any such water line.

Section 5.02—*Maintenance and Operation.* City shall operate and maintain, in all respects in a manner consistent with that of a reasonably prudent operator of an airport, and keep in good condition and repair (including the removal of snow, vegetation, stones and other foreign matter as reasonably as may be done, from taxiways, including roadways, apron and taxiways constructed by Airline pursuant to Section 4.01 and located outside the Demised Premises) all taxiways, connections therefrom, roadways, water lines, sewer lines, drainage ditches, additions, improvements, facilities and equipment now or hereafter provided by City serving the Demised Premises but located outside the Demised Premises.

Section 5.03—*Taxes on Demised Premises.* Airline shall pay any and all taxes or special assessments, if any which may be levied or assessed upon the Demised Premises; or on any personal property or leasehold of Airline located on the Demised Premises.

Section 5.04—*Exclusive Possession.* City agrees that Airline, performing its obligations hereunder, shall be entitled to and shall have the exclusive possession and enjoyment of the premises, rights and privileges leased to it hereunder, subject, however, to the provisions hereof.

Section 5.05—*Performance by Airline upon Failure of City to Maintain and Operate.* In the event City fails to perform, for a period of thirty (30) days after notice from Airline so to do, any obligation required by this Article V to be performed by City, Airline may perform such obligation of City and bill City for the cost to Airline of such performance; provided, however, that if City's failure to perform any such obligation endangers the safety of Airline's operations at the Airport and Airline so state in its notice to City, Airline may perform such obligation of City at any time after the giving of such notice and bill City for Airline's cost of such performance, but Airline shall not deduct any such cost from any amounts due hereunder or under any other agreement between Airline and City relating to the Airport unless at the time there are no Approved Revenue Bonds outstanding. City, however, shall not be liable to Airline for any loss of revenues to Airline resulting from any of City's acts, omissions or neglect in the maintenance and operation or otherwise by it of the Airport or any facilities now or hereafter connected therewith.

## Article VI

*Rules and Regulations*

Airline shall observe and obey all rules and regulations governing the conduct and operation of the Airport, promulgated from time to time by City, which are reasonably required for the prudent and efficient operation of the Airport and are not inconsistent with the reasonable exercise by Airline of any right or privilege granted to it hereunder or under any other agreement between Airline and City relating to the Airport or any part thereof, nor inconsistent with safety nor with the rules and regulations of any Federal or State agency having jurisdiction with respect thereto, nor inconsistent with the procedures prescribed or approved from time to time by the Civil Aeronautics Administration or any other governmental authority having jurisdiction over operations at the Airport.

City, however, shall have no control over the rates, fares or charges that Airline may prescribe in connection with its conduct of an air transportation business.

## Article VII

*Exercise by City of Governmental Functions*

Nothing contained herein shall impair the right of City in the exercise of its governmental functions to require Airline to pay any tax or inspection fees or to procure necessary permits or licenses, provided such requirement is not inconsistent with the rights and privileges granted to Airline hereunder.

## Article VIII

*Indemnity and Insurance*

Section 8.01—*Liability Arising from Act of Airline.* Airline agrees to indemnify and hold City harmless from and against all liabilities, judgments, costs, damages and expenses which may accrue against, be charged to or recovered from City by reason or on account of damage to the property of City or the property of, injury to or death of any person, arising from Airline's use and occupancy of and operations at the Airport, including acts of its agents, contractors and subcontractors, except when caused by City's sole negligence or by the joint negligence of City and any person other than Airline, its agents, contractors and subcontractors; provided that City shall give Airline prompt and timely notice of any claim made or suit instituted which, in any way, affects Airline or its insurer, and Airline or its insurer shall have the right to compromise and defend the same to the extent of their own interests. Any final judgment rendered against City for any cause for which Airline is liable hereunder shall be conclusive against Airline as to liability and amount.

Airline shall, at its own expense, keep in force insurance of the following types and in not less than the following amounts, issued by a company or companies of sound and adequate financial responsibility, insuring Airline and City against all liabilities for accidents arising out of or in connection with Airline's use and occupancy of and operations at the Airport, except when caused by City's negligence alone or jointly with any person other than Airline, its agents, contractors and subcontractors, and shall furnish to City certificates evidencing such insurance, naming City as an additional assured thereunder, subject to the limitations set forth above in respect of City's negligence, to wit:

| | |
|---|---|
| Aircraft Public Liability Insurance | $ 100,000 per person |
| | $1,000,000 per accident |
| Aircraft Property Damage Insurance | $ 200,000 per accident |
| Comprehensive Public Liability Insurance | $ 100,000 per person |
| | $ 250,000 per accident |
| Comprehensive Property Damage Insurance | $ 100,000 per accident |

If pursuant to any other agreement between Airline and City, Airline is complying with requirements identical with those of this Section, such compliance shall also serve as compliance with the requirements of this Section.

Section 8.02—*Insurance in Connection with Construction by Airline.* Airline shall, until the date of completion of Airline's hangar being constructed by Airline, keep in force insurance issued by a responsible insurance company or companies, insuring City against all liabilities for public liability or property damage arising out of or in connection with the construction upon or the use and occupancy of the Demised Premises in amounts of comprehensive insurance not less than those provided in Section 8.01 hereof, and insuring Airline's hangar during construction under completed builder's risk insurance, against fire, extended coverage, vandalism and sprinkler leakage in an amount equal to the full insurable value of such construction as the same progresses in order to assure continuity of construction and ultimate completion despite damage or destruction suffered during the course thereof.

Section 8.03—*Insurance of Airline's Hangar After Construction.* Airline shall obtain and keep in effect at all times during the term of this Agreement fire and extended coverage insurance upon hangar. The policy or policies of insurance acceptable to Comptroller shall be for not less than eighty per cent (80%) of the full insurable value of hangar and other improvements and proceeds therefrom shall be expended for the repair and restoration of said hangar and other improvements which Airline agrees it shall undertake to do as is further provided in Section 8.04 hereof.

Section 8.04—*Repair or Restoration of Hangar.* If during the term hereof the hangar shall be destroyed or damaged in whole or in part by fire or other cause, Airline shall promptly repair, replace and rebuild the same, with and to the extent of the insurance proceeds available, at least to the extent of the value and as nearly as possible to the character of the hangar existing immediately prior to such occurrence. Airline shall submit plans for such replacement or rebuilding to the Commissioner of Aviation and the Commissioner of Public Works for approval prior to the commencement of any construction. The period of time during which Airline is repairing, restoring or rebuilding said hangar or other improvements subsequent to damage or destruction thereof by fire or otherwise, shall not be considered abandonment or non-use of the premises under the provisions of this agreement. Airline shall continue to pay the ground rental hereunder during the period said hangar shall be damaged or destroyed.

### Article IX

*Termination by City*

City may terminate this Lease by giving Airline sixty (60) days advance notice upon or after the happening and during the continuance of any one of the following events:

(a) The filing by Airline of a voluntary petition in bankruptcy. In such event, City shall have the right to file a claim as a creditor and the rentals due and to become due under the terms of the Lease shall be accelerated and become due and payable.

(b) The institution of proceedings in bankruptcy against Airline and the final adjudication of Airline as a bankrupt pursuant to such proceedings.

(c) The taking by a court of competent jurisdiction for a period of sixty (60) days of all or substantially all of Airline's assets pursuant to proceedings brought under the provisions of any Federal reorganization act.

(d) The appointment of a receiver of all or substantially all of Airline's assets and Airline's failure to vacate such appointment within sixty (60) days thereafter.

(e) The assignment by Airline of its assets for the benefit of its creditors.

(f) The abandonment by Airline of its conduct of air transportation at the Airport.

(g) The default by Airline in the performance of any covenant or agreement required to be performed by Airline herein and the failure of Airline to remedy such default, or to take prompt action to remedy such default, within a period of sixty (60) days after receipt from City of notice to remedy the same.

No waiver by City of default of any of the terms, covenants or conditions hereof to be performed, kept and observed by Airline shall be construed to be or act as a waiver of any subsequent default of any of such terms, covenants and conditions.

### Article X

*Recovery of Possession by City*

If Airline shall vacate or abandon the Demised Premises or in case of the termination of this Lease, Airline's right to the possession of the Demised Premises shall terminate, with or without any further notice or demand whatsoever, and the mere mention of possession thereafter by Airline shall constitute a forcible detainer of said premises, and upon the termination of Airline's right of possession, as aforesaid, Airline agrees to surrender its possession of said premises immediately, without the receipt of any demand for rent, notice to quit or demand for possession of said premises whatsoever, and hereby grants to City full and free license to enter into and upon said premises, or any part thereof, to take possession thereof, as against Airline and others claiming through it, with or without process of law, and to expel and remove Airline and any other person claiming through it who may be occupying said premises, or any part thereof, and City may use such force in and about so expelling and removing Airline and said other person as may reasonably be necessary, and City may, as against Airline and others claiming through it, repossess itself of said premises as of its former estate, but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause forfeiture of rents due by virtue hereof, nor a waiver of any covenant, agreement or promise herein contained to be performed by Airline.

Airline hereby waives all notice of any election made by City under this Lease, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever of any and every nature which may or shall be required by any statute of this State relating to forcible entry and detainer, or to landlord and tenant, or any other statute, or by the common law during the term of this Lease; provided, however, the foregoing shall not apply to any notice specifically required under the provisions of this Lease. The acceptance of rent, whether as a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Airline or the giving or making of any notice or demand, whether according to any statutory provision or not, or any act or series of acts except an express written waiver, shall not be construed as a waiver of any right hereby given City, or as an election not to proceed under the provisions of this Lease.

The obligation of Airline to pay the rent reserved hereby shall not be deemed to be waived, released or terminated, by the service of any five-day notice, other notice to collect, demand for possession, or notice by City that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment or any judgment for possession that may be rendered in such action, or any other act or acts, other than termination of this Lease, resulting in the termination of Airline's right to possession of the Demised Premises. City may collect and receive any rent due from Airline, and payment or receipt thereof shall not waive or affect any such notice, demand, suit or judgment or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which City may have by virtue hereof.

### Article XI

*Termination by Airline*

Airline may terminate this Lease and any or all of its obligations hereunder at any time that Airline is not in default in the payment of any amount due from it to City, hereunder by giving City sixty (60) days advance notice upon or after the happening and during the continuance of any one of the following events:

(a) The failure or refusal of the Federal Aviation Agency to approve all weather operations into and from the Airport of aircraft of any type operated by Airline in scheduled air transportation using facilities similar to those at the Airport and continuance thereof for a period of at least sixty (60) days.

(b) The issuance by any court of competent jurisdiction of an injunction in any way preventing or restraining the use of the Airport or any part thereof so as to substantially affect Airline's use of the Airport in its conduct of an air transportation system and the remaining in force of such injunction, not stayed by way of appeal or otherwise, for a period of at least sixty (60) days.

(c) The issuance of any order, rule or regulation or the taking of any action by the Civil Aeronautics Board or the Federal Aviation Agency or other competent governmental authority, or the occurrence of any fire, other casualty, act of God or the public enemy, substantially affecting, for a period of at least sixty (60) days, Airline's use of the Airport in its conduct of an air transportation system; provided, however, that none of the foregoing is due to any fault of Airline.

(d) The default by City in the performance of any covenant or agreement required to be performed by City herein or in any other agreement between City and Airline relating to the Airport or any part thereof, and the failure of City to remedy such default, or to take prompt action to remedy such default, within a period of sixty (60) days after receipt from Airline of notice to remedy the same.

(e) The substantial restriction of City's operation of the Airport by action of the Federal Government, or any department or agency thereof, under its wartime or emergency powers, or by action of the State of Illinois, or any department or agency thereof, and continuance thereof for a period of not less than sixty (60) days, provided such restriction adversely affects Airlines operations at the Airport.

No waiver by Airline of default of any of the terms, covenants or conditions hereof, or of any other agreement between City and Airline relating to the Airport or any part thereof, to be performed, kept and observed by City shall be construed to be or act as a waiver of any subsequent default of any of such terms, covenants and conditions.

### Article XII

*Surrender of Possession*

Upon termination of this Lease, Airline shall surrender the Demised Premises, and the buildings and improvements situated thereon, if any, in good condition and repair, reasonable wear and tear excepted.

### Article XIII

*Abatement on Account of Casualty*

If due to damage or destruction by fire, other casualty, act of God or the public enemy, not due to any fault of Airline, any of the facilities to be furnished by the City as provided in Section 5.01 hereof (including the taxiway and roadway connections initially furnished by Airline), shall be rendered unusable to such an extent as to substantially impair the ability of Airline to conduct normal operations on the Demised Premises, then the rental payable hereunder by Airline for the Demised Premises shall be paid up to the date of such damage or destruction, but, unless City shall promptly furnish adequate temporary substitute facilities and expeditiously restore such facilities so damaged or destroyed, such rental shall thereafter abate in an amount directly proportional to the extent Airline's ability to conduct normal operations on the Demised Premises is impaired by such damage or destruction; provided, however, that if City fails to repair such damage or destruction so that Airline's ability to conduct normal operation on the Demised Premises is substantially impaired for more than ninety (90) days, then Airline, at its option, may, by giving to City at least thirty (30) days prior notice, terminate this Lease. City shall not be liable to Airline for damages for City's failure to furnish such temporary substitute facilities or, except as provided in Section 5.05 hereof, for City's failure to expeditiously restore such facilities.

If due to damage or destruction by fire, other casualty, act of God or the public enemy affecting the Airport, Airline's use of the Airport in its conduct of an air transportation system shall be substantially affected, then, without any prejudice to any right of termination hereunder, Airline shall have the right upon notice to City, to the abatement of a just proportion of the rental provided herein from the time of such notice until normal operations are permitted.

### Article XIV

*Right of Airline to remove Property*

Airline shall be entitled during the term of this Lease, and for a reasonable time (not exceeding forty-five (45) days) after its termination, to remove from the premises involved, or any part thereof, all trade fixtures, tools, machinery, equipment, materials and supplies placed thereon by it pursuant to this Lease, subject, however, to any valid lien City may have thereon for unpaid rentals or other amounts, payable by Airline to City hereunder or under any other agreement between City and Airline relating to the Airport or any part thereof, and provided that Airline shall have repaired all damage resulting from such removal.

### Article XV

*Definitions*

The specific terms used in this Lease shall have the same meanings as defined in the Airport Use Agreement entered into January 1, 1959 by and between the City and Airline covering Airline's operations at said Airport.

### Article XVI

*Miscellaneous*

Section 16.01—*Equality of Treatment.* No rights or privileges with respect to or rentals for premises leased for hangar purposes at the Airport shall be granted by City to any air transportation company in competition with Airline, which are more favorable to such company than those granted to Airline, and the effect of which is to place Airline at a competitive disadvantage.

Section 16.02—*Effective Date of Lease.* This Lease shall become effective upon approval of the plans and specifications as provided in Section 4.01 hereof. It is understood that if said plans and specifications are not submitted or approved prior to or within six (6) months after date of authorization of the City Council, this lease shall terminate.

Section 16.03—*Consents and Approvals.* Consents and approvals by the Commissioner of Aviation and the Commissioner of Public Works, as the case may be, shall be in writing and shall not be arbitrarily nor capriciously withheld.

Section 16.04—*Notices.* All notices to City provided for herein shall be in writing and may be sent by registered mail, postage prepaid, addressed to the Commissioner of Aviation of the City of Chicago, City Hall, Chicago, Illinois, 60602, or to such other address as City may designate from time to time by notice to Airline, and shall be deemed given when so mailed. All notices to Airline provided for herein shall be in writing and may be sent by registered mail, postage prepaid, addressed to Airline, Attention: Secretary, American Airlines, Inc., 633 3rd Avenue, New York, N. Y. 10017, or to such other address as Airline may designate from time to time by notice to City, and shall be deemed given when so mailed.

Section 16.05—*Separability.* In the event any covenant, phrase, clause, paragraph, section, condition or provision herein contained is held to be invalid by any court of competent jurisdiction, the invalidity of any such covenant, phrase, clause, paragraph, section, condition or provision shall in no way affect any other covenant, phrase, clause, paragraph, section, condition or provision herein contained.

Section 16.06—*Assignment or sublease.* Airline may assign this Lease and its rights hereunder to any corporation into or with which Airline may merge or consolidate, or which may succeed to the business and assets of Airline. Airline shall be further permitted to assign this Lease only to any wholly owned subsidiary corporation, and in any event, Airline shall be permitted to exercise all of the rights granted to it hereunder as a sub-tenant of said wholly owned subsidiary corporation.

In the event of any assignment or sublease hereunder, Airline shall remain primarily liable for the payment of rentals and other charges required hereunder.

Section 16.07—*Remedies Cumulative.* The rights and remedies hereunder are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Section 16.08—*Headings.* The Article and Section headings contained herein are for convenience of reference only and are not intended to define, limit or describe the scope or intent of any provision of this Lease.

Section 16.09—*Successors and Assigns.* All of the covenants, stipulations and agreements herein contained shall, subject to the provisions of Section 16.06 hereof, inure to the benefit of and be binding upon the successors and assigns of the parties hereto.

Section 16.10—*Construction.* This Lease shall be deemed to have been made in and shall be construed in accordance with the laws of the State of Illinois.

Section 16.11—*Counterparts.* This Lease has been executed in several counterparts, each of which shall be an original, and all collectively but one instrument.

### Article XVII

*Option to Extend*

City, as part of this Agreement of Lease, and in consideration of the covenants and consideration contained herein, the receipt and adequacy whereof is hereby acknowledged by City, does hereby grant to Airline insofar as City is able so to do the right to extend this Agreement of Lease upon the same terms and conditions including rental for a term commencing as of the expiration date specified in Article II herein and expiring on December 31, 1998.

Airline shall indicate its intention to exercise its option to so extend this Agreement of Lease by notice in writing to City given not less than sixty (60) days prior to the expiration date of the initial term granted herein as specified in the said Article II, and upon proper approval by City this agreement of lease shall be so extended.

### Article XVIII

*Equal Opportunity*

Airline agrees that in performing under this agreement it shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, age, or national origin, nor otherwise commit an unfair employment practice. Airline further agrees that this article will be incorporated by Airline in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or services in connection with this agreement. Attention is called to Executive Order 11246 issued September 24, 1965, 3 CFR p. 567, 1966; The Civil Rights Act of 1964, Pub. L. 88-352, July 2, 1964, 78 Stat. 241 et sub.; to the State Acts approved July 28, 1961, Ill. Rev. Stat. 1967, CH. 38, Secs. 13-1 to 13-4 inclusive; July 8, 1933, Ill. Rev. Stat. 1967, CH. 29, Secs. 17 to 24 inclusive; July 21, 1961, Ill. Rev. Stat. 1967, CH. 48, Secs. 851 to 866 inclusive, and July 26, 1967, Ill. Rev. Stat. 1967, CH. 48, Secs. 881 to 887 inclusive, and an ordinance passed by the City Council of the City of Chicago, August 21, 1945, page 3877 of the Journal of the Proceedings.

To demonstrate compliance the Airline and its contractors and subcontractors will furnish such reports and information as requested by the Chicago Commission on Human Relations.

In Witness Whereof, the City of Chicago has caused this Lease to be executed on its behalf by its Mayor, pursuant to due authorization of the City Council of the City of Chicago and its seal to be hereunto affixed and attested by the City Clerk of the City of Chicago, and American Airlines, Inc., has caused this Lease to be executed on its behalf by its ............... President and its corporate seal to be hereunto affixed and attested by its ............... Secretary, pursuant to due authorization of its Board of Directors, all as of the day and year first above written.

Execution of this Agreement authorized by ordinance of the City Council of the City of Chicago .......................................... (C.J.P. ...........................).

[Signature forms and Exhibit "A" omitted]

SECTION 2. This ordinance shall be in force and effect from and after its passage.

**This Agreement,** Made this ........ day of ........ A. D. 19 , between Earl Ross, Agent for National Boulevard Bank as Trustee, Trust No. 1727 ........, as Lessor, and the CITY OF CHICAGO, a Municipal Corporation, as Lessee:

**Witnesseth:** That the Lessor does hereby lease to the Lessee the following describe premises situated in the City of Chicago, County of Cook and State of Illinois, to-wit:

West half of corner store at 835 E. 63rd Street, containing approximately 2,100 square feet for Field Office, Model Cities Program.

To have and to hold said premises unto the Lessee for a term beginning on the 1st day of December A. D. 19 69/ or date of occupation, and ending on the 30th day of September A. D. 19 70. Lessee has the right to terminate this lease upon thirty days prior written notice, and the right to renew this lease for a further period of an additional two years on the same terms and rental, by giving to the Lessor , in either case thirty days' written notice of its election so to do. Any notice from Lessee to Lessor under or in regard to this lease may be served by mailing a copy thereof to the Lessor at 63rd-Maryland Building, 841 E. 63rd Street, 60637 or at such other place as the Lessor from time to time in writing may appoint.

Lessee shall pay rent for said premises during the continuance of this lease at the rate of Four Hundred Sixty Five and no/100------------------($ 465.00 ) Dollars per month, payable in advance on the first day of each calendar month at the office of the City Comptroller. Assessments for water tax levied against said premises for all or part of the term of this lease shall be paid by the Lessor

Lessor during the entire term of this lease shall keep in a condition of thorough repair and good order at Lessor's own expense, said demised premises and appurtenances, including catch basins, vaults and sidewalks. If the Lessor shall refuse or neglect to make needed repairs within ten days after written notice thereof sent by the Lessee, the Lessee is authorized to make such repairs and to deduct the cost thereof from rentals accruing under this lease.

Lessor will decorate, furnish heat, janitor service, air-conditioning equipment, and furnish plate glass insurance.

Lessee will pay for electricity.

It is mutually agreed and understood by and between the parties hereto that the remuneration mentioned in this lease is payable solely from funds when made available by the Federal Government.

Lessee shall not assign this lease or sublet said premises or any part thereof without the written consent of the Lessor , and upon the termination of this lease shall surrender said premises to the Lessor in as good condition as at the beginning of the term of this lease, loss by fire or other casualty, ordinary wear and repairs chargeable to the Lessor , excepted.

Lessor shall have the right of access at reasonable times for examining or exhibiting said premises and for making repairs, and shall be allowed to place thereon notices of "To Rent" for sixty days prior to the termination of this lease, and of "For Sale" at all times, but all such notices shall be placed in positions acceptable to the Lessee.

Lessee shall have the right to make such alterations, additions and improvements on said premises as it shall deem necessary, provided that such additions and improvements whether made during the term of this lease or prior thereto, shall be regarded as removable fixtures, all or any part of which the Lessee at its election may leave on said premises, or remove prior to the termination of this lease.

In case said premises shall be rendered untenantable by fire or other casualty during said term, Lessor may rebuild said premises within thirty days, but failing so to do, or if said premises shall be destroyed by fire or other casualty, this lease thereby shall be terminated; in the event of such a termination of this lease, Lessee shall be chargeable with rent only to the date of such fire or other casualty, and if Lessor shall rebuild within thirty days, Lessee shall be excused from payment of rent for the period of such rebuilding.

**In Witness Whereof,** this lease is signed by or on behalf of the parties hereto the day and year first above written.

**This Agreement** Made this ............ day of ............

A. D. 19 70, between First Finance Investment Company, a corporation ............, as Lessor, and the CITY OF CHICAGO, a Municipal Corporation, as Lessee:

Witnesseth: That the Lessor do hereby lease to the Lessee the following described premises situated in the City of Chicago, County of Cook and State of Illinois, to-wit: Entire three (3) story commercial building commonly known as 1204 East 63rd Street, Chicago, Illinois containing approximately 12,800 square feet and use of basement for storage purposes, for Department of Urban Renewal for Woodlawn Neighborhood Development Project.

To have and to hold said premises unto the Lessee for a term beginning on the 1st day of January A. D. 19 70/ or date of occupation and ending on the 31st day of December A. D. 19 72. Lessee has the right to terminate this lease on thirty day prior notice ............ ~~and the right to renew this lease for a further period of~~ ............ ~~on the same terms and conditions by giving to the Lessor in either case days written notice of its election so to do~~

Any notice from Lessee to Lessor under or in regard to this lease may be served by mailing a copy thereof to the Lessor at 105 West Adams Street, Chicago, Illinois 60603 ............ or at such other place as the Lessor from time to time in writing may appoint.

Lessee shall pay rent for said premises during the continuance of this lease at the rate of Seven Hundred Seventy Five and no/100-----------------($ 775.00) Dollars per month, payable in advance on the first day of each calendar month at the office of the City Comptroller. Assessments for water tax levied against said premises for all or part of the term of this lease shall be paid by the Lessee

Lessor during the entire term of this lease shall keep in a condition of thorough repair and good order at Lessor own expense, said demised premises and appurtenances, including catch basins, vaults and sidewalks. If the Lessor shall refuse or neglect to make needed repairs within ten days after written notice thereof sent by the Lessee, the Lessee is authorized to make such repairs and to deduct the cost thereof from rentals accruing under this lease.

Lessor agrees to repair exterior and interior to bring into full compliance of Municipal Code of Chicago, including air-conditioning unit and heating units and keep same in good operating condition at Lessor's expense. Lessee will pay electricity, Plate Glass Insurance, gas, heat, and janitor service. It is mutually agreed and understood by and between the parties hereto that the remuneration mentioned in this lease is payable solely from funds when made available by the Federal Government.

Lessee shall not assign this lease or sublet said premises or any part thereof without the written consent of the Lessor, and upon the termination of this lease shall surrender said premises to the Lessor in as good condition as at the beginning of the term of this lease, loss by fire or other casualty, ordinary wear and repairs chargeable to the Lessor, excepted.

Lessor shall have the right of access at reasonable times for examining or exhibiting said premises and for making repairs, and shall be allowed to place thereon notices of "To Rent" for sixty days prior to the termination of this lease, and of "For Sale" at all times, but all such notices shall be placed in positions acceptable to the Lessee.

Lessee shall have the right to make such alterations, additions and improvements on said premises as it shall deem necessary, provided that such additions and improvements whether made during the term of this lease or prior thereto, shall be regarded as removable fixtures, all or any part of which the Lessee at its election may leave on said premises, or remove prior to the termination of this lease.

In case said premises shall be rendered untenantable by fire or other casualty during said term, Lessor may rebuild said premises within thirty days, but failing so to do, or if said premises shall be destroyed by fire or other casualty, this lease thereby shall be terminated; in the event of such a termination of this lease, Lessee shall be chargeable with rent only to the date of such fire or other casualty, and if Lessor shall rebuild within thirty days, Lessee shall be excused from payment of rent for the period of such rebuilding.

In Witness Whereof, this lease is signed by or on behalf of the parties hereto the day and year first above written.

The following is said ordinance as passed:

### ORDINANCE
### Approving Redevelopment Plan and Feasibility of Relocation for Redevelopment Project Madison-Kedzie.

WHEREAS, Under the provisions of Title I of the Housing Act of 1949, as amended, the Department of Housing and Urban Development is authorized to provide financial assistance to Local Public Agencies for undertaking and carrying out urban renewal projects; and

WHEREAS, It is provided in such Act that contracts for financial aid thereunder shall require that the Redevelopment Plan for the respective project area be approved by the governing body of the locality in which the project is situated and that such approval include findings by the governing body that: (1) the financial aid to be provided in the contract is necessary to enable the project to be undertaken in accordance with the Redevelopment Plan; (2) the Redevelopment Plan will afford maximum opportunity consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the Project by private enterprise; (3) the Redevelopment Plan conforms to a general plan for the development of the locality as a whole; and (4) the Redevelopment Plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan; and

WHEREAS, It is desirable and in the public interest that the City of Chicago (herein called the "Local Public Agency") undertake and carry out the Redevelopment of the Project (herein called the "Project") identified as Project Madison-Kedzie, and described as follows:

> Situated in Sections 11 and 14, Township 39 North, Range 13, in the City of Chicago and State of Illinois, and described as follows:
>
> Beginning at the convergence of the center line of N. Kedzie Avenue and the center line of the public alley next North of W. Madison Street; thence South from the center line of the public alley next North of W. Madison Street to the center line of Jackson Boulevard; thence West along the Center line of Jackson Boulevard to the Center line of Spaulding Avenue; thence North along the Center line of Spaulding Avenue to the Center line of Adams Street; thence West along the Center line of Adams Street to the West line extended South of Lot 7 in Resubdivision of Lots 13, 14, 15, 16 in the Subdivision of Lots 2, 3 and 4, Granville-Kimball subdivision in Section 14, Township 39 North, Range 13;
>
> Thence North along said West line of said Lot 7 to the North line of the public alley next North of Adams Street; thence East to the West line extended South of Lot 5 in R. J. Lewis Subdivision of Lots 9, 10 and 11 of the Subdivision of Lots 2, 3 and 4 in Granville-Kimball's Subdivision as aforesaid;
>
> Thence North along said lot line to the Center line of Monroe Street; thence East along the Center line of Monroe Street to the Center line of Spaulding Avenue; thence North along the Center line of Spaulding Avenue to the Center line of the public alley next North of Monroe Street; thence West along said Center line to the Center line of the public alley next West of Homan Avenue; thence South along said line to the Center line of the public alley next North of Monroe Street; thence West along said line to the Center line of Homan Avenue; thence North along said Center line to the South line extended West of Lot 20 of that part of Southeast ¼ of Southeast ¼ of Section 11, Township 39 North, Range 13 lying South of Lake Street; thence East along said lot line for approximately 100 feet thence South for approximately 25 feet to the South line of Lot 21 of Peck's Subdivision as aforesaid; thence East along said lot line and the lot line extended to the Center line of the Public Alley next West of N. Homan Avenue; thence North along the Center line of said Public Alley to the Center line of the public alley next North of W. Madison Street; thence East along the Center line of the public alley next North of West Madison Street to the point of beginning.

WHEREAS, The Local Public Agency has applied for financial assistance under such Act and proposes to enter into a contract or contracts with the Department of Housing and Urban Development for the undertaking of, and for making available financial assistance for the Project; and

WHEREAS, The Local Public Agency has made detailed studies of the location, physical condition of structures, land use, environmental influences, and social, cultural, and economic conditions of the Project area and has determined that the area is a Slum and Blighted Area and that it is detrimental and a menace to the safety, health, and welfare of the inhabitants and users thereof and of the locality at large, because of the dilapidation, obsolescence and overcrowding of structures in the area, and the members of this Governing Body have been fully apprised and are aware of these facts and conditions; and

WHEREAS, There has been prepared and referred to the City Council of the locality (herein called the "Governing Body") for review and approval a Redevelopment Plan for the Project area dated October 1969, and consisting of eight (8) pages and two (2) exhibits; and

WHEREAS, The Project area, which is predominantly residential in character, is to be redeveloped for predominantly residential and institutional uses under the Redevelopment Plan; and

WHEREAS, The Redevelopment Plan has been approved by the Department of Urban Renewal as evidenced by the copy of said Body's duly certified Resolution approving the Redevelopment Plan, which is attached thereto; and

WHEREAS, A general plan has been prepared and is recognized and used as a guide for the general development of the locality as a whole; and

WHEREAS, The Redevelopment Plan for the Project area prescribes certain land uses for the Project area and may require, among other things, changes in zoning, the vacating and removal of streets, alleys, and other public ways, the establishment of new street patterns, the location and relocation of sewer and water mains and other public facilities, and other public action; and

WHEREAS, The Local Public Agency has prepared and submitted a program for the relocation of individuals and families that may be displaced as a result of carrying out the Project in accordance with Redevelopment Plan; and

WHEREAS, There have also been presented to the Governing Body information and data respecting the relocation program which has been prepared by the Local Public Agency as a result of studies, surveys and inspections in the Project area and the assembling and analysis of the data and information obtained from such studies, surveys and inspections; and

WHEREAS, The members of the Governing Body have general knowledge of the conditions prevailing in the Project Area and, of the availability of proper housing in the Locality for the relocation of individuals and families that may be displaced from the Project area and, in the light of such knowledge of local housing conditions, have carefully considered and reviewed such proposals for relocation; and

WHEREAS, It is necessary that the Governing Body take appropriate official action respecting the relocation program and the Redevelopment Plan for the Project, in conformity with the contract for financial assistance between the Local Public Agency and the United States of America, acting by and through the Department of Housing and Urban Development; and

WHEREAS, The Governing Body is cognizant of the conditions that are imposed in the undertaking and carrying out of Urban Renewal Projects with Federal financial assistance under Title I, including those prohibiting discrimination because of race, color, creed, or national origin; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That it has heretofore been found and determined that the Project is a Slum and Blighted Area and qualifies as an eligible Project area under Section 91.101 to 91.136 of Chapter 67-½ of the Ill. Rev. Stats. (1967).

SECTION 2. That the Redevelopment Plan for the Project, having been duly reviewed and considered, is hereby approved, and the City Clerk be, and is hereby directed to file said copy of the Redevelopment Plan with the minutes of this meeting.

SECTION 3. That is is hereby found and determined that the objectives of the Redevelopment Plan cannot be achieved through more extensive rehabilitation of the Project area.

SECTION 4. That it is hereby found and determined that the Redevelopment Plan for the Project area conforms to the general plan of the Locality.

SECTION 5. That it is hereby found and determined that the financial aid to be provided pursuant to the contract for Federal financial assistance pertaining to the Project is necessary to enable the Project to be undertaken in accordance with the Redevelopment Plan for the Project area.

SECTION 6. That the redevelopment of the Redevelopment Area for predominantly residential and institutional uses is necessary for the proper development of the community.

SECTION 7. That it is hereby found and determined that the Redevelopment Plan for the Project Area will afford maximum opportunity, consistent with the sound needs of the Locality as a whole, for the urban renewal of the area by private enterprise.

SECTION 8. That it is hereby found and determined that the Redevelopment Plan for the Project area gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan.

SECTION 9. That it is hereby found and determined that the program for the proper relocation of individuals and families displaced in carrying out the Project in decent, safe, and sanitary dwellings in conformity with acceptable standards is feasible and can be reasonably and timely effected to permit the proper prosecution and completion of the Project; and that such dwellings or dwelling units available or to be made available to such displaced individuals and families are at least equal in number to the number of displaced individuals and families, are not generally less desirable in regard to public utilities and public and commercial facilities than the dwellings of the displaced individuals and families in the Project area, are available at rents or prices within the financial means of the displaced individuals and families, and are reasonably accessible to their places of employment.

SECTION 10. That in order to implement and facilitate the effectuation of the Redevolpment Plan hereby approved, it is found and determined that certain official action must be taken by this Body with reference, among other things, to changes in zoning, the vacating and removal of streets, alleys, and other public ways, the establishment of new street patterns, the location and relocation of sewer and water mains and other public facilities, and other public action, and, accordingly, this Body hereby (a) pledges its cooperation in helping to carry out the Plan; (b) requests the various officials, departments, boards, and agencies of the Locality having administrative responsibilities in the premises likewise to cooperate to such and to exercise their respective functions and powers in a manner consistent with the Redevelopment Plan, and (c) stands ready to consider and take appropriate action upon proposals and measures designated to effectuate the Plan.

SECTION 11. That financial assistance under the provisions of Title I of the Housing Act of 1949, as amended, is necessary to enable the land in the Project area to be renewed in accordance with the Redevelopment Plan for the Project area, and, accordingly, the filing by the Local Public Agency of an application or applications for such financial assistance under Title I is hereby approved.

SECTION 12. This ordinance shall be immediately effective upon its passage.

*Ordered,* That the Commissioner of Public Works is hereby directed to prepare an ordinance for the vacation of all of the east-west 16.3-foot public alley lying east of the east line of the north-south public alley as extended, in the area bounded by W. 42nd Street, W. 42nd Place, S. Western Boulevard and a line approximately 264.7 feet east of said S. Western Boulevard, for Wilson Pharmaceutical and Chemical Corporation; said ordinance to be transmitted to the Committee on Local Industries, Streets and Alleys for consideration and recommendation to the City Council.

On motion of Alderman Swinarski said proposed order was *Passed.*

### Presented by ALDERMAN SHERIDAN (16th Ward):

**Buildings Declared Public Nuisances and Ordered Demolished.**

A proposed ordinance reading as follows:

WHEREAS, The buildings at the following locations, to wit:

Nos. 5900-5908 S. Ashland Avenue, and
No. 1507 W. 59th Street,

are so deteriorated and weakened that each is structurally unsafe and a menace to life and property in its vicinity; therefore

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. The buildings at the following locations, to wit:

Nos. 5900-5908 S. Ashland Avenue, and
No. 1507 W. 59th Street,

are declared public nuisances, and the Commissioner of Buildings is authorized and directed to demolish the same.

SECTION 2. This ordinance shall be effective upon its passage.

On motion of Alderman Sheridan said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—46.

### Presented by ALDERMAN SHANNON (17th Ward) and OTHERS:

**Tribute Paid to George Washington Carver on Observance of 27th Annual Memorial.**

A proposed resolution (presented by Aldermen Shannon, Metcalfe, Holman, Rayner, Cousins, Campbell, Frost and Collins) reading as follows:

WHEREAS, George Washington Carver was born a slave in Diamond Grove, Missouri, about the year 1860—he had no recorded birth date, but died on January 5, 1943—and was named "The Saintly Scientist of Tuskegee Institute" by a very great American woman, Clare Booth Luce, an American diplomat; and

WHEREAS, George Washington Carver, of the Booker T. Washington School, did distinguish himself as an outstanding, great American and as an agricultural chemist by his development of the soy bean, the pecan, the sweet potato and other farm products, increasing the American economy by at least $2,000,000,000 annually; and

WHEREAS, He was the first Black American to be truly recognized as a man, and as one who loved God, his fellow Americans, and his fellowmen, at home and abroad. The world came to his beloved Tuskegee, Alabama, to acclaim him on the 5th day of January in 1943; now, therefore,

*Be It Resolved,* That we, the members of the City Council of the City of Chicago, join with our fellow Chicagoans in the 27th Annual Memorial to George Washington Carver, sponsored by the American Anti-Prejudice Society and the New Friendship Baptist Church on January 4, 1970, at 3:00 P.M., urging every civic and religious organization, and every citizen of every race, creed and color to pay tribute to this very great American, following the example of his faith in his fellowman and his slogan to "let us move forward, together all"; and

*Be It Further Resolved,* That, in commemoration of his memory and that of other pioneers in race relations, we cooperate with the plans to erect an institution of learning in and for the community of Englewood "to light the way for all Americans" and to be known as the Shrine of Fellowship and Brotherhood wherein we might learn to earn in the truest American tradition.

Alderman Shannon moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Shannon said proposed resolution was *Adopted.*

The following is said ordinance as passed:

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That Chapter 17 of the Municipal Code of Chicago entitled Air Pollution Control is hereby repealed in its entirety and there is hereby enacted a new Chapter 17 which shall read as follows:

### Chapter 17

### DEPARTMENT OF ENVIRONMENTAL CONTROL.

17.1 This Chapter shall be known, cited and referred to as "The Chicago Environmental Control Ordinance".

### Article I

### ORGANIZATION

17-1.1 There is hereby established a department which shall be known as the department of environmental control. The department shall embrace a commissioner of environmental control, a deputy commissioner of environmental control, and such other officers and employees as the city council may provide by annual appropriation ordinance.

17-1.2 All officers and employees of the department shall be under the direction and supervision of the commissioner and shall perform such duties as may be required of them by the commissioner or by the provisions of this chapter.

17-1.3 There is hereby created the office of commissioner of environmental control. He shall be appointed by the mayor, by and with the advice and consent of the city council.

17-1.4 The commissioner shall be qualified by education, training or experience to cooperate with scientific and civic organizations interested in environmental control. During his term of office, he shall not engage in any other business or occupation.

17-1.5 There is hereby created the office of deputy commissioner of environmental control. He shall be appointed by the commissioner, according to law, and he shall have authority, under and subject to the order, direction and control of the commissioner to act for the commissioner, and shall perform such duties as may be required of him by the commissioner. He shall act as commissioner of environmental control in the absence of the commissioner from his office and while so acting shall discharge all the duties and possess all the powers imposed upon or vested in the commisioner. He shall, under the direction of the commissioner, have general control of all matters and things pertaining to the work of the department. He shall during his term of office not engage in any other business or occupation.

17-1.6 The deputy commissioner of environmental control shall be a professional engineer qualified by technical training in the fields of sanitary, combustion, civil, mechanical or chemical engineering and shall have at least ten years' experience in these fields.

17-1.7 The commissioner shall also appoint, subject to the regulations of the civil service commission of the city of Chicago, an assistant chief clerk and such clerical and stenographic assistants, and inspectors and engineers, and other employees as needed, as the city council may provide.

17-1.8 Engineers shall be qualified by technical training in the fields of combustion, sanitary, civil, mechanical or chemical engineering.

17-1.9 Inspectors shall be qualified by technical training or experience in the theory and practice of environmental control.

17-1.10 No person employed in the department shall be directly or indirectly interested in the manufacturing, ownership, agency, or sale of fuel, steam boilers, or fuel-burning, combustion or process equipment or devices, or smoke abatement or air pollution control equipment, water pollution control or noise abatement equipment, or the apparatus or devices connected therewith or any extensions thereunto.

17-1.11 The duties of the commissioner shall be:

(1) To supervise the execution of all laws, ordinances, rules and regulations pertaining to environmental control as provided in this chapter;

(2) To institute necessary proceedings to prosecute violations of this chapter and to compel the prevention and abatement of the issuance of smoke or gases, solids or liquids or other matter causing air and water pollution, and nuisances arising therefrom and abatement of noises.

(3) To examine and approve the plans of fuel-burning, combustion or process equipment or devices, furnaces, and smoke prevention and air and water pollution and noise abatement control devices installed, constructed, reconstructed, repaired, or added to in any building, location, or on any premises within the city of Chicago as herein provided to assure that they are in accordance with the requirements of this chapter;

(4) To make inspections of newly installed, constructed, reconstructed, repaired or altered fuel-burning, combustion or process equipment or devices, furnaces, and smoke prevention, air pollution and water pollution control devices, and noise abatement control devices, and to make annual or periodic inspections to determine whether compliance is being had with the provisions of this chapter;

(5) To investigate complaints of violations of this chapter and to make inspections and observations of environmental conditions;

(6) To encourage and conduct studies, investigations and research relating to the physical, chemical, engineering and meteorological aspects of environmental control, as he may deem advisable and necessary;

(7) To develop plans and proposals for joint cooperative investigation and research with public and private agencies and organizations on methods for eliminating or reducing air and water pollution, and for noise abatement;

(8) To enlist voluntary cooperation by the public, municipalities, counties, communities, and civic, technical, scientific and educational societies;

(9) To advise, consult and cooperate with other agencies of the state and federal governments in the furtherance of the purposes of this chapter;

(10) To collect, publish and disseminate appropriate educational literature and other information to the public for the purpose of advising of the necessity, purpose and methods for air and water pollution prevention and securing cooperation in the reduction of emission of smoke, water pollution and for noise abatement;

(11) To make all needful rules and regulations, with the advice and consent of the advisory committee, necessary or proper to accomplish the purposes of this chapter, and to promulgate and publish, with the advice and consent of the advisory committee a code of recommended practices under which this chapter is to be administered, providing with clarity and in detail the necessary information by which the public is to be guided, as may be deemed necessary or advisable, not inconsistent with the provisions of this chapter, with respect to any requirement of such chapter; and, with the advice and consent of the advisory committee to establish standards of quality and to regulate the application of materials and combination of materials not inconsistent with the provisions of this chapter; and to determine, with the advice and consent of the advisory committee, a specified volume ratio, or other suitable index, of various pieces, types or classes of equipment in each industry in accordance with normal good practice within such industry; and with the advice and consent of the advisory committee, to establish standards of limitation on the emission or escape into the atmosphere or water of any acids, fumes, oxides, gases, vapors, odors, dusts, radio-active substances, waste or other solid, liquid or gaseous matter which in specified concentrations in the atmosphere or water may be or become noxious, obnoxious, or toxic. He shall not enact any rule,

regulation or standard until he first holds a public hearing thereon, at which time all interested persons may appear. He shall give not less than ten days notice of the time and place of such hearing by publication in a newspaper of general circulation published within the city, and he shall recommend to the city council in writing any standards on the basis of which the basic limitation of emissions of pollutants or other matter may be determined or adjusted for any industry. If and when the city council, by ordinance, approves such recommended rules, regulations or standards, they may take effect and be incorporated by reference into this chapter; provided, however, the commissioner shall have the power to make reasonable administrative and procedural regulations or rules interpreting or clarifying the requirements which are definitely prescribed in this chapter, without notice or hearing.

The department shall publish in a convenient form, and as a unit, the provisions of this chapter, the code of recommended practices and rules, regulations, and standards which have been adopted. A copy of the same shall be kept always on file in the offices of the department and the city clerk and the municipal reference library;

(12) To prepare and maintain records of all orders issued by the department and the appeal board;

(13) To issue all permits, certificates, notices, or other matters, required under the provisions of this chapter; and to notify all persons concerned of any decision he may render and to provide such persons with an opportunity to be heard as herein set forth;

(14) To investigate and make recommendations from time to time to the city council with respect to needed additions or revisions of this chapter or any other ordinance pertaining to environmental control;

(15) To do any and all other acts which may be necessary for the successful prosecution of the purposes of this chapter, and such other acts as may be specifically enumerated herein as his duties.

17-1.12 The city shall provide such instruments, books, papers and equipment as shall be necessary for the proper performance of the duties of the department, which shall be the property of the city, and which shall be delivered by the commissioner to his successor in office.

17-1.13 There is hereby established an advisory committee to consult with, assist and advise the Commissioner of the Department of Environmental Control on all matters relating to the jurisdiction and responsibility of this department. The advisory committee shall consist of seven members—one member shall be the Commissioner of the Department of Environmental Control—one member shall be the Commissioner of the Department of Water and Sewers—one member shall be the Commissioner of the Department of Health—one member shall be the Commissioner of the Department of Buildings and three members shall be appointed by the Mayor from the community at large. All shall be residents of the City of Chicago.

The Committee shall:

(1) Aid and advise the commissioner with respect to obtaining the active support and cooperation of industry, commercial enterprises, municipal and governmental agencies and other organizations interested in or affected by the provisions of this chapter;

(2) Advise and consult with the commissioner with respect to amendments to this chapter considered appropriate by reason of research conducted in accordance with section 17-1.14 hereof, or otherwise;

(3) Advise and consult with the commissioner with respect to the membership of the advisory committee;

(4) Attend meetings called by the chairman from time to time;

(5) Institute, support and encourage such programs for research and education in the field, of environmental control and raise and administer funds contributed therefor; and

(6) With the commissioner, appoint appropriate sub-committees to carry out research programs as provided in section 17-1.14 hereof.

17-1.14 The policy of the city of Chicago is hereby declared to be that concerted effort shall henceforth be made by the commissioner and the committee, working in conjunction with representatives of all affected groups and industries, constantly to maintain and improve accepted environmental control practices.

To effectuate the foregoing policy, the commissioner and the committee shall appoint sub-committees representative of affected groups of industries in the city to conduct continuing programs of research on all phases of environmental control, including but not limited to, the following:

(1) Emissions from metallurgical processes;
(2) Emissions from by-product coke plants;
(3) Emissions from locomotives and steamships;
(4) Wind-borne dust and particulate matter;
(5) Exhaust emissions from motor vehicles;
(6) Design and operation of and emissions from incinerators;
(7) Emissions of noxious gases, fumes and odors;
(8) Emissions of substances which reduce the purity of water;
(9) Emissions of noise.

Such sub-committees shall make annual reports of their findings and recommendations to the commissioner and the committee.

## Article II

### AIR POLLUTION CONTROL

17-2.1 For the purpose of this Article, whenever any of the following words, terms or definitions are used herein, they shall have the meaning ascribed to them in this section:

*Advisory Board:* The technical advisory board established pursuant to section 17-2.54.

*Air Furnace:* A horizontal furnace, externally fired with a natural draught stack, which is used to melt or treat ferrous materials for production of castings.

*Air Jets:* Any apparatus operated by steam or compressed air or a mechanically-driven blower for the purpose of causing high velocity air to be introduced into a furnace and to cause a more complete mixture of oxygen with the gases of combustion above the fuel bed.

*Appeal Board:* The appeal board established pursuant to section 17-2.55.

*Ashes:* Shall include cinders, fly ash or any other solid material resulting from combustion, and may include unburned combustibles.

*ASME:* The American Society of Mechanical Engineers.

*ASTM:* The American Society for Testing Materials.

*Atmosphere:* See definition of "Open Air".

*Atmospheric Pollution:* The discharging from stacks, chimneys, exhausts, vents, ducts, openings, buildings, structures, premises, open fires, portable boilers, vehicles, processes, or any other source, of any smoke, soot, fly ash, dust, cinders, dirt, noxious or obnoxious acids, fumes, oxides, gases, vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter, or any other materials in such place, manner or concentration as to cause injury, detriment, nuisance, or annoyance to the public, or to endanger the health, comfort, repose, safety or welfare of the public, or in such a manner as to cause or have a natural tendency to cause injury or damage to business or property.

*Authorized Representative:* Any individual, firm or corporation designated by a "person", as defined in this section, who shall be given authority to act for such "person" in all matters pertaining to the department of environmental control. Such authorization must be transmitted to such department in writing.

*Automobile and/or Truck Sales Lot:* Any land area used or intended to be used for the display or sale of passenger automobiles or commercial vehicles.

*Baffling:* Any row, rows, plane, planes of refractory or other material that causes the gases in a steam boiler or other vessel, duct or device to assume a definite and predetermined path of travel before reaching the chimney or smoke stack.

*Bessemer Converters and Pneumatic Steel Making Processes:* Processes by which steel is made directly from molten iron or scrap metal by forcing gases through or over the molten metal to oxidize and carry off the carbon and other impurities in the metal.

*Blast Furnace and Auxiliary Equipment:* The furnace and equipment used in connection with the smelting process of reducing metallic ores to molten metal in order to remove, primarily, the oxygen from the ore and producing gas as a by-product. The furnace and equipment consists of, but is not limited to, the furnace proper, charging equipment, stoves, bleeders, gas dust catcher, gas cleaning devices and other auxiliaries pertinent to the process.

*Board:* Technical advisory board or appeal board of environmental control, depending on the context, as hereinafter provided.

*Breeching:* Any conduit for the transport of products of combustion or processes to the atmosphere or to any intermediate device before being discharged into the atmosphere. It does not include the chimney or stack.

*Bridgewall:* Any wall at the rear of the grate or stoker that acts as a deflector or radiant heat reflector for the furnace gases and as a stop to the fuel bed or a rear wall of the ash pit.

*Building Fires:* The term, "a new fire being built," shall be held to mean the period during which a fresh fire is being started and does not mean the process of replenishing an existing fuel bed with aditional fuel.

*Boiler Burning Fuel in Suspension:* A "boiler burning fuel in suspension" is any fuel-burning device in which fuel is conditioned or pulverized previous to admitting the fuel into the furnace for combustion. The combustion process is completed with the fuel in suspension.

*By-Product Coke Plant:* A plant used in connection with the distillation process to produce coke in which the volatile matter in coal is expelled, collected, and recovered. Such plant consists of, but is not limited to, coal and coke handling equipment, by-product chemical plant and other equipment associated with and attendant to the coking chambers or ovens making up a single battery operated and controlled as a unit.

*Chimney or Stack:* Any conduit, duct, vent, flue, or opening of any kind whatsoever arranged to conduct any products of combustion to the atmosphere. It does not include breeching as defined herein.

*Cinders:* Particles not ordinarily considered as fly ash or dust because of their greater size, consisting essentially of fused ash and unburned matter.

*Cleaning Fires:* The act of removing ashes from the fuel bed or furnace.

*Combustible Refuse:* Any combustible waste material containing carbon in a free or combined state other than liquids or gases.

*Combustion Equipment or Device:* See "Fuel-burning, combustion or process equipment or device".

*Commissioner:* Commissioner of environmental control of the city of Chicago.

*Committee:* The environmental control advisory committee established pursuant to section 17-1.13.

*Condensed Fumes:* Fumes which have cooled and returned to a liquid or solid.

*Construction:* The installation or erection of any fuel-burning combustion or process equipment or device.

*Cupola:* A vertical furnace in which alternate layers of basic material and coke are charged to produce molten ferrous and non-ferrous metal for the production of castings. Auxiliary equipment consists of, but is not limited to, blowers, charging mechanism, collection equipment, heat exchangers and slagging equipment.

*Damper, Automatic or Manual:* Any device for regulating the volumetric flow of gas or air.

*Department:* Department of environmental control of the city of Chicago.

*Domestic Heating Plant:* A plant generating heat for a single family residence, or for two residences either in duplex or double house form, or for multiple-dwelling units in which such plant serves fewer than three apartments. Under this designation are also hot water heaters, stoves, and space heaters used in connection with the foregoing establishments, or to heat shacks and other temporary buildings, such as used by the railroad and construction industries; provided, however, that like equipment used in multiple-dwelling units other than herein described, or used in permanent buildings of commercial or industrial establishments are not to be construed to be included under this designation.

*Domestic Refuse-Burning Equipment:* Any refuse-burning equipment or incinerator used for a single family residence, or for two residences either in duplex or double house form, or for multiple-dwelling units in which such equipment or incinerator serves fewer than three apartments.

*Down-Draft Furnace:* In this furnace there are two separate grates, one above the other; the top grate is water tubes, the bottom grate consists of common grate bars and is fed by half consumed fuel falling from the upper grate. The air for combustion enters the upper fire door and passes through the bed of green fuel on the upper grate and then over the incandescent fuel on the lower grate.

*Dryer:* A device for drying by heat, forced ventilation or both; an apparatus such as a furnace, oven, or revolving kiln for expelling moisture or volatiles by evaporation or volatization.

*Dust:* Particulate matter released into the air by natural forces, or by any fuel burning, combustion or process equipment or device, or by construction work, or by mechanical or industrial processes, such as crushing, grinding, milling, drilling, demolishing, shoveling, bagging, sweeping, covering, conveying, transferring, transporting, and the like.

*Dust-Separating Equipment:* Any device for separating dust from the air or gas medium in which it is carried.

*Electric Furnace:* A furnace in which the melting and refining of metals is accomplished by means of electrical energy.

*Extension Furnace (Dutch Oven):* Any masonry structure or combination of masonry and metal built on the front of a boiler or other combustion device for the purpose of obtaining additional furnace volume.

*Fire Tubes:* Those tubes surrounded by a cooling medium through which the hot gases of combustion pass.

*Fly Ash:* Particulate matter capable of being gas-borne or air-borne and consisting essentially of fused ash and burned or unburned material.

*Foundries—Ferrous and Non-Ferrous:* The processes, devices, and equipment used for the purpose of production of castings, other than die-castings, from basic material. Such processes, devices, and equipment consists of, but is not limited to, charging equipment, furnaces, collection equipment and cleaning operations. Basic materials used include, but are not limited to, iron, brass, aluminum, and magnesium.

*Fuel:* Any form of combustible matter—solid, liquid, vapor, or gas.

*Fuel Agreement:* An agreement by any person with the department to use only low volatile solid fuels or other approved fuels.

*Fuel-Burning, Combustion or Process Equipment or Device:* Any furnace, incinerator, compactor, fuel-burning equipment, refuse-burning equipment, boiler, apparatus, device, mechanism, fly ash collector, electrostatic precipitator, smoke arresting or prevention equipment, stack, chimney, breeching or structure, used for the burning of fuel or other combustible material, or for the emission of products of combustion, or used in connection with any process which generates heat and may emit products of combustion; and shall include process furnaces, such as heat treating furnaces, by-product coke plants, core-baking ovens, mixing kettles, cupolas, blast furnaces, open hearth furnaces, heating and reheating furnaces, puddling furnaces, sintering plants, bessemer converters, electric steel furnaces, ferrous foundries, non-ferrous foundries, kilns, stills, dryers, roasters, and equipment used in connection therewith, and all other methods or forms of manufacturing, chemical, metallurgical or mechanical processing which may emit smoke, or particulate, liquid, gaseous or other matter.

*Fuel-Burning Equipment, Hand-Fired Type:* Any fuel-burning, combustion or process equipment or device, other than process or process equipment or down-draft furnaces, in which fresh fuel is manually introduced directly into the furnace.

*Fuel-Burning Equipment, Mechanical:* Any fuel-burning, combustion or process equipment or device incorporating a device by means of which fuel is mechanically introduced from outside the furnace into the zone of combustion.

*Fuel Dealer:* Any person who sells or delivers solid fuel or fuel oil directly to the ultimate consumer, without regard to price, quantity, or frequency of delivery.

*Fuel Oil:* Oil commonly used as a fuel.

*Fumes:* Gases, vapors or particulate matter that are of such character as to cause atmospheric pollution.

*Furnace:* An enclosed space provided for the ignition or combustion of fuel.

*Furnace Volume:* The volume of the chamber or enclosure in which the combustion process takes place.

*Heating and Reheating Furnace:* A furnace in which metal is heated to permit shaping or forming, or to achieve specific physical properties.

*Heating of Low Pressure Boilers:* All boilers designed for operating at a steam pressure of 15 pounds per square inch gauge or less.

*Heating Plant, Other Than Domestic:* Fuel-burning equipment used for the purpose of space heating of multiple-dwelling units containing more than two apartments, hotel, rooming house, boarding house, garage, school, hospital, church, office building, store, institution, and for all commercial, industrial or other establishments.

*Heating Surface:* Any surface having steam, water or other fluid on one side and hot gases on the other side, as found in a boiler or a warm air heating furnace, not excepting any surface covered by arches or refractory.

*Incinerator:* Any device intended for or used for the destruction of garbage or other combustible refuse or waste materials by burning.

*Internal Combustion Engine:* An engine in which combustion of gaseous, liquid, or pulverized solid fuel takes place within one or more cylinders.

*Indirect Heat Exchanger:* Equipment in which fuel is burned for the primary purpose of producing steam, hot water, or hot air, or other indirect heating of liquids, gases or solids, in which the products of combustion do not come into direct contact with process materials. Fuels may include, but are not limited to, coal, coke, lignite, coke breeze, gas, fuel oil and wood, but do not include refuse. When any products or by-products of a manufacturing process are burned for the same purpose, or in conjunction with any fuel, the same maximum limitation shall be governed by the most stringent limitation when refuse burning and indirect heat exchanger emissions are both considered.

*Kiln:* A furnace or a heated chamber used for the purpose of hardening, burning or drying in the manufacture of such products as: clay, brick, cement, pottery, ceramics, limestone, etc.

*Low Volatile Solid Fuel:* For the purpose of this chapter, a solid fuel, the volatile content of which is 23% or less on an ash free and moisture free basis or a solid fuel approved by the commissioner pursuant to section 17-2.20 hereof.

*Mechanical Combustion Equipment or Mechanically Fired Apparatus:* Fuel-burning, combustion or process equipment or device in which the fresh fuel or combustible material is mechanically introduced from outside the furnace into the zone of combustion, the same being actuated by controls; provided, however, that where the commissioner finds as a fact and so certifies that any surface-burning type (hand-fired) equipment is so designed as automatically to burn the fuel or combustible materials in a manner not to violate the provisions of this chapter, such equipment will be considered as mechanical combustion equipment or mechanically fired apparatus within the meaning of this chapter.

*Noxious Acids:* Anhydrous or hydrous acid forms in concentration high enough to be toxic, or to cause atmospheric pollution, or to constitute a nuisance as defined in this chapter.

*Oil Burners:* Any device for the introduction of vaporized or atomized fuel oil into a furnace.

*Open Air:* All spaces outside of buildings, stacks or exterior ducts.

*Open Fire:* Any fire from which the products of combustion are emitted directly into the open air without passing through a stack or chimney.

*Open Hearth Furnace:* A furnace in which the melting and refining of metal is accomplished by the application of heat to a saucer type or shallow hearth in an enclosed chamber. Such furnace consists of, but is not limited to, the furnace proper, checkers, flues and stack and may include a waste heat boiler and other auxiliaries pertinent to the process.

*Parking Lot:* Any land area used or intended to be used for the storage of passenger automobiles or commercial vehicles.

*Particulate Matter:* Material, other than water, which is suspended in or discharged into the atmosphere in a finely divided form as a liquid or solid.

*Person:* Any individual natural person, trustee, court appointed representative, syndicate, association, partnership, firm, club, company, corporation, business trust, institution, agency, government corporation, municipal corporation, city, county, municipality, district or other political subdivision, department, bureau, agency or instrumentality of federal, state or local government, contractor, supplier, vendor, installer, operator, user or owner, or any officers, agents, employees, factors, or any kind of representatives of any thereof, in any capacity, acting either for himself, or for any other person, under either personal appointment or pursuant to law, or other entity recognized by law as the subject of rights and duties. The masculine, feminine, singular or plural is included in any circumstances.

*Portable Boiler:* A boiler used separately or in connection with a power shovel, a road roller, a hoist, a derrick, or a pile driver, steam locomotives, diesel locomotives, steamboats, tugboats, tar kettles, asphalt kettles, and all other portable equipment capable of emitting smoke, particulate or other matter.

*Power or High Pressure Boilers:* All boilers designed for operating at a steam pressure greater than 15 pounds per square inch gauge.

*Premises:* Any real estate or real property.

*Processes or Process Equipment:* Any action operation or treatment embracing chemical, industrial or manufacturing factors, such as heat treating furnaces, by-product coke plants, core-baking ovens, mixing kettles, cupolas, blast furnaces, open hearth furnaces, heating and reheating furnaces, puddling furnaces, sintering plants, bessemer converters, electric steel furnaces, ferrous and non-ferrous foundries, kilns, stills, dryers, roasters, and equipment used in connection therewith, and all other methods or forms of manufacturing or processing which may emit smoke, particulate matter or other matter.

*Reconstruction:* Any material change or alteration of any existing fuel-burning, combustion or process equipment or device form that physical or operating condition for which approval was last obtained; or the addition, removal or replacement of any appurtenances or devices which materially affect the method or efficiency of preventing the discharge of pollutants into the atmosphere.

*Ringelmann Chart:* The chart published and described in the U.S. Bureau of Mines Information Circular 8333, and on which are illustrated graduated shades of grey to black for use in estimating the light obscuring capacity of smoke.

*Roaster:* A device used to effect the expelling of volatile matter or to effect oxidation as required in the manufacturing of such products as prepared meats, grain, coffee beans, nuts, etc.

*Sintering Plant:* The plant used in connection with the process of fusing fine particles of metallic ores causing agglomeration of such particles. Such plant consists of, but is not limited to, sintering machines, handling facilities, wind boxes, stacks and other auxiliaries pertinent to the process.

*Smoke:* Small gas-borne particles, other than water that form a visible plume in the air from a source of atmospheric pollution.

*Solid Fuel:* Any material in its solid state capable of being consumed by a combustion process.

*Soot:* Agglomerated particles consisting essentially of carbonaceous material.

*Stack or Chimney:* Any conduit, duct, vent, flue, or opening of any kind whatsoever arranged to conduct any products of combustion to the atmosphere. It does not include breeching as defined herein.

*Stack Spray:* A nozzle or series of nozzles installed in a stack above the breeching used to inject wetting agents at high pressure to suppress the discharge of particulate matter from the stack.

*Standard Conditions:* A gas temperature of 60 degrees Fahrenheit and a gas pressure of 30 inches mercury.

*Standard Cubic Foot (scf):* The standard cubic foot is a measure of the volume of gas under standard conditions.

*Stokers:* Any mechanical device that feeds solid fuel uniformly onto a grate or hearth within a furnace.

*Surface Burning Type (Hand-Fired):* See definition of "Fuel-burning equipment, hand-fired type".

*Unit operation:* Methods where raw materials undergo physical change; methods by which raw materials may be altered into different states, such as vapor, liquid or solid without changing into a new substance with different properties and composition.

*Unit Process:* Reactions where raw materials undergo chemical change; where one or more raw materials are combined and completely changed into a new substance with different properties and composition.

*Vehicle:* A self-propelled mechanism, such as a truck, machine, tractor, roller, derrick, crane, trencher, portable hoisting engine or automobile; or any conveyance used for carrying persons or things, trailer, semi-trailer, boat, tug, or other apparatus which is not ordinarily permanently installed in one location but is used in various places over a wide area.

*Volatile Matter:* The gaseous constituents of solid fuels are determined by the Standard ASTM Procedure amended or revised to date.

17-2.2 It shall be unlawful, on and after June 29, 1970, to burn refuse, garbage or other debris in any boiler or any unit which has not been specifically designed for that purpose and for which an effective Certificate of Operation has not been issued.

17-2.3 It shall be unlawful within the City of Chicago and within one mile of the corporate limits for any person, owner, agent, operator, firm or corporation to permit to cause, suffer or allow the emission of any smoke from any source whatever of a density, shade or opacity equal to or greater than that described as #2 on the Ringelmann chart as published by the United States Bureau of Mines provided that the following exceptions to the provisions of this section shall be permitted for fuel burning, combustion or process equipment.

(1) For a period or periods aggregating 4 minutes in any 30 minutes of a density, shade or opacity equal to but not greater than that described as #2 on the Ringelmann Chart.

(2) For a period or periods aggregating 4 minutes in any 60 minutes of a density, shade or opacity equal to but not greater than that described as #2 on the Ringelmann Chart when building a new fire.

17-2.4 Subject to the provisions of Section 17-2.5, it shall be unlawful within the city of Chicago for any person owning or in charge of any fuel-burning, combustion or process equipment or device, or any portable boiler, to cause, suffer or allow the emission from any such source of any particulate matter except in conformity with the limits set forth as follows:

(1) The limitation for all industrial particulate emissions shall be 0.10 grains per standard cubic foot, with the exception of indirect heat exchanger emissions and incinerator emissions.

(2) The emissions from indirect heat exchangers shall be limited as follows:

For equipment over 288,000 and under 10 million BTU's per hour input, the dust emissions shall be limited to 0.5 pounds per million BTU's input. If the capacity rating of the fuel burning equipment is more than 10 million BTU's per hour input, the amounts of particulate matter which may be emitted for each million BTU input shall decrease as the capacity rating of the fuel burning equipment increases as follows:

(a) No more than .50 pounds for each million BTU's input from equipment having a capacity rating of 10 million;

(b) No more than .39 pounds for each million BTU's input from equipment having a capacity rating of 50 million;

(c) No more than .34 pounds for each million BTU's input from equipment having a capacity rating of 100 million;

(d) No more than .29 pounds for each million BTU's input from equipment having a capacity rating of 1,000 million; and

(e) No more than .18 pounds for each million BTU's input from equipment having a capacity rating of 5,000 million.

The amount of particulate matter which may be emitted from fuel furning equipment having an intermediate capacity rating shall be determined by linear interpolation when plotted on Log-Log Graph Paper. If two or more fuel burning units are connected to a single flue, the total capacity rating of all fuel burning units connected to the flue shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. If a single fuel burning unit is manifolded to two or more flues, the capacity rating of the single fuel burning unit shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. The foregoing requirements shall be measured by the methods of the American Society of Mechanical Engineers (ASME), Power Test Code 27-1957 (PTC27-1957), Determining Dust Concentration in a Gas Stream, which is hereby made a part of this chapter by reference, or in accordance with modified procedures mutually agreed upon by the Commissioner and such person. A copy of the said Code shall be kept on file in the office of the Department subject to examination by interested persons.

(3) A specified volume ratio, or other suitable index, or particulate bearing gas shall be established in accordance with section 17-1.11, subparagraph (11) for various pieces, types or classes of fuel-burning, combustion or process equipment or devices, which constitute potential sources of emission of particulate matter; provided, however, that with respect to coal burning combustion equipment the basic limitations set forth in subparagraph (1) of this section shall be adjusted to a gas volume based upon 50 per cent excess air.

(4) All existing combustion equipment shall meet the limitations of this section on and after June 29, 1970 and all new equipment shall meet the limitations upon installation.

(5) All existing process and control equipment shall meet the limitations set forth in subparagraph (1) of this section on and after June 29, 1969, and all new equipment shall meet the limitations upon installation.

(6) Emissions of particulate matter from all fuel burning combustion or process equipment or devices shall not exceed emissions which would result from operations in accordance with limitations set forth in this chapter.

(7) The basic limitation on the average emission into the atmosphere of particulate matter from an incinerator shall be 0.20 grains per cubic foot of gas at standard conditions. These calculations are to be made at 50 per cent excess air and are to be the result of tests conducted in the field under field conditions, costs of which shall be assumed by the owners if emissions exceed allowable limits. All existing incinerators shall meet the limitations set forth in this paragraph on and after June 29, 1971, and all new equipment shall meet the limitations upon installation.

(8) The emissions, other than water vapor, from any sources that are liable to generate or evolve into particulate form through phase change or other transformation shall be deemed to be particulate matter at the emitted point.

17-2.5 The following provisions shall be applicable to the processes and equipment hereinafter set forth in lieu of the limits upon the emission of smoke and particulate matter contained in sections 17-2.3 and 17-2.4 hereof:

(1) Railroad Locomotives—Diesel

(a) Immediately after starting the engine of a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than four minutes during the first fifteen minute period.

(b) Immediately after starting the steam generator on a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than two minutes but not thereafter.

(c) After a diesel yard or switching locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen minute period.

(d) After a diesel road or transfer locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen minute period.

(2) Steamships and Other Vessels

(a) When building, banking or cleaning fires or when maneuvering or ballasting, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than six minutes in any sixty minute period.

(b) When building original fires at the start of seasonal operations, or under emergency conditions when it is necessary to operate a boat with a fluctuating load upon the boilers to prevent danger to life or property, the foregoing restrictions on emissions shall not apply.

(c) When a steamship or other vessel is in service, except as provided to cover particular conditions stated in this section, the provisions of section 17-2.3 hereof shall apply.

(3) Sulfur Dioxide Limitation

(a) No person shall cause or permit the use, or, if intended for use in the City of Chicago, the purchase, sale, offer for sale, storage or transportation, of fuel which, as determined by the methods of the American Society for Testing and Materials, contains more than the following percentages of sulfur by weight:

For a period of two years, on and after June 23, 1970 fuel: 2.5 per cent

For a period of eighteen months, on and after June 23, 1972: fuel: 2.0 per cent

Thereafter: fuel: 1.5 per cent

(b) Upon the application of any person engaged in the operation of fuel burning equipment, the commissioner with the approval of the appeal board may issue a certificate of operation in accordance with Section 17-2.41 of this chapter in those cases wherein the applicant shall establish that the fuel burning equipment is operated in such a manner or is equipped with such control apparatus as to continually prevent the emission of any sulfur compound or compounds in amounts greater than those that would be emitted from the burning (in the same fuel burning equipment without such control apparatus) of fuel containing any amount of sulfur by weight not in excess of the maximum amount permitted at the applicable time by this section.

(c) The provisions of subparagraph (3) (a) of this section shall not apply to acts performed with respect to fuel owned or under contract for purchase by a purchaser who uses or intends to use such fuel in any fuel burning equipment for which a certificate of operation has been issued under subparagraph (3) (b), or where a variance has been granted pursuant to the provisions of Section 17-2.56(3) of this chapter.

(d) When periods of stagnation, for 24 hours or greater, occur, the commissioner shall have the power to implement a Pollution Incident Control Plan, whereby plants that have an annual fuel consumption of 60,000 tons of coal or 14,500,000 gallons of oil are required either to switch to a low sulfur fuel (less than 1.5% sulfur by weight) or curtail emission of sulfur dioxide pollution during this period until the commissioner determines that the stagnation period no longer exists.

All persons responsible for the operation within the city of any of the processes or equipment above named shall undertake or participate in a program of research to determine feasible methods of measuring and controlling emissions therefrom in accordance with Section 17-1.14 hereof.

17-2.6 It shall be unlawful within the City of Chicago and within one mile of the corporate limits for any person, owner, agent, operator, firm or corporation to permit to cause, suffer or allow the discharge, emission or release into the atmosphere from any source whatsoever of such quantities of soot, fly ash, dust, cinders, dirt, oxides, gases, vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter or any other materials in such place, manner or concentration as to constitute atmospheric pollution.

17-2.7 Any emission of smoke, particulate matter or other matter from any single such source in excess of the limitations established in or pursuant to Sections 17-2.3, 17-2.4 and 17-2.5 shall be deemed and is hereby declared to be a public nuisance, and may be summarily abated by the commissioner. Such abatement may be in addition to the administrative proceedings, fines and penalties herein provided.

The commissioner is further empowered to institute legal proceedings for the abatement or prosecution of emissions of smoke, particulate or other matter which causes injury, detriment, nuisance or annoyance to the public or endangers the health, comfort, safety or welfare or the public, or causes or has a natural tendency to cause injury or damage to business or property. Such abatement may be in addition to the administrative proceedings, fines and penalties herein provided.

17-2.8 Nothing in this chapter shall be construed to impair any cause of action, or legal remedy therefor, of any person or the public for injury or damage arising from the discharge, emission or release into the atmosphere from any source whatsoever of such quantities of smoke, soot, fly ash, dust, cinders, dirt, noxious or obnoxious acids, fumes, oxides, gases, vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter or any other materials in such place, manner or concentration as to constitute atmospheric pollution or a common law nuisance.

17-2.9 Failure of any person as owner or agent, operator, member of any operating crew, engineman, fireman, janitor, or in any other capacity, to comply with any provision of this chapter shall be deemed a violation of this chapter and shall be subject to the fines and penalties as hereinafter provided. It shall be the duty of owners or agents of any fuel-burning, combustion or process equipment or device to instruct, or cause to be instructed, the operators, operating crews, enginemen, firemen, hostlers, janitors, or any other person, operating such equipment or device about the proper operation of such combustion equipment or device.

17-2.10 It shall be unlawful to burn paper, wood, garbage, leaves, building construction, demolition debris or any other combustible material in open fires or in metal containers; provided, however, that the effective date for the prohibition of open burning of leaves shall be on and after June 29, 1970.

17-2.11 It shall be unlawful for any person to build, erect, install or use any article, machine, equipment or other contrivance that dilutes, reduces or conceals an emission, without reducing the quantity of pollutants released into the atmosphere and which, in its unaltered condition, would constitute a violation of Sections 17-2.3, 17-2.4 or 17-2.6 of this chapter.

17-2.12 No person shall operate, or cause to be operated, upon any street, highway, public place, stream or waterway, or private premises within the City of Chicago, any internal combustion engines of any motor vehicle, boat, tug or other vehicle, while stationary or moving, which emits from any source any particulate material, smoke, obnoxious or noxious gases, fumes or vapors or any other atmospheric pollutant, in violation of Sections 17-2.3, 17-2.4 or 17-2.6 of this chapter; provided, the foregoing shall not apply to the operation of aircraft at municipal airports.

17-2.13 It shall be unlawful for any person to cause or permit the handling, loading, unloading, reloading, storing, transferring, placing, depositing, throwing, discarding, or scattering of any ashes, fly ash, cinders, slag or dust collected from any combustion process, any dust, dirt, chaff, wastepaper, trash, rubbish, waste, or refuse matter of any kind, or any other substance or material whatever, which is likely to be scattered by the wind or is susceptible to being wind-borne, without taking reasonable precautions or measures so as to minimize atmospheric pollution.

17-2.14 Subject to the provision of Section 17-2.17 hereof, it shall be unlawful for any person to operate or maintain, or cause to be operated or maintained, any building, structure, or premises, open area, right of way, storage pile of materials, yard, vessel, or vehicle, or construction, alteration, building, demolition or wrecking operation, or any other enterprise, which has or involves any matter, material, or substance likely to be scattered by the wind, or susceptible to being wind-borne, without taking reasonable precautions or measures so as to minimize atmospheric pollution.

17-2.15 The commissioner shall have jurisdiction and authority over the sources of any matter, material, or substance likely to be scattered by the wind, or susceptible to becoming airborne or a contributing factor to atmospheric pollution, and shall have authority to abate wind-borne nuisances and to instigate prosecutions for violations of any provision of this chapter or any other chapter of this code relating to the eradication or control of matter susceptible to being wind-borne. For the purpose of minimizing atmospheric pollution, he shall, with the advice and consent of the advisory board, prescribe reasonable, specific operating and maintenance practices for buildings, structures, premises, open areas, automobiles, and/or truck parking and sales lots, private roadways, rights of way, storage piles of materials, yards, vessels, vehicles, construction, alteration, building, demolition or wrecking operations, and any other enterprise, which has or involves any matter, material, or substance susceptible to being wind-borne and for the handling, transportation, disposition, or other operation, with respect to any material subject to being wind-borne, which practices shall be embodied in the code of recommended practices.

17-2.16 The commissioner is hereby authorized to issue notices of violation for the purpose of giving notice to persons allegedly violating any of the provisions of this chapter or other ordinances relating to atmospheric pollution. If at the time of any original inspection, or annual inspection, or any other inspection, it is found that any fuel-burning, combustion or process equipment or device, or premises, is being operated or managed or is in such a condition or so installed that smoke, particulate, or other matter is being emited or may be emitted therefrom in violation of any emission limitation or other requirement or jurisdiction provided in this chapter, the commissioner may give notice in writing to any or all persons owning, operating, or in charge of such equipment or device, or premises, of the defective equipment or device, condition or operation, or violation. Such notice may be given by any inspector or other properly trained authorized agent of said commissioner, by delivering such notice to any person owning, operating, or in charge of the equipment or device, or premises, involved, or by leaving a copy thereof with a person in charge of such equipment, device, or premises, or by mailing a copy directed to the last known address of the person to be notified. Such notice may direct the alleged violator to appear and to present such notice at a designated office of the department in the City Hall or the Central Office Building at the date and hour specified thereon for the purpose of conferring with respect to the alleged violation and the corrective measures, if any, which should be taken. Such notice may contain a demand upon such person or persons to discontinue use of such equipment or device, or premises, until the correction thereof has been approved by the commissioner. Such notice shall allow up to ten days' time to correct the equipment or device, or condition or operation, and report compliance to the commissioner.

Failure to comply with such notice within ten days from its date, or within any extension of time granted under section 17-2.53 hereof, shall be a violation of this section and, upon such failure, the commissioner may revoke any existing certificate of operation for such equipment or device.

17-2.17 No person shall maintain or conduct, or cause to be maintained or conducted, any parking lot or automobile or truck sales lot, or use any real property for a private roadway unless such real property is covered or treated with a surface or substance or otherwise maintained in such manner as to minimize atmospheric pollution.

17-2.18 It shall be unlawful for any person to operate any surface burning type (hand-fired) of combustion equipment with any solid fuel other than a low volatile solid fuel unless:

(1) The commissioner has issued a certificate of operation therefor in accordance with section 17-2.35 or section 17-2.40, authorizing the use of other than low volatile solid fuel with such equipment;

(2) The commissioner has approved the equipment or types of equipment in accordance with section 17-2.24;

(3) The commissioner has issued an allowable fuel certificate for such equipment in accordance with sections 17-2.21, 17-2.22 and 17-2.23; or

(4) The appeal board has granted an individual variance for such equipment in accordance with section 17-2.54.

The foregoing restrictions shall not apply with respect to the burning of combustible refuse in such equipment in accordance with rules and regulations issued by the commissioner.

17-2.19 A solid fuel containing volatile matter in excess of 23% on an ash free basis shall be considered a low volatile solid fuel provided it meets the same standards in regard to smoke production as a low volatile solid fuel, and subject to the following conditions in order to ascertain whether or not such standards are met:

Adequate supplies of such solid fuel shall be made available to the commissioner to conduct such reasonable tests as he shall deem necessary to determine that such fuel meets the standards hereinfore established. The reasonable expense of any such tests shall be borne by the person seeking the approval of such solid fuel.

The commissioner shall maintain and, upon request, furnish a list of brands or trade names of solid fuels which have been tested for conformity with the provisions of this chapter and which as a result of such tests have been approved.

17-2.20 Solid fuel, other than low volatile solid fuel, may be used or consumed only in mechanical combustion equipment or mechanically fired apparatus; except that after suitable inspections and tests have proven to the commissioner that any combination of surface burning type (hand-fired) of equipment and appurtenances and fuel can comply with the emission limitations established by or under this chapter, the commissioner shall approve the use of such combination of equipment and fuel.

17-2.21 The commissioner is hereby authorized to isue allowable fuel certificates for the use of any solid fuel other than a low volatile solid fuel in surface burning types (hand-fired) of equipment when approved in accordance with section 17-2.20, 17-2.23 or 17-2.24; provided, that with respect to equipment subject to annual inspection under this chapter, the commissioner may issue a certificate of operation in lieu of an allowable fuel certificate. Any such certificate issued by the commissioner shall be permanently attached and affixed to the fuel-burning equipment for which it is issued, in a manner so that it may be readily seen on inspection and, when so attached, shall constitute notice to all persons of the matter contained in such certification.

17-2.22 Each allowable fuel certificate issued by the commissioner shall identify the fuel-burning equipment, its major components and the owner or person responsible therefor and such other details as the commissioner may specify, and shall include the certification of the commissioner that such equipment may be operated with any solid fuel of not more than the volatile content specified therein by the commissioner.

17-2.23 The commissioner shall not issue installation permits or certificate of operation or allowable fuel certificates for any surface-burning type (hand-fired) of equipment for which installation permits or certificates of operation or allowable fuel certificates are required, unless the fuel to be used in such equipment shall be a low volatile solid fuel, or unless, after appropriate tests, it has been established to the satisfaction of the commissioner that such equipment is capable of burning the fuel to be used therewith without exceeding emission limitations established by or under this chapter.

17-2.24 For the purpose of determining that surface-burning types (hand-fired) of equipment are suitable for burning solid fuel other than low volatile solid fuel so as not to violate any provisions of this chapter:

(1) The commissioner shall have the authority to test each new type (new type being that which changes the manner of combustion) of surface burning type (hand-fired) of equipment offered for sale or use in the city of Chicago. Where he finds as a fact and so certifies that such equipment in which the fresh fuel is fired by hand is so designed that it will burn any solid fuel of any, or a specified, volatile content without exceeding the emission limitations established by or under this chapter, he shall issue an allowable fuel certificate for the type of equipment so tested and approved and shall authorize the tagging thereof in accordance with subparagraph (2) of this section. The cost to the city of all tests made for the determination of such authorization shall be borne by the applicant therefor.

(2) Any surface-burning type (hand-fired) of equipment so approved that is sold, offered for sale, exchanged, delivered or installed for use in the city shall bear a certificate or a plate or tag in accordance with the regulations of the department which identifies the equipment and the category for which it is approved.

17-2.25 It shall be unlawful for any person knowingly to sell, exchange, deliver, haul or transport to the ultimate consumer for use and consumption in any surface-burning type (hand-fired) of equipment in the city, any solid fuel which does not meet the standards of a low volatile solid fuel or which has not been approved for use with such equipment by issuance of an allowable fuel certificate or certificate of operation; provided, that the delivery, or transportation of solid fuel by railroad companies and other common carriers in the course of their common carrier business shall not be a violation of the provisions of this section.

17-2.26 It shall be unlawful for any person to sell, offer for sale, expose for sale, exchange, deliver or install for use in the city:

(1) Any make, model, or type of domestic refuse-burning equipment which has not been approved by the commissioner; or

(2) Any make, model, or type of approved domestic refuse-burning equipment for the burning of any type of refuse other than the types for which the refuse-burning equipment has been approved by the commissioner.

The delivery or transportation of any refuse-burning equipment by railroad companies and other common carriers in the course of their common carrier business shall not be deemed to be a violation of the provisions of this section.

17-2.27 Prior to approval, plans of each make, model, or type of domestic refuse-burning equipment shall be submitted to the department and such equipment be subjected to such tests as may be deemed necessary to establish its air pollution potential. For this purpose the commissioner may rely, in whole or in part, upon tests of such equipment previously conducted by nationally recognized associations.

(1) The commissioner shall list each make, model, or type of domestic refuse-burning equipment which he has approved, and shall designate

the approval as being limited to one of the following two categories:

Type A. Domestic burning equipment for ordinary paper or similar material only;

Type B. Domestic incinerators for burning rubbish and garbage.

(2) Any approved domestic refuse-burning equipment that is sold, offered for sale, exchanged, delivered or installed for use in the city shall bear a plate or tag in accordance with the regulations of the department which identifies the equipment and the category for which it is approved.

(3) Any person, firm, or corporation whose domestic refuse-burning equipment is submitted for tests by the department must pay all reasonable expenses necessary to the attendant tests, and the department shall furnish the submitter a copy of the results of such tests.

17-2.28 It shall be unlawful for any person to install, erect, construct, reconstruct, alter, or add to, or cause to be installed, erected, constructed, reconstructed, altered, or added to, any fuel-burning, combustion or process equipment or device, or any equipment pertaining thereto, or any stack or chimney connected therewith, within the city, excepting domestic heating plants, domestic refuse-burning equipment, locomotives, steamships and internal combustion engines, or to make, or cause to be made, major repairs to any high pressure boiler furnace or the brickwork on or about the same in said city, until an application for installation and operating permits on forms supplied by the department including suitable plans and specifications of the fuel-burning, combustion or process equipment or device, or high pressure boiler furnace repair, and the structures or buildings used in connection therewith, has been filed in duplicate by the owner, contractor, installer, or other person, or his agent, in the office of, and has been approved by, the commissioner as being so designed that the same can be managed and operated to conform to the provisions of this chapter, and an installation permit issued by him for such installation, erection, construction, reconstruction, alteration, addition to, or repair.

Provided, however, that maintenance or repairs or alterations which are minor in scope or do not change the capacity of such fuel-burning, combustion or process equipment or device and which do not involve any change in the method of combustion or materially affect the emission of smoke, dust, fumes, or other products of combustion therefrom, may be made without an installation permit; provided further, that an emergency repair may be made prior to the aplication for, and the issuance of, a required installation permit in the event an emergency arises and serious consequences would result if the repair were to be deferred. When such repair is made in emergency, application for an installation permit or an operating permit therefor shall be filed in duplicate by the person or his agent in the office of the commissioner within a reasonable time after the start of such work. Each installation permit shall be posted in a conspicuous place at, or near, the work for which it was issued.

17-2.29 The plans and specifications, submitted pursuant to section 17-2.28, of the fuel-burning, combustion equipment or device other than process or process equipment shall show the type of installation, the form and dimensions of such equipment or device, more particularly the proposed boiler, furnace, fuel burner, refuse burner, stack and ducts, together with the description and dimensions of the building or part thereof in which such equipment is to be located, the amount of work and the amount of heating to be done by such equipment, including all provisions made for the purpose of securing complete combustion of the fuel or refuse to be used and the manner in which it is to be burned for the purpose of preventing emissions in excess of the limitations established by or under this chapter. Said plans and specifications shall also show the character of the fuel or refuse to be burned, the maximum quantity of the same to be burned per hour, the operating requirements, and the use of such equipment; and that the room or premises in which such equipment shall be located is provided with adequate means of ventilation to provide sufficient air to complete the combustion process. Such plans and specifications shall further show, the dimensions of such room in which such equipment is to be located, the location and dimensions of all stacks used in connection with or as a part of said equipment, the location and dimensions of all stacks of any buildings or structures immediately adjoining and contiguous to the premises in question the frequency and duration of emissions, composition of effluents and range of collector efficiency. The commissioner may require such additional data as he deems necessary for the purpose of issuing a permit for the installation or operation of any such equipment.

The plans and specifications, submitted pursuant to section 17-2.28 of process or process equipment shall contain such information and data as the commissioner may deem necessary to determine the emission potential of such process or process equipment, including, but not limited to, the frequency and duration of emissions, except composition of effluents and range of collector efficiency.

17-2.30 The plans and specifications submitted pursuant to section 17-2.28 shall be prepared under the direction of, or approved by, a registered professional engineer and bear his seal.

17-2.31 Without the approval of the commissioner, no installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning, combustion or process equipment or device, or major repair to any high pressure boiler furnace for which an installation permit has been issued, shall be made which is not in accordance with the plans, specifications, and other pertinent information upon which such permit was issued.

17-2.32 Any application pursuant to section 17-2.28 shall be approved or rejected within ten days after it is filed in the office of the commissioner. Upon the inspection and approval of said plans and specifications by the commissioner and upon the payment of the fees hereinafter provided, and if such plans and specifications shall show that adequate provisions to insure compliance with the provisions of this chapter have been made, a permit for the installation, erection, construction, reconstruction, alteration of, or addition to, such fuel-burning, combustion or process equipment or device, or repair of high pressure boiler furnace, shall be issued. The issuance of an installation permit for any fuel-burning equipment or device may be conditioned upon the agreement of owner or operator or both to operate such equipment or device only with fuels of a specified volatile content or in such specified manner as may be appropriate to insure that such equipment or device can be operated in a manner which will not result in emission of smoke, particulate or other matter in excess of the maximum limitations established by or under this chapter. As soon as the commissioner has issued the permit as above provided, it shall be the duty of the various departments of the city having charge of the inspection of the premises wherein such equipment or process is located to cooperate with the commissioner to see that the execution of the work so authorized by said permit shall be done in conformity with the approved plans and specifications, and the code of recommended practices.

17-2.33 The requirement of filing plans and specifications involving the installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning combustion or process equipment or device, or the building of pilot plants or processes, or repair to any high pressure boiler furnace, to be used in or to become a part of a secret process is hereby suspended, upon the filing with the department, in lieu of the filing of plans and specifications, of an affidavit of a responsible person to the effect that such equipment or process is to be so used. Such person may also be required to furnish bond or other proof of financial responsibility in accordance with section 17-2.34. The suspension of the filing of such plans and specifications shall in no way relieve the person or persons responsible for the secret process from complying with all other provisions of this chapter.

17-2.34 If the proposed plans and specifications submitted pursuant to section 17-2.28 are not sufficiently complete, in the judgment of the commissioner, to show that the equipment or device for which such plans and specifications were submitted can consistently comply with and can be operated within the provisions of this chapter, either because the design or process is unconventional or untried, or because the person has elected to omit confidential details, or because there are insufficient data on which to estimate the air pollution potential, the commissioner is authorized to require as a condition precedent to the issuance of an installation permit or certificate of operation proof of financial responsibility and of ability to make any changes that may be required after construction to insure compliance with the provisions of this chapter. Such proof, in the discretion of the commissioner, may be a written statement to such effect, signed by the owner or a responsible officer of a financially sound organization, or a written guarantee of performance signed by a responsible supplier or contractor or other responsible person. The responsibility of any such person or soundness of any such organization shall be a matter within the judgment of the commissioner, subject to the right of appeal.

In the event that he is not given adequate proof of financial responsibility and of ability to make any changes that may be required, the commissioner may require any such person, as owner, lessee, operator, supplier, contractor, vendor, or other person, to file with the commissioner a surety bond running to the Cty of Chicago in the sum of not to exceed fifty thousand dollars, executed by such person or persons, as principal, and two or more sureties, or a surety company authorized to do business in this state, said bond to be approved as to form and amount in accordance with the provisions of section 7-4 of this code, assuring compliance with the conditions of the permit and any agreement or guarantee and ability to make changes necessary for compliance with the provisions of this chapter.

17-2.35 Upon completion of any work for which an installation permit was issued, the department shall be notified by the person or persons responsible therefor, and, if upon inspection it is found that such work is in conformity with the plans and specifications, and is found to operate within the provisions of Sections 17-2.3, 17-2.4 and 17-2.6, the commissioner shall issue a certificate of operation forthwith.

17-2.36 If an installation permit for which an application is required by section 17-2.28 is not procured prior to the start of any work for which such a permit is required or if any work for which an installation permit has been issued fails to comply with the plans and specifications filed in connection therewith or with the terms of such permit, the commissioner shall have authority to stop all work and seal the installation or equipment and further work or operation shall not proceed until the commissioner has issued an installation permit and has been assured that the work will proceed in accordance with the installation permit. Persons responsible for such equipment may also be required to furnish bond or other proof of responsibility in accordance with section 17-2.34.

17-2.37 Any person who has started or completed the installation, erection, construction, reconstruction, alteration of, or addition to, any fuel-burning, combustion or process equipment or device, or any equipment pertaining thereto, or any stack or chimney connected therewith, or has started or completed, or caused to be started or completed, the major repair of any high pressure boiler furnace or the brickwork on or about the same without first having obtained a permit for such work from the commissioner pursuant to section 17-2.32, shall be subject to the fines and penalties herein provided.

17-2.38 If the installation, erection, construction, reconstruction, alteration, addition, or repair is not completed within one year of the date of issuance of the installation permit, or any extended period allowed by the commissioner, the permit shall become void and all fees paid shall be forfeited.

17-2.39 It shall be the duty of any person responsible for any discontinued or dismantled fuel-burning, combustion or process equipment or device coming under the jurisdiction of the permits or fees provisions of this chapter to report to the department within thirty days the permanent discontinuance or dismantlement of such equipment or device.

17-2.40 An annual inspection shall be made by the department of all fuel-burning, combustion or process equipment or devices, coming under the provisions of this chapter, whether or not a certificate of operation or allowable fuel certificate allowing use of such equipment or process has been previously issued by the commissioner, to see that such equipment or process can be so managed and operated that no smoke, particulate, or other matter shall be emitted therefrom in violation of any emission limitation or other requirement provided under this chapter; provided, however, that no annual inspection shall be required of locomotives, ships, boats, tugs, internal combustion engines, domestic heating plants, or domestic refuse-burning equipment; and provided, also, that where any fuel-burning, combustion or process equipment or device has been installed, erected, constructed, reconstructed, altered, added to, or repaired pursuant to a permit issued under section 17-2.32, has been inspected in accordance with the requirements of section 17-2.35 hereof, and has been in operation less than six months, an annual inspection will not be required until six months from the date such equipment was first put under fire after the completion of such work.

The fees for each annual inspection, as hereinafter provided, shall include the issuance of a certificate of operation.

Each annual certificate of operation shall be effective from the date thereof for a period of one year or until the next annual inspection.

17-2.41 Upon a finding that any fuel-burning, combustion or process equipment or device inspected, on any original, annual or subsequent inspection, has been found to comply with the provisions of this chapter, and after payment of the prescribed fee, the commissioner shall issue a certificate of operation which shall be posted in a conspicuous place at or near the equipment or process. Any certificate of operation may contain such information and certifications as are contained in allowable fuel certificates pursuant to section 17-2.22.

17-2.42 It shall be unlawful for any person or his agent to use or operate any fuel-burning, combustion or process equipment or device which is subject to annual inspection, as hereinabove set forth, without having an effective certificate of operation therefor.

17-2.43 The commissioner shall have the same power and jurisdiction over all fuel-burning, combustion or process equipment or devices owned or operated by any branch of the federal, state or local governments and any municipal corporation as over all other fuel-burning, combustion or process equipment or devices subject to the terms of this chapter; and all such branches and corporations shall be subject to the requirements of this chapter.

It shall be the duty of the commissioner to inspect at least once in each year all of such installations, and also to preserve a record of the condition with respect to the requirements of this chapter of such installations as shown by such inspection. No fee shall be charged or paid to the department or to any of its employees for any original, annual or subsequent inspection of any such installation or for the certificate of operation therefor issued by the department.

17-2.44 Fees for the inspection of plans and issuing installation permits for the installation, erection, construction, reconstruction, alteration of, or addition to, fuel-burning, combustion or process equipment or devices, and installation of apparatus or devices for the prevention or arresting of the discharge smoke, particulate, liquid, gaseous, or other matter shall be as follows:

| | |
|---|---|
| Filing fee for the evaluation of plans of fuel-burning and refuse-burning equipment | $ 5.00 |
| Filing fee for the evaluation of plans of process equipment or control devices | |
| 1 to 10 Unit Processes and Unit Operations | 5.00 |
| 11 to 100 Unit Processes and Unit Operations | 10.00 |
| 101 and Over Unit Processes and Unit Operations | 15.00 |

Permits for the installation, erection, construction, reconstruction, alteration of, or addition to any fuel-burning, combustion or process equipment or device, dust loading device or chimney.

| | |
|---|---|
| Fuel-burning equipment used for space heating, steam and hot water generation for each unit: | |
| Of a capacity of less than 288,000 Btu/Hr. | $10.00 |
| Of a capacity of 288,000 Btu/Hr and less than 960,000 Btu/Hr | 15.00 |
| Of a capacity of 960,000 Btu/Hr and less than 2,880,000 Btu/Hr | 20.00 |
| Of a capacity of 2,880,000 Btu/Hr or more | 30.00 |
| Refuse-burning equipment, for each unit: | |
| With less than five square feet of grate area | $ 5.00 |
| With five square feet and less than ten square feet | 10.00 |
| With ten square feet and less than fifteen square feet of grate area | 15.00 |
| With fifteen square feet and less than twenty square feet of grate area | 20.00 |
| With twenty or more square feet of grate area | 25.00 |
| Per one unit operation of one unit process creating atmospheric pollution or any device controlling atmospheric pollution | $10.00 |

17-2.45 Fees shall be as follows for the examination or inspection of any new or reconstructed fuel-burning, combustion or process equipment or device, after its erection or reconstruction, and before its operation and maintenance:

| | |
|---|---|
| Fuel-burning equipment used for space heating, steam and hot water generation for each unit: | |
| Of a capacity of less than 288,000 Btu/Hr. | $10.00 |
| Of a capacity of 288,000 Btu/Hr and less than 960,000 Btu/Hr | 20.00 |
| Of a capacity of 960,000 Btu/Hr and less than 2,880,000 Btu/Hr | 30.00 |
| Of a capacity of 2,880,000 Btu/Hr or more | 40.00 |
| Refuse-burning equipment, for each unit: | |
| With less than five square feet of grate area | $10.00 |
| With five square feet and less than ten square feet | 20.00 |
| With ten square feet and less than fifteen square feet of grate area | 30.00 |
| With fifteen square feet and less than twenty square feet of grate area | 40.00 |
| With twenty or more square feet of grate area | 50.00 |
| Per one unit operation or one unit process creating atmospheric pollution or any device controlling atmospheric pollution | $10.00 |

17-2.46 Fees shall be as follows for the annual inspection of fuel-burning, combustion or process equipment or devices: Fuel-burning equipment used for space heating, steam and hot water generation for each unit:

| | |
|---|---|
| Of a capacity of 288,000 Btu/Hr and less than 2,400,000 Btu/Hr | $10.00 |
| Of a capacity of 2,400,000 Btu/Hr and less than 6,000,000 Btu/Hr | 15.00 |
| Of a capacity of 6,000,000 Btu/Hr or more | 20.00 |
| Refuse-burning equipment, for each unit: | |
| With less than seven square feet of grate area | $ 5.00 |
| With seven square feet and less than twenty square feet | 10.00 |
| With twenty square feet and less than fifty square feet grate area | 12.00 |
| With fifty square feet or more of grate area | 15.00 |
| Per one unit operation or one unit process creating atmospheric pollution or any device controlling atmospheric pollution | 5.00 |

The fee for annual inspection shall include the issuing of a certificate of operation.

17-2.47 All fees or penalties prescribed for the issuance of permits, licenses or certificates, or for the inspection of plans, premises or equipment, under any provision of this chapter, shall be paid to the commissioner, who shall render to the person making such payment a receipt stating the amount and purpose for which such fee or penalty has been paid, a duplicate of which shall be made part of the records of the department. All fees and penalties thus received shall be deposited with the city collector for the corporate fund.

17-2.48 All fees or penalties prescribed for the payment of which is required under any provision of this chapter, shall constitute a debt due the city. The corporation counsel shall, at the request of the commissioner, institute civil suit in the name of the city to recover the amount of any such unpaid fee or penalty. No civil judgment, or any act by the corporation counsel, the commissioner, or the violator, shall bar or prevent a criminal prosecution for each and every violation of this chapter.

17-2.49 In the event the installation of the fuel-burning, combustion or process equipment or device is not completed or that the commissioner or any other authorized officer of any department of the city refuses issuance of a permit for the erection or construction of any building or structure in which such equipment, process or device was to be located, the fee which has been paid for the permit or the certificate of operation may be refunded upon proper presentation of the facts; provided, however, that no refund shall be made after a period of one year from the payment of the fee.

17-2.50 The Commissioner shall remit all inspection or examination fees charged against any charitable, religious or educational institution when the furnace or other combustion equipment, device or apparatus inspected is located in or upon premises used and occupied exclusively by such institution; provided, however, that such charitable, religious or educational institution is not carried on for, or connected with any institution conducted for private gain or profit. The commissioner may require every application for the remission of such fees to be verified by affidavit of one or more taxpayers of the city.

17-2.51 In the event of unavoidable failure or breakdown of any fuel-burning, combustion or process equipment or device or other circumstances beyond the control of any person owning or operating such equipment, including necessary shutdowns of smoke abatement or dust collection equipment for purposes of maintenance or repair, which tends to produce unlawful emission of smoke, particulate, or other matter, the owner or managing agent of such equipment or process shall immediately notify the department of such failure, breakdown or other circumstance together with all pertinent facts relating thereto and a statement of the date upon which the condition will be rectified, and shall also report to it when such defect has been removed. Immunity from prosecution under such circumstances shall be at the discretion of the commissioner.

17-2.52 The commissioner is hereby authorized to conduct or cause to be conducted, any test or tests as may be necessary to determine the extent of emission of particulate matter from any fuel burning, combustion or process equipment or devise, if and when, in his judgment, there is evidence that any such equipment, process or device is exceeding any emission limitation prescribed by or under this chapter. The result of any test shall be made available to the person responsible for such property tested. Tests shall be made and the results calculated in accordance, where applicable, with American Society of Mechanical Engineers "Power Test Codes, Test code for determining dust concentration in a gas stream PTC-27-1957" procedure as revised from time to time or in accordance with modified procedures mutually agreed upon between the commissioner and the person. All tests and calculations shall be made under the direction of a competent engineer. Any test or tests to be conducted on the premises where such equipment or device is located shall be made during reasonable hours, after written notice to, and with the cooperation of, the owner or operator. The cost of any test or tests and calculations shall be a debt due the city from any person responsible as owner, operator or otherwise of such fuel-burning, combustion or process equipment or device in all cases when such test or tests shall have proven any emission of particulate matter in violation of any provision of this chapter, and such unpaid debt shall be recoverable in any court of competent jurisdiction. If any such emission is shown by such test or tests to be within the limits of emission prescribed in this chapter, the cost of such test or tests shall be charged to the annual appropriation of the department.

17-2.53 In the event any person is compelled to, or deems it advisable to, install any new equipment, process or device, appliance, means or methods, including needed control equipment, in order to comply with any provision of this chapter and exemption from the operation of this chapter is reasonably necessary in order to allow sufficient time for such installation, such exemption may be granted by the commissioner on good cause shown. Upon complaint in writing by any such person, setting forth that it is impossible in the operation of any plant, fuel-burning, combustion or process equipment or device, or apparatus, to operate the same in complete compliance with the requirements of this chapter, and stating evidence satisfactory to the commissioner that such person has taken, or will take, all steps necessary to provide for future compliance with the provisions of this chapter, and giving assurance to the commissioner that the acquisition and installation of the proper equipment, process, device, or appliance, or control equipment, will be effected within a reasonable period of time, stating specifically the nature and extent thereof, and upon the finding by the commissioner on investigation by him of the facts, that said complaint is well grounded, the commissioner is authorized to permit the operation of such plant, fuel-burning, combustion or process equipment or device, or apparatus, for a reasonable period of time within which period the necessary equipment, process, device, appliance, means or methods, or control equipment, is to be acquired and installed; provided, however, that the commissioner is empowered to grant further reasonable extensions of time upon proof of extenuating circumstances, and that an order of the commissioner denying a complaint for a period of grace or an extension of time shall be subject to review by the appeal board, as hereinabove provided. During any such granted period, such persons shall not be subject to the fines and penalties hereinafter provided for the noncompliance sought to be remedied; if, however, such person wilfully fails in the time allowed to conform with applicable provision or provisions of this chapter, or to comply with his assurance and agreement, he shall be subject to all applicable fines and penalties herein provided dating from the date of the beginning of the said period or periods.

It shall be the duty of such person to notify the commissioner immediately of the completion of such installation.

17-2.54 For the purpose of aiding the commissioner in establishing a code of recommended practices and in reaching technically correct decisions on all matters pertaining to the enforcement of the provisions of this chapter, a technical advisory board, to be appointed by the mayor, by and with the consent of the city council, is hereby established. The advisory board shall consist of seven members, one of whom shall be designated by the mayor as chairman and four of whom shall constitute a quorum. They shall be appointed for a term of four years, or until their respective successors are appointed and qualified, except that of the initially appointed board, two members shall serve for one year, two members for two years, two members for three years, and one member for four years. Six members shall be scientists, or registered professional engineers acquainted with at least one phase of air pollution and its control as well as with industrial processes and equipment, whose experience and training qualify them to give competent technical advice to the commissioner. They shall not be interested in the sale to the public of any fuel-burning, combustion or process equipment or device, water pollution control device or noise abatement device. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

It shall be the duty of the advisory board to work with the commissioner in the promulgation and adoption of the code of recommended practices. It shall be the further duty of the advisory board to advise the commissioner and the appeal board with respect to the technical points concerned with the enforcement of the provisions of this chapter; but neither the commissioner nor the appeal board shall be required to act on the advice of the advisory board if, in their respective opinions, there is good and sufficient reason to believe that such advice will not serve the best interests of the public.

Meetings of the advisory board shall be held at such times as deemed necessary by the chairman or by the commissioner. The compensation of each member shall be as set forth in the annual appropriation ordinance.

17-2.55 An appeal board, to be appointed by the mayor, by and with the consent of the city council, is hereby established. The appeal board shall consist of seven members, one of whom shall be designated by the mayor as chairman, and four of whom shall constitute a quorum. They shall be appointed and qualified, except that of the initially appointed appeal board, two members shall serve for one year, two members for two years, two members for three years, and one member for four years. They shall be residents of the City of Chicago.

One member shall have had at least five years' business or administrative experience in the ownership or operation of industrial or commercial enterprises; one member shall be a registered physician who has had at least five years medical practice in one or more of the fields of public health, industrial hygiene or epidemiology; one member shall be at the time of his appointment, and for at least five years prior thereto, actively engaged as a chief operating engineer of a plant containing high pressure boilers, and who is also a licensed engineer; one member shall be at the time of his appointment, and for five years prior thereto, actively engaged as a registered professional engineer in the solid fuel industry or in the construction, design, or operation of fuel-burning, combustion or process equipment; one member shall be at the time of his appointment, and for five years thereto, licensed to practice law in the State of Illinois; two members shall be appointed at large. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

Meetings of the appeal board shall be held at the call of the chairman, and at such other times as the appeal board may determine. The appeal board shall have the power to adopt and enforce such rules and regulations as it may deem necessary to carry into effect the appeal powers herein provided and in connection therewith may call upon the advisory board for technical assistance and advice. All hearings conducted by the appeal board shall be open to the public. Any person may appear and testify at a hearing, either in person or by duly authorized representative or attorney.

The appeal board shall keep minutes of its proceedings showing the vote of each member upon each question, or if he is absent or failing to vote, indicating such fact, and shall also keep records of its hearings and other official actions. Every rule and regulation, every amendment or repeal thereof, and every order, requirement, decision, or determination of the appeal board shall be filed immediately in the office of the department and shall be a public record.

A majority of the appeal board is hereby vested with the following jurisdiction and authority:

(1) To decide appeals from any decision, ruling, regulation, determination or order made by the commissioner under this chapter, or failure to act upon request within a reasonable period of the commissioner, in the manner and subject to the standards set out in section 17-2.4 hereof;

(2) To pass upon applications for extensions of time for compliance, or for exemptions or variances in the manner and subject to the standards set out in section 17-2.4 hereof;

(3) To decide all matters referred to it or upon which it is required to pass under this chapter.

17-2.56 (1) The appeal board is given further authority for the granting of individual variances for any fuel-burning, combustion or process equipment or device, beyond the limitations prescribed in sections 17-2.3 and 17-2.4 or any other section of this chapter, except as provided in subsection (3) hereof, whenever it is found, upon the presentation of adequate proof, that because of conditions beyond control compliance with any provision of this chapter or other ordinance relating to atmospheric pollution, or with the code of recommended practices, or any rule, regulation, requirement or order of the commissioner or of the appeal board, or the failure of the commissioner to act on any complaint, will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity, in either case without a sufficient corresponding benefit or advantage to the people in the reduction of atmospheric pollution; in such case there shall be prescribed other and different requirements not more onerous applicable to plants or equipment involved.

(2) In determining under what conditions and to what extent a variance from any of said requirements is necessary and will be permitted, the appeal board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the public health, safety and welfare and to any lawful business, occupation or activity involved, resulting from requiring compliance with any such requirement or resulting from granting a variance.

(3) The appeal board is further given authority to grant an individual variation for fuel burning equipment from the provisions of Section 17-2.5(3)(a) hereof under the following conditions:

(a) Said variation shall be limited so that such equipment may be permitted to burn fuel containing percentages of sulfur by weight in excess of the limitations prescribed by said Section 17-2.5(3)(a) hereof whenever an applicant shall establish before the board that it can and will pursue a bona fide program restricting the quantity of fuel burned in said equipment in the aggregate owned or operated in the City of Chicago by said applicant with the effect that:

(1) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than eighty-three per cent (83%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for each of the two years from and after June 29, 1969.

(2) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than sixty-six percent (66%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for a period of one year from and after June 29, 1971.

(3) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than fifty-eight per cent (58%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for a period of one year from and after June 29, 1973.

(4) Such equipment in the aggregate will not emit sulfur compounds in a percentage greater than fifty percent (50%) by weight of the aggregate amounts of sulfur compounds emitted in the year 1967 by said equipment, for each year thereafter.

(b) The variance shall not permit the applicant, in meeting the percentages set forth in (1), (2), (3) and (4) of this subsection to operate his equipment in any calendar month so that the sulphur compound emissions for that month materially exceed such percentages of such emissions in the corresponding calendar month of 1967.

The compensation of each member of the appeal board shall be as set forth in the annual appropriation ordinance.

17-2.57 Any person taking exception to and affected by any final decision, ruling, requirement, rule, regulation or order, or failure to act upon request within a reasonable period of the commissioner, may take an appear to the appeal board as established by this chapter. Such appeal shall be taken within thirty days after receiving notice of such decision, ruling, requirement, rule, regulation or order, or failure to act upon request within a reasonable period, by filing with the commissioner a notice of appeal directed to the appeal board, specifying the grounds thereof and the relief prayed for. The commissioner shall forthwith furnish to the appeal board all the papers relating to the case. Beginning with the date of filing of the appeal, the appeal board, not less than five days nor more than ten days thereafter, shall set a date for the hearing, which shall be held within the following twenty-one days, and shall give written notice thereof by mail to the interested parties. The appeal board may in its discretion grant continuances. Such an appeal shall act as a stay of the decision, ruling, requirement, rule, regulation or order in question until the appeal board has taken final action on the appeal. At the hearing any party may appear in person or by agent or attorney, and present evidence, both written and oral, pertinent to the questions and issues involved, and may examine and cross-examine witnesses. The appeal board, no later than ninety days after the filing date, shall affirm, modify or reverse the decision, ruling, requirement, rule, regulation or order of the commissioner or order him to act. The decision of the appeal board shall be binding on the commissioner.

The provisions of the "Administrative Review Act", approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply and govern all proceedings for the judicial review of final administrative decisions hereunder.

The appeal board at its expense shall provide a stenographer to take the testimony and preserve a record of all proceedings under this chapter. The notice of appeal, the notice of hearing, all other documents in the nature of pleadings and written motions filed in the proceedings, the transcript of testimony and the findings of fact and decisions shall be the record of the proceedings. The appeal board shall furnish a transcript of such record to any person interested as a party to such hearing upon the payment thereof of seventy-five cents per page for each original transcript, and twenty-five cents per page for each carbon copy thereof. However, the charges of any part of such transcript ordered or paid for previous to the writing of the original record shall be twenty-five cents per page.

The appeal board shall not be required to certify any record or file any answer or otherwise appear in any proceeding for judicial review unless the party filing the appeal deposits the sum of ninety-five cents per page representing costs of certification. Failure on the part of the appellant to make such deposits shall be grounds for dismissal of the action. Upon judicial review the secretary of the appeal board shall certify the record.

17-2.58 After any person has been previously notified of three or more violations of this chapter within any consecutive twelve-month period in respect to the emission of smoke, particulate or other matter by the same piece of equipment in excess of the emission limitations herein provided or in respect to violations of other requirements provided in this chapter, such person shall be notified in writing to show cause before the commissioner on a day certain, not less than twenty days from date of service of such notice, why the equipment or process causing such violations should not be sealed. This last notice herein provided for may be given by mail, directed to the last known address of the person to be notified, or if such person or his whereabouts is unknown, then by posting a notice on or near the premises at which the violations shall have occurred. Upon the date specified in the notice such person may appear at such hearing in person or by representative, with or without counsel. If such person fails to appear at such hearing or if upon such hearing the commissioner shall find and determine that the violations are due to defective equipment or equipment which is incapable of being operated within the maximum emission limitations established by or under this chapter, or that corrective measures previously ordered by the commissioner have not been employed to eliminate the causes producing the violations, he may enter an order revoking any certificate or permit outstanding for such equipment or process and directing that the same be sealed by an inspector or other authorized agent of the commissioner.

17-2.59 Upon notice and hearing, if notice and hearing has not previously been provided, the commissioner may order that the use of any fuel-burning, combustion or process equipment or device shall be discontinued and may seal such equipment or process.

(1) As provided in sections 17-2.36 and 17-2.55 of this chapter;

(2) When a certificate of operation is refused in the case of any original, annual or subsequent inspection, because the person required to procure such certificate has not complied with the provisions of this chapter;

(3) In the case of movable equipment, or portable boilers, or vehicles, when immediate correction of a condition causing a violation of this chapter is not made by the operator of such equipment, portable boiler or vehicle when ordered to do so by the commissioner or his authorized representative.

17-2.60 Whenever, in connection with the enforcement of this chapter, any fuel-burning, combustion or process equipment or device, or any plant, building, structure, premises, portable boiler or vehicle, has been sealed at the direction of the commissioner, the seal shall not be broken or removed except on written order of the commissioner. The breaking or removal of this seal without such order shall be a violation of this chapter, and each day such seal remains broken or removed shall constitute a separate offense.

17-2.61 The commissioner, or anyone authorized to act for him, in the performance of his duties and for the purpose of enforcing and administering this chapter or any order, regulation or rule promugated pursuant thereto, or for the purpose of obtaining facts with respect to any complaint or non-compliance, is hereby authorized and empowered to enter into any building, structure, establishment, premises or enclosure or other place at all reasonable hours for the purpose of inspecting any fuel-burning, combustion or process equipment or device situated therein; or to stop, detain and inspect any portable boiler or vehicle; and shall collect and preserve any and all evidence pertaining to any alleged violation of any provision of this chapter. If any person in any way denies, obstructs or hampers such entrance or inspection, the commissioner is hereby authorized to refuse the issuance of any certificate or permit for any fuel-burning, combustion or process equipment or device with respect to which entrance or inspection has been denied in the event one has not been issued, or to revoke any outstanding certificate or permit issued for such equipment or device.

17-2.62 Any person found guilty of violation, disobeying, omitting, neglecting, or refusing to comply with, or resisting or opposing the enforcement of, any of the provisions of this chapter, except when otherwise specifically provided, upon conviction thereof shall be punished by a fine of not less than ten dollars nor more than two hundred dollars for the first offense, and not less than fifty dollars nor more than two hundred dollars for the second and each subsequent offense, in any ninety day period. A separate and distinct offense shall be regarded as committed each day on which such person shall continue or permit any such violation, or failure to comply is permitted to exist after notification thereof. In addition to such fines and penalties, the permit, or certificate or operation of such person, or of the offending property, may be suspended or revoked, as hereinbefore provided.

17-2.63 All persons causing, participating in, or permitting any violation of any provision of this chapter shall be severally or jointly liable therefor and as such subject to the fines and penalties provided by this chapter.

17-2.64 Prosecutions under this chapter shall be instituted by the commissioner and shall be prosecuted in the name of the city.

The issuance and delivery by the commissioner of any permit, certificate for installation, erection, construction, reconstruction, repair, alteration, or addition thereto, of any fuel-burning, combustion or process equipment or device, or any appurtenance thereto, or certificate for use or operation of any such property, or permit to maintain an open fire, or permit to operate any portable boiler or vehicle, shall not be held to exempt any person to whom any such permit or certificate has been issued or delivered, or who is in possession of any such permit or certificate, from prosecution on account of the emission of smoke, particulate or other matter in violation of this chapter, caused or permitted by any such person or persons, or any other violation of the provisions of this chapter by such person or persons.

17-2.65 If any provision, clause, sentence, paragraph, section, or part of this chapter, or application thereof to any person, firm, corporation or circumstance, shall, for any reason, be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, said judgment shall not affect, impair or invalidate the remainder of this chapter and the application of such provision to other persons, firms, corporations or circumstances, but shall be confined in its operation to the provision, clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which such judgment shall have been rendered and to the person, firm, corporation or circumstance involved. It is hereby declared to be the legislative intent of the city council that this chapter would have been adopted had such invalid provision or provisions not been included.

17-2.66 Any prosecution arising from a violation of any ordinance or part of ordinance repealed herein or hereby, whether expressly or by implication, which prosecution may be pending at the time this chapter becomes effective, or any prosecution which may be started within one year after the effective date of this chapter, in consequence of any violation of any ordinance or part of ordinance so repealed, which violation was committed previous to the effective date of this chapter, shall be tried and determined exactly as if such ordinance or part thereof had not been repealed.

17-2.67 This article shall not be considered or construed as in any way repealing, modifying or nullifying any other ordinance of the city or the provisions of this code or any rules and regulations thereunder, except those ordinances or provisions expressly repealed hereby. This article shall be deemed to be concurrent with and supplemental to any ordinances of the city or any provisions of this code.

## Article III

## INDUSTRIAL WASTE CONTROL

17-3.1 Unless otherwise specifically indicated, the meaning of the terms used in this Article shall be as follows:

(a) "Commissioner" shall mean the Commissioner of Environmental Control of the City of Chicago.

(b) "Combined sewer" shall mean a sewer receiving both surface runoff and sewage.

(c) "Garbage" shall mean solid wastes from the preparation, cooking and dispensing of food, and from the handling, storage or sale of meat, fish, fowl, fruit, or vegetables and condemned food.

(d) "Ground or comminuted garbage" shall mean wastes from the preparation, cooking and dispensing of foods that has been comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

(e) "Industrial wastes" shall mean the solids, liquid or gaseous wastes resulting from any industrial, manufacturing, trade or business process or from the development, recovery or processing of natural resources.

(f) The term "Other Wastes" shall mean decayed wood, sawdust, shavings, bark, lime, refuse, ashes, garbage, offal, oil, tar, chemicals and all other substances except sewage and industrial wastes.

(g) "Intercepting sewer" shall mean any sewer built, acquired, or maintained by The Metropolitan Sanitary District of Greater Chicago for the purpose of receiving sewage or combined sewage and storm flow from one or more local sewers.

(h) "The Metropolitan Sanitary District of Greater Chicago" shall mean the municipal corporation organized and existing under the laws of the State of Illinois enacted by the Illinois State Legislature July 1, 1889, entitled "An Act to Create Sanitary Districts and to Remove Obstructions in the Des Plaines and Illinois Rivers", as amended, and shall hereafter be referred to as the Sanitary District.

(i) "Natural outlet" shall mean any outlet into a water-course, pond, ditch, lake, or other body of surface water.

(j) "Person" shall be as defined in Section 17-2.1 of this chapter.

(k) "Pollution" shall mean the discharge of deposit in or upon such waters of sewage, industrial wastes, or other wastes containing soluble or insoluble solids of organic or inorganic nature which may deplete the dissolved oxygen content of such waters, contribute settleable solids that may form sludge deposits, contain oil, grease, or floating solids which may cause unsightly appearance on the surface of such waters, or contains soluble materials detrimental to aquatic life, all beyond the content of such like substances present in an equal volume of the effluent discharge from the sewage treatment works of the Sanitary District into similar receiving waters.

(l) "Sewage" shall mean a combination of water carried wastes from residences, business buildings, institutional, and industrial establishments, together with such ground, surface and storm waters as may be present.

(m) "Sewage Treatment Works" shall mean the arrangement of devices and structures for treating sewage and industrial wastes.

(n) "Sewage Works" shall mean all facilities for collecting, pumping, treating and disposing of sewage and industrial wastes.

(o) "Sewer" shall mean a pipe or conduit for carrying sewage or other waste liquids.

(p) "Sewage System" shall mean the network of sewers and appurtenances for collection, transportation, and pumping of sewage and industrial wastes.

(q) "Storm sewer" shall mean a pipe or conduit which carries storm, surface water and drainage but excludes sewage and industrial wastes. It may, however, carry cooling waters and unpolluted waters.

(r) The term "toxic substances" shall mean any substance whether gaseous, liquid or solid which when discharged into the sewer system in sufficient quantities will interfere with any sewage treatment process, or will constitute a hazard to human beings or animals, or will inhibit aquatic life or create a hazard to recreation in the receiving waters of the effluent from the sewage treatment works of The Metropolitan Sanitary District of Greater Chicago.

(s) The term "Waters" shall mean all waters of any river, stream, water course, pond, or lake wholly or partly within the territorial boundaries of the City of Chicago.

(t) "Water-course" shall mean any channel, natural or artificial, whether lined or unlined, for drainage of storm water, ground water or clear water.

17-3.2 It shall be unlawful for any person to install any drain outlet or other facility for the discharge, into any of the waters or water courses within or adjoining the City of Chicago, or any industrial wastes or other wastes that will cause the pollution of such waters or water courses, without having obtained a written permit from the Commissioner; and no changes, additions or extensions to any such existing drain outlet or other facility for such discharge, shall be made without having obtained a written permit for the same from the Commissioner.

17-3.3 Whenever an industrial plant or other establishment discharges or proposes to discharge industrial wastes into any waters, sewer, drain, water course or natural outlet in the City of Chicago and it becomes necessary either to:

(a) Reduce or modify the objectionable characteristics or constituents of such industrial wastes to meet the limits or requirements provided for in Section 17.3.4 hereof, and to prevent pollution; or to

(b) Control the quantities and rates of discharge of such industrial wastes over a twenty-four (24) hour day and a seven (7) day week to prevent surge discharges which may place an unreasonable burden upon the sewage works of The Metropolitan Sanitary District of Greater Chicago;

the Commissioner shall require the owner, operator or tenant of such industrial plant, or other establishment, to provide adequate preliminary treatment or handling facilities to accomplish such a result. Before any permit for the construction of preliminary treatment or handling facilities shall be issued, plans, specifications and other pertinent data or information relating to such proposed treatment or handling facilities shall be submitted by the industry for the approval of the Commissioner. No permit shall be issued and no construction of such facilities shall be commenced without the prior written approval of the Commissioner; and no substantial alteration or addition to or in the sewer or drain or in the preliminary treatment or handling facilities shall be made without the prior written approval of the Commissioner.

17-3.4 Except as otherwise provided herein, no person shall discharge or cause to be discharged any of the following described wastes or waters into any sewer, water course, natural outlet or waters within or partially within or adjoining the boundaries of the City of Chicago:

(a) Water or wastes containing more than 100 parts per million (833 pounds per million gallons) of fats, oils or greases if such water or wastes are in the opinion of the Commissioner, sufficient (1) to interfere with the biological processes of a sewage treatment plant; (2) interfere with proper operation of the sewage works; (3) cause obstruction to flow in sewers; (4) cause pollution as herein defined.

(b) Liquids, solids, or gases which by reason of their nature or quantity are sufficient to cause fire or explosion or be injurious in any way to the sewage works structures or to the operation of the sewage works.

(c) Noxious or malodorous liquids, gases or substances which whether singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for their maintenance and repair.

(d) Water or wastes having a pH lower than 4.5 or higher than 10.0 or having corrosive properties sufficient to cause damage or hazards to structures, equipment, or personnel of the sewage works or of interfering with the proper operation of the sewerage system or sewage treatment works.

(e) Water or wastes containing toxic substances in quantities which are sufficient to interfere with the biological processes of the sewage treatment works.

(f) Garbage that has not been ground or comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.

(g) Radio-active wastes unless they comply with the Atomic Energy Commission Act of 1954 (68 Stat. 919 as amended and Part 20, Sub-Part D-Waste Disposal, Section 20.303, of the Regulations issued by the Atomic Energy Commission), or amendments thereto.

(h) Solid or viscous wastes which cause obstruction to the flow in sewers or other interference with the proper operation of the sewerage system or sewage treatment works, such as grease, uncomminuted garbage, animal guts or tissues, paunch manure, bone, hair, hides, fleshings, entrails, feathers, sand, cinders, ashes, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grain, waste paper, wood, plastic, gas tar, asphalt, residues, residues from refining or processing of fuels or lubricating oil, gasoline, naptha, and similar substances.

(i) Liquids or vapors having a temperature higher than 150° F. at the point of entrance into a public sewer.

17-3.5 Wherever possible clean waters from air conditioning, cooling or condensing systems or from swimming pools or clean waters resulting from pre-treatment of industrial wastes shall be discharged into a storm sewer, combined sewer or natural outlet approved by the Commissioner.

17-3.6 Any person discharging industrial wastes into a sewer shall construct and maintain a suitable control manhole or manholes downstream from any such places of discharge to permit observation, measurement and sampling of such wastes by the Commissioner or by personnel of the Sanitary District as hereinafter provided. Where no manhole has been constructed or can be constructed, as in the case of some existing industries, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected.

17-3.7 The Commissioner shall have the right to enter and set up, on the owner's property, such devices as may be necessary to conduct a gauging and sampling operation after first giving ten days advance notice of his intention so to do. While performing said gauging and sampling, the Commissioner or his representative and anyone performing said work in his behalf shall observe and comply with all Safety Rules applicable to the premises, established by the said owner or occupant.

The Commissioner is hereby authorized to make arrangements for the Sanitary District, without incurring any legal or financial obligation upon the City of Chicago, to undertake and conduct such gauging and sampling operations, in its behalf; and to provide the necessary devices and facilities as well as the personnel, and also to make the analyses of samples of such wastes, as hereinafter provided, in its own laboratories and other facilities or equipment; provided, that no such arrangements with the Sanitary District shall place any personnel of the Sanitary District under the control of the Commissioner or cause such personnel of the Sanitary District to be treated as employees of the City of Chicago for any purpose whatsoever.

17-3.8 All analyses to determine the strength and character of industrial wastes shall be made in accordance with the latest edition of "Standard Methods for the Examination of Water and Sewage" prepared and published jointly by the American Public Health Association, American Water Works Association, and the Water Pollution Control Federation. Strength, character and quantity of wastes shall be based on composite samples taken over a 24-hour or longer period from the flow from all plant outlets discharging into a single public sewer.

17-3.9 Application for permission to connect an industrial waste sewer into any sewer of the City of Chicago or to discharge into any waters, water course or channel within the City of Chicago shall be made on a standard form obtainable from the office of the Bureau of Sewers, Department of Water and Sewers of the City of Chicago.

17-3.10 Whenever the Commissioner shall determine that sewage or industrial wastes or other wastes are being discharged into any of the said waters, water courses, natural outlets or sewers of the City of Chicago, which in the opinion of said Commissioner pollutes said waters or water courses or interferes with the operation of the sewerage system of the City of Chicago or with the operation of the sewage treatment works, by the Sanitary District, to which the latter is connected, said Commissioner may order whomsoever causes such discharges to show cause before him why such discharge should not be discontinued. In such case a notice shall be served on the offending person directing him to appear before such Commissioner to show cause why an order should not be made directing the discontinuance of such discharge. Such notice shall specify the time and place of such hearing and shall be served personally or by registered mail at least ten (10) days before such hearing. Said Commissioner or his duly accredited representative may take evidence with reference to said offense at such hearing and upon its conclusion the Commissioner, if he finds a violation of this Article, may issue an order to such offending party directing that within a specified period of time thereafter such discharge be discontinued unless adequate treatment works shall have been installed or existing treatment works shall have been made adequate and shall be so operated as to eliminate such pollution.

17-3.11 Any permit authorized and issued under the provisions of this Article may, when necessary, in the opinion of the Commissioner, to prevent pollution of waters, water courses, or to prevent interference with the efficient operation of the sewage system of the City of Chicago or of the system and works of the Sanitary District for the collection and treatment of the sewage of the City of Chicago, be revoked or modified by the Commissioner, after investigation, notice and hearing as provided in the preceding Section 17-3.10 hereof.

17-3.12 An Appeal Board, to be appointed by the Mayor, by and with the consent of the City Council is hereby established. The Appeal Board shall consist of three members, one of whom shall be designated by the Mayor as Chairman, and two of whom shall constitute a quorum. They shall be appointed for a term of three years, or until their respective successors are appointed and qualified, except that of the initially appointed appeal board, one member shall serve for one year, one member for two years, and one member for three years.

One member shall have had at least five years business or admininstrative experience in the ownership or operation of industrial or commercial enterprises; one member shall at the time of his appointment and for at least five years prior thereto have been actively engaged in the field of sanitation and sewage or industrial waste disposal; one member shall be at the time of his appointment and for at least five years prior thereto actively engaged as a registered professional engineer having special competence in the field of sanitary engineering. Members appointed to fill vacancies shall have the same general qualifications required for their predecessors.

Meetings of the Appeal Board shall be held at the call of the Chairman, and at such other times as the Appeal Board may determine. The Appeal Board shall have the power to adopt and enforce such rules and regulations as it may deem necessary to carry into effect the appeal powers herein provided. All hearings conducted by the Appeal Board shall be open to the public. Any person may appear and testify at a hearing, either in person or by duly authorized representative or attorney.

The Appeal Board shall keep minutes of its proceedings showing the vote of each member upon each question, or if he is absent or failing to vote, indicating such fact, and shall also keep records of its hearings and other official actions. Every rule and regulation, every amendment or repeal thereof, and every order, requirement, decision or determination of the Appeal Board shall be filed immediately in the Office of the Commissioner and shall be a public record.

A majority of the Appeal Board shall be hereby vested with the following jurisdiction and authority:

1) to decide appeals from any decision, ruling, determination, or order made by the Commissioner under this chapter, or failure by the Commissioner to act upon a request within a reasonable period, in the manner and subject to the standards set out in Section 17-3.13 hereof;
2) to pass upon applications for extensions of time for compliance;
3) to decide all matters referred to it or upon which it is required to pass under this Article.

The compensation of each member of the Appeal Board shall be as set forth in the annual appropriation ordinance.

17-3.13 Any person taking exception to and effected by any final decision, ruling, requirement, order, or failure to act upon request within a reasonable period by the Commissioner, may take an appeal to the Appeal Board as established by this Article. Such appeal shall be taken within thirty days after receiving notice of such decision, ruling, requirement, order, or failure to act upon request within a reasonable period, by filing with the Commissioner a notice of appeal directed to the Appeal Board, specifying the grounds thereof and the relief prayed for. The Commissioner shall forthwith furnish to the Appeal Board all the papers relating to the case, including the transcript of any hearing before the Commissioner. The Appeal Board not less than five days and not more than ten days after the date of filing the appeal, shall set a date for the hearing and shall give notice thereof by mail to the interested parties. The Appeal Board may in its discretion grant continuances. Such an appeal shall act as a stay of the decision, ruling, requirement, or order in question until the Appeal Board has taken final action on the appeal. At the hearing any party may appear in person or by agent or attorney, and present evidence, both written and oral, pertinent to the questions and issues involved, and may examine and cross-examine witnesses. A party may rely, in whole or in part, on evidence adduced in a hearing before the Commissioner under Section 17- , hereof. Such reliance shall not affect or limit the right of a party to cross-examine witnesses, adduce additional evidence or present argument. The Appeal Board, after the hearing, shall affirm, modify or reverse the decision, ruling, requirement, rule, regulation or order of the Commissioner or order him to act. The decision of the Appeal Board shall be binding on the Commissioner.

The provisions of the "Administrative Review Act" approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply and govern all proceedings for the judicial review of final administrative decisions hereunder.

The Appeal Board at its expense shall provide a stenographer to take the testimony and preserve a record of all proceedings under this Article. The notice of appeal, the notice of hearing, all other documents in the nature of pleadings and written motions, filed in the proceedings, the transcript of testimony and the findings of fact and decisions shall be the record of the proceedings. The Appeal Board shall furnish a transcript of such record to any person interested as a party to such hearing upon the payment thereof of seventy-five cents per page for each original transcript, and twenty-five cents per page for each carbon copy thereof. However, the charges of any part of such transcript ordered or paid for previous to the writing of the original record shall be twenty-five cents per page.

The Appeal Board shall not be required to certify any record or file any answer or otherwise appear in any proceeding for judicial review unless the party filing the appeal deposits the sum of ninety-five cents per page representing costs of certification. Failure on the part of the appellant to make such deposits shall be grounds for dismissal of the action. Upon judicial review the secretary of the Appeal Board shall certify the record.

17-3.14 If any person discharges sewage or industrial wastes or other wastes into the aforesaid waters, water courses or sewerage system in violation of any of the provisions of Sections 17-3.2, 17-3.3, 17-3.4, or 17-3.5 of this Article or of the unappealed final order or requirement of the Commissioner, made pursuant to the provisions of Section 17-3.10 hereof or of the Appeal Board resulting from an appeal to the latter, an action may be brought by the Corporation Counsel of the City of Chicago for a fine as prescribed in Section 17-3.10 or for an injunction or other chancery relief to discontinue such discharge.

17-3.15 Whoever violates any of the provisions of Section 17-3.2, 17-3.3, 17-3.4 or 17-3.5 of this Article or refuses to comply with the unappealed final order or requirement of the Commissioner, made pursuant to the provisions of Section 17-3.10 hereof or of the Appeals Board resulting from an appeal to the latter shall be fined not more than five hundred dollars ($500.00). Each day's continuance of such violation or failure to comply shall constitute a separate offense.

## Article IV

### Noise and Vibration Control

17-4.1 No person shall make, or cause, permit or allow to be made, upon a public way, or in such close proximity to a public way as to be distinctly and loudly audible upon such public way, any noise of any kind by crying, calling or shouting or by means of any whistle, rattle, bell, gong, clapper, hammer, drum, horn, hand organ, mechanically operated piano, other musical instrument, wind instrument, sound amplifier, or similar mechanical device; provided, that the said restrictions shall not apply to any licensed peddler crying or calling for the purpose of advertising goods, wares or merchandise when lawfully using any public alley in the city between the hours of 11 a.m. and 6 p.m.

17-4.2 No person shall use or perform any hand organ or other musical instrument or device, for pay or in expectation of payment, in any public way or public place of the city before nine o'clock a.m. or after nine o'clock p.m. of any day, under a penalty of not less than ten dollars nor more than twenty-five dollars for each offense.

17-4.3 All rails, pillars, and columns of iron, steel, or other metal which are being transported on the public ways of the city shall be so loaded as to avoid causing loud noises or disturbing the peace and quiet of such public ways, under a penalty of not more than twenty-five dollars for each offense.

17-4.4 No person shall blow or cause to be blown, within the city the steam whistle of any stationary steam plant as a signal for commencing or suspending work, or for any other purpose.

This section shall not be construed as forbidding the use of steam whistles as alarm signals in case of fire, collision, or other imminent danger.

17-4.5 It shall be unlawful for any person to construct or maintain, within two hundred feet of any residence, a factory wherein are used pneumatic hammers or other apparatus which cause loud or unusual noises. Any person violating any of the provisions of this section shall be fined not less than twenty-five dollars nor more than one hundred dollars for each offense, and each day's violation shall be considered a separate and distinct offense.

17-4.6 It shall be unlawful for any person to use any pile driver, shovel, hammer, derrick, hoist, tractor, roller or other mechanical apparatus operated by fuel or electric power in building or construction operations between the hours of 9:30 o'clock in the evening and 8:00 o'clock in the morning, except for work on public improvements and work of public-service utilities, within 600 feet of any building used for residential or hospital purposes.

Any person violating this section shall be fined not less than fifty dollars for each offense, and each day's violation of the same shall constitute a separate and distinct offense.

17-4.7 It shall be unlawful for any person to operate the motor of a motor vehicle of a weight in excess of five tons for a consecutive period longer than two minutes while such vehicle is standing on private property located within 150 feet of property zoned and used for residential purposes except where such vehicle is standing within a completely enclosed structure.

This section shall not apply to buses operated for the transportation of passengers by any political subdivision of the state of Illinois while standing in established bus turn-arounds, bus terminals, bus-parking lots and bus-storage yards.

17-4.8 No person owning, or in possession or control of any building or premises shall use the same, permit the use of the same, or rent the same to be used for any business or employment, or for any purpose of pleasure or recreation, if such use shall, by its boisterous nature, disturb or destroy the peace of the neighborhood in which such building or premise is situated, or be dangerous or detrimental to health.

17-4.9 Any property use established in a Manufacturing District as defined and designated under the provisions of the Chicago Zoning Ordinance (Municipal Code of Chicago, Chapter 194A), shall be so operated as to comply with the performance standards governing noise set forth hereinafter for the district in which such use shall be located, provided that such performance standards shall not be applicable to the structural alteration or relocation of existing buildings occurring hereafter or the enlargement, expansion or addition to existing uses occurring hereafter when such alteration, relocation, enlargement, expansion or addition takes place upon property which, at the time of the passage of this comprehensive amendment, is owned or occupied by the same person, firm or corporation, or their respective heirs, legal representatives or successors, making such alteration, relocation, enlargement, expansion or addition and, provided further, that such performance standards also shall not be applicable to new construction by such owner or occupier upon previously undeveloped property which, at the time of such construction, is contiguous to an existing manufacturing use and, at the time of the passage of this comprehensive amendment, is being held by such owner or occupied for development for manufacturing purposes. All such construction, alteration, relocation, enlargement, expansion or addition to which the performance standards hereinafter set forth shall not be applicable shall, nevertheless, be controlled so as not to become a nuisance to adjacent uses.

17-4.10 Sound levels shall be measured with a sound level meter and associated octave band filter manufactured according to standards prescribed by the American Standards Association. Measurements shall be made using the flat network of the sound level meter. Impulsive type noises shall be subject to the performance standards hereinafter prescribed provided that such noises shall be capable of being accurately measured with such equipment. Noises capable of being so measured, for the purpose of this comprehensive amendment, shall be those noises which cause rapid fluctuations of the needle of the sound level meter with a variation of no more than plus or minus two decibels. Noises incapable of being so measured, such as those of an irrregular and intermittent nature, shall be controlled so as not to become a nuisance to adjacent uses.

17-4.11 In all instances in which an M2 General Manufacturing or M3 Heavy Manufacturing District does not adjoin a Residence or Business District, the performance standards governing noise for the M1 Restricted Manufacturing Districts shall apply at the nearest Residence or Business District boundary line, as these districts are defined and designated under the provisions of the Chicago Zoning Ordinance (Municipal Code of Chicago, Chapter 194A).

17-4.12 In the M1-1 to M1-5 Zoning Districts inclusive, at no point on the boundary of a Residence or Business Zoning District shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts indicated:

| *Octave Band Cycles Per Second* | *Along Residence District Boundaries— Maximum Permitted Sound Level in Decibels* | *Along Business District Boundaries— Maximum Permitted Sound Level in Decibels* |
|---|---|---|
| 0 to 75 | 72 | 79 |
| 75 to 150 | 67 | 74 |
| 150 to 300 | 59 | 65 |
| 300 to 600 | 52 | 59 |
| 600 to 1200 | 46 | 53 |
| 1200 to 2400 | 40 | 47 |
| 2400 to 4800 | 34 | 41 |
| above 4800 | 32 | 39 |

17-4.13 In the M2-1 to M2-5 Zoning Districts inclusive at no point either on the boundary of a residence or business district or at 125 feet from the nearest property line of a plant or operation, whichever distance is greater, shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts included:

| *Octave Band Cycles Per Second* | *Maximum Permitted Sound Level in Decibels Along Residence District Boundaries or 125 feet from Plant or Operation Property Line* | *Maximum Permitted Sound Level in Decibels Along Business District Boundaries or 125 feet from Plant or Operation Property Line* |
|---|---|---|
| 0 to 75 | 72 | 79 |
| 75 to 150 | 67 | 74 |
| 150 to 300 | 61 | 68 |
| 300 to 600 | 55 | 62 |
| 600 to 1200 | 50 | 56 |
| 1200 to 2400 | 45 | 51 |
| 2400 to 4800 | 41 | 47 |
| above 4800 | 38 | 44 |

17-4.14 In the M3-1 to M3-5 Zoning Districts inclusive, at no point either on the boundary of a residence or business district or at 125 feet from the nearest property line of a plant or operation, whichever distance is greater, shall the sound pressure level of any individual operation or plant exceed the decibel levels in the designated octave bands shown below for the Zoning districts included:

| *Octave Band Cycles Per Second* | *Maximum Permitted Sound Level in Decibels Along Residence District Boundaries or 125 feet from Plant or Operation Property Line* | *Maximum Permitted Sound Level in Decibels Along Business District Boundaries or 125 feet from Plant or Operation Property Line* |
|---|---|---|
| 0 to 75 | 75 | 80 |
| 75 to 150 | 70 | 75 |
| 150 to 300 | 65 | 70 |
| 300 to 600 | 59 | 64 |
| 600 to 1200 | 63 | 58 |
| 1200 to 2400 | 48 | 53 |
| 2400 to 4800 | 44 | 49 |
| above 4800 | 41 | 46 |

17-4.15 Any property use established in a Manufacturing District shall be so operated as to comply with the performance standards governing vibration set forth hereinafter for the Zoning district in which such use shall be located. No use already established on the effective date of this amendment shall be so altered or modified as to conflict with, or further conflict with, the performance standards governing vibration established hereinafter for the Zoning district in which such use is located.

17-4.16 In the M1-1 to M1-5 Zoning Districts inclusive, any use or portion thereof creating intense earth-shaking vibrations such as are created by heavy drop forges, or heavy hydraulic surges shall be set back at least 300 feet from the lot lines on all sides, except for lot lines adjoining an M3 Zoning District where such set back shall not be required, but in no case shall any such vibration be allowed to create a nuisance or hazard beyond the lot lines.

17-4.17 In the M2-1 to M2-5 Zoning Districts inclusive, any use or portion thereof creating intense earth-shaking vibrations such as are created by heavy drop forges, or heavy hydraulic surges, shall be set back at least 300 feet from the boundary of a Residence, Business, or Commercial Zoning District and at least 150 feet from the boundary of an M1 Zoning District, unless such operation is controlled in such a manner as to prevent transmission beyond the lot lines of earthshaking vibrations perceptible without the aid of instruments.

17-4.18 In the M3-1 to M3-5 Zoning Districts inclusive, the performance standards governing vibration in the M2 Zoning Districts shall apply.

17-4.19 Any person violating any of the provisions of this Article shall be fined not less than five dollars and not more than two hundred dollars for each offense, except where otherwise specifically provided. A separate and distinct offense shall be held to have been committed each day any person continues to violate any of the provisions of this Article.

### HARBOR POLLUTION CONTROL

17-5.1 No person shall throw, discharge, dump, or deposit, or cause, suffer, or procure to be thrown, discharged, dumped or deposited, in the harbor or anywhere in Lake Michigan, within ten miles of the corporate limits, any clay, earth, ashes or other heavy substance, filth, logs, floating matter, obstructions or refuse, unless said material shall be placed inside of a breakwater so arranged as not to permit the escape of such clay, earth, ashes or other heavy substance or substances, filth, logs, floating matter, obstructions or refuse into the body of Lake Michigan.

No tug owner, captain, or other person in charge or command of a tug shall tow inside the harbor any dumping scow or like vessel, with or without a collapsible or adjustable bottom, loaded with clay, earth, ashes or other heavy substance, filth, logs, floating matter, obstructions or any refuse, unless there is on board at the time of such towing an inspector from the Department of Environmental Control.

17-5.2 No person shall throw, dump, place, deposit or cause or permit to be thrown, dumped, placed or deposited any pollutant as defined in Section 31-21(k) of this Code, or any garbage, refuse, filth, putrid or unwholesome substance, or the contents of any toilet or head, catchbasin, or grease trap upon the margin or banks, or within the limits or into the waters of the harbor. Discharge of any of the aforementioned pollutants within the radius of four miles of any domestic raw water intake is further expressly prohibited.

17-5.3 In addition to the pollutants enumerated in Section 17-5.2 aforesaid, no operator of any vessel, craft, floats or motor boat shall discharge, dump or deposit into the harbor any fuel, solid or liquid, or the contents of any ballast tank, bilge tank or other receptacle capable of causing pollution of waters.

17-5.4 All vessels, craft, floats and motor boats equipped with toilets, heads, urinals, or capable of discharging galley wastes which have not been discharged through a grease trap or grease interceptor, or solid or liquid waste from shipboard hospital facilities, shall be equipped with a waste retention tank of approved type and capacity to store such waste material for subsequent disposal at a shoreside facility.

17-5.5 A treatment system, utilizing a method of waste treatment approved by the Commissioner of Environmental Control and complying with the Rules and Regulations Establishing Water Quality Criteria for Lake Michigan as set by the Illinois Sanitary Water Board may be permissible on vessels, crafts, floats or motor boats operating in harbor waters in lieu of a retention tank. The effluent of any waste treatment system not meeting the approved standard of the Illinois Sanitary Water Board shall be discharged and collected in a retention tank while such vessel, craft, floats or motor boat is located or operating within the harbor of Chicago. All such waste retention tanks must be properly equipped with pumps and piping so that wastes can be discharged from a connection located above the water line to approved shore-based or floating installations.

17-5.6 Every wharf, dock, pier, seawall, slip, riverbank retaining wall, riverbank bulkhead, dolphin, boom, bulkhead, jetty, mooring facility, piling, sheeting or other similar structure on or appurtenant to premises abutting on the harbor which has disintegrated, rotted, deteriorated, or is otherwise out of repair, or is in unsanitary condition, or in an unsafe or dangerous condition, or which in any manner endangers the health or safety of any person or persons, or which in any manner endangers navigation is hereby declared to be a harbor pollution.

17-5.7 The Commissioner of Environmental Control shall have the authority to promulgate rules and regulations necessary to the effective control of harbor pollution.

Any person who violates any of the provisions of Sections 17-5.1, 17-5.2, 17-5.3, 17-5.4, and 17-5.5, shall be fined not less than $50.00 nor more than $200.00 for each offense and each day's continuance of such violation shall constitute a separate offense.

17-5.8 No person being a manufacturer of gas, or engaged about the manufacture thereof, shall throw, deposit, or allow to run, or permit to be thrown or deposited into the harbor, or into any sewer therewith connected, any gas-tar or any refuse matter of or from any gas house, works, or manufactory.

17-5.9 It shall be unlawful for any dredge or other machine to cut clay or dredge sand or other material from the bed or bottom of the harbor, unless the person present conducting such work has in his possession a permit in writing from the Department of Environmental Control, in which permit the location and time occupied in such work shall be specified. The person conducting such work shall produce such permit on demand of any dredging inspector, the Commissioner or any of his assistants.

## Article VI

### DUMPING OF REFUSE

17-6.1 No person shall dump or deposit or cause to be dumped or deposited anywhere within the City, any garbage, ashes, refuse, trash, rubbish, miscellaneous waste, manure or other substance that may contain disease germs or be scattered by the wind, or decompose, or become filthy, noxious or unhealthful, except at a sanitary landfill site for which a permit has been properly issued by the Commissioner of Environmental Control. Such dumping without a permit is hereby delared to be a nuisance.

17-6.2

(a) The Commissioner of Environmental Control is hereby authorized and directed to make such rules and regulations as are necessary to effectuate the purpose of this Article.

(b) Application for such permit to operate a sanitary landfill on private property shall be accompanied by:

1. The written consent of the owner or his authorized agent and evidence of payment of real estate property taxes.
2. An indemnifying bond with good and sufficient sureties approved by the City Comptroller in the penal sum of $50,000.00 conditioned that the said applicant will comply with the regulations of this code and the rules and regulations of the Commissioner of Environmental Control pertaining to the dumping of the above-mentioned substances.
3. A plat plan and survey, together with engiineering survey and report which shall include a description of the property, the method of operation, the type of available cover, fencing, water pumping equipment, fire fighting equipment, access roads, equipment storage, lights, rodent control measures, water drainage (including grade and area), and the direction of fill.

4. Approval by the Zoning Administrator.

17-6.3 Upon receipt of such application, the Commissioner of Environmental Control shall give notice in writing to the Alderman of the Ward in which such dumping is to be done, that such application has been made. Such application shall be held in abeyance until an intervening council meeting is held or written waiver of objection or written consent by the Alderman is received.

17-6.4 Permit fees shall be as follows:

25 acre tract or less — $1,300.00 annually
26 to 50 acre tract — $2,600.00 annually
51 to 75 acre tract — $3,900.00 annually
Over 75 acre tract—$5,200.00 annually

17-6.5 The Commissioner of Environmental Control shall issue a permit for a sanitary landfill if there is compliance with all sections of this chapter and any other chapter of the Municipal Code of Chicago applicable thereto. Prior to the issuance of said permit, the Commissioner may request the approval of any other department of the City of Chicago.

17-6.6 All refuse deposited at site shall be compacted in layers. The layers of compacted refuse shall not exceed eight feet in height for each lift. Water wells located in the general area of sanitary landfills shall be subject to inspection and approval by the Department of Health of the City of Chicago and wells not considered safe from possible pollution or contamination shall be modified in such a way as to make their continued use safe.

17-6.7 Proper drainage, water pumping or treatment shall be provided for the fill itself. Fill may not be so implaced as to prevent a run-off for adjacent land.

17-6.8 Cover material must be earth, sandy loam, slag from steel mills or similar material approved by the Department of Environmental Control.

17-6.9 All refuse dumped must be covered daily by at least six inches of cover. Final cover shall be compacted to a depth of not less than 24 inches. Where the "trench system" of sanitary landfill is used successive parallel trenches must be at least two (2) feet apart.

17-6.10 Final grade shall be determined by the Department of Environmental Control depending on the particular site. Permit shall specify the grade to which the dumping authorized thereby is permitted and dumping in excess of the grade set forth in the permit shall constitute a violation of the permit.

17-6.11 Inspection of all dumping operations shall be under the jurisdiction of the Commissioner of Environmental Control. Inspections as necessary shall be made by a Sanitary Engineer who is qualified by both education and experience.

17-6.12 Dumping permits may be revoked by the Mayor upon recommendation of the Commissioner of Environmental Control for cause.

17-6.13 No ground or material filled with offensive matter or substance that will emit or allow to arise through or from the same any offensive smell or deleterious exhalation shall be opened or turned up, or the surface thereof removed, between the first day of May and the first day of October of any year, except according to permit first therefor obtained from the Commissioner of Environmental Control.

SECTION 2. That Sections 21-34 and 21-35 inclusive of Chapter 21; Sections 31-2.1 to 31-2.15, inclusive, of Chapter 31; Sections 38-8 to 38-12, inclusive, of Chapter 38 and Sections 99-4.2, 99-36.1, 99-36.2, 99-36.3, 99-36.4, 99-36.5, 99-36.6, 99-36.7, 99-36.8, 99-36.9, 99-36.10, 99-37, 99-56, 99-57, 99-58, 99-59, 99-60, 99-60.1, 99-60.2 and 99-61, of Chapter 99, all a part of the Municipal Code of Chicago be, and the same hereby are cancelled, nullified, repealed and held for naught.

SECTION 3. That all of the powers, duties and activities now being performed by the department or department head assigned to perform said powers, duties and activities in the Chapters and Sections cancelled, nullified, repealed and held for naught in Section 2 hereof, be and the same shall continue and inure to and under the jurisdiction and control of the Commissioner of Environmental Control.

SECTION 4. This ordinance shall be in full force and effect from and after January 1, 1970.

### Functions of Bureau of Forestry, Parkways and Beautification Transferred from Dept. of Public Works to Dept. of Streets and Sanitation.

On motion of Alderman Keane the City Council took up for consideration the report of the Committee on Finance deferred and published on December 9, 1969, pages 6546-6547, recommending that the City Council pass a proposed ordinance transmitted with the committee's report to transfer the functions of the Bureau of Forestry, Parkways and Beautification from the Department of Public Works to the Department of Streets and Sanitation.

On motion of Alderman Keane said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Holman, Despres, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Kuta, Collins, Marzullo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda—40.

*Nays*—None.

Alderman Fitzpatrick moved to *Reconsider* the foregoing vote. The motion was *Lost.*

The following is said ordinance as passed:

WHEREAS, It is deemed advisable and in the best interests of the City of Chicago that the Bureau of Forestry, Parkways and Beautification now under the jurisdiction and control of the commissioner of public works be removed therefrom and be placed under the jurisdiction and control of the commissioner of streets and sanitation; now, therefore,

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. That Sections 14-22, 14-23 and 14-24 be and are hereby added to Chapter 14 of the Municipal Code of Chicago, and shall read as follows:

14-22 There is hereby established the Bureau of Forestry, Parkways and Beautification, which shall be under the jurisdiction and control of the commissioner of streets and sanitation, and shall embrace the general superintendent of forestry, parkways and beautification and such other employes as the city council may provide by annual appropriation ordinance.

14-23 The general superintendent of forestry, parkways and beautification shall be under the immediate jurisdiction and control of the commissioner of streets and sanitation, and shall have the management and control, including maintenance of the municipal nursery, street parkways and boulevards, all trees, plants and shrubs planted and to be planted in the public ways of the city, and of all public squares, triangles and other open spaces at street intersections that have not been acquired or turned over to the Chicago Park District. In addition, the general superintendent shall plan, design, construct and maintain beautification projects on public rights of way, and small tot-lots, playgrounds and passive recreation areas on city-owned property or property acquired by the city in accordance with a beautification program to be developed in cooperation and co-ordination with the Chicago Beautiful Committee.

14-24 The commissioner of streets and sanitation is hereby authorized to appoint according to law a person to be known as General Superintendent, who shall be a man skilled and learned in the science of forestry.

The General Superintendent of the bureau of forestry, parkways and beautification, shall have the following powers and duties:

Superintend, regulate and encourage the preservation, culture and planting of shade and ornamental trees, plants and shrubbery in the public ways of the city;

Prune, spray, cultivate and otherwise maintain such trees, plants and shrubbery, and to direct the time and method of trimming the same;

Advise, without charge, owners and occupants of lots regarding the kind of trees, plants and shrubbery and the method of planting best adapted to, or most desirable on, particular streets;

Take such measures as may be deemed necessary for the control and extermination of insects and other pests and plant diseases which may injuriously affect trees, plants or shrubs that are now growing or may hereafter be growing on the public ways of the city;

Report to the corporation counsel all cases which come to his knowledge of violations of provisions of this code respecting such trees, plants and shrubbery;

Keep a record of all transactions of his office, subject to such rules and regulations as the commissioner of streets and sanitation may prescribe, and whenever the commissioner of streets and sanitation may require, make a full and detailed report of such transactions.

Plan, design, program, construct and maintain beautification and recreational projects in cooperation with the Chicago Beautiful Committee;

Assist the Chicago Beautiful Committee by providing services, materials and supplies in accordance with an established annual program;

Process applications for federal assistance in financing beautification projects.

SECTION 2. That Sections 8-39, 8-40 and 8-41 of the Municipal Code of Chicago, included in Chapter 8 thereof, be and the same hereby are cancelled, nullified, repealed and held for naught.

SECTION 3. That all of the powers, duties and activities now being performed by the Bureau of Forestry, Parkways and Beautification now under the jurisdiction and control of the commissioner of public works, be and the same shall continue and enure to and under the jurisdiction and control of the commissioner of streets and sanitation.

SECTION 4. This ordinance shall be in full force and effect from and after January 1, 1970.

### Water Rates Increased for Water Service Provided by City of Chicago.

On motion of Alderman Keane the City Council took up for consideration the report of the Committee on Finance deferred and published on December 9, 1969, pages 6547-6548, recommending that the City Council pass a proposed ordinance transmitted with the committee's report to provide for an increase in the water rates charged for water service provided by the City of Chicago.

On motion of Alderman Keane said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Holman, Despres, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda—42.

*Nays*—None.

Alderman Campbell moved to *Reconsider* the foregoing vote. The motion was *Lost.*

The following is said ordinance as passed:

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. Section 185-21 of the Municipal Code of Chicago is amended as follows:

By substituting for the words "thirty-five dollars" in the second paragraph, as printed, the words "fifty dollars".

SECTION 2. Section 185-26 is amended as follows:

By striking out the figures appearing in the right-hand column in the first paragraph, as printed, and substituting the following words and figures:

| *Per Annum* | *Per Annum* |
|---|---|
| $ 9.10 | $42.50 |
| 12.50 | 45.90 |
| 17.10 | 49.40 |
| 20.60 | 52.80 |
| 21.90 | 56.30 |
| 25.30 | 58.40 |
| 29.80 | 61.90 |
| 33.10 | 65.30 |
| 34.40 | 68.80 |
| 40.00 | 73.40. |

By striking out the two lines, as printed following said tabulation, and substituting the following:

"For each additional five feet, or major fraction thereof, in excess of 87 feet a charge of three dollars and fifty cents ($3.50) shall be made."

By substituting for the fifth paragraph, as printed, the following:

"For each story in height of building in excess of one story, a charge of five dollars and sixty cents ($5.60) per annum shall be made in addition to the foregoing."

By substituting for the words "one dollar and eighty cents" in the eighth paragraph, as printed, the words "two dollars and thirty cents ($2.30)".

By substituting for the figure "9.20" in the eleventh paragraph, as printed, the figure "$11.50".

By substituting for the figure "21.20" in the twelfth paragraph, as printed, the figure "26.50".

By substituting for the thirteenth paragraph, as printed, the following:

For fixtures for use of apartments having less than the above equipment the following:

For each water closet—per annum $11.50.

If such water closet is open to the use of more than one family an additional charge of $11.50 shall be made for each such family.

For each wash basin—per annum $3.50.

For each family sink which is open to the use of not more than one family—per annum $11.50.

If such sink is open to the use of more than one family, an additional charge of $11.50 per annum shall be made for each such family.

By substituting for the sixteenth, seventeenth and eighteenth paragraphs, as printed, the following:

For all other water closets, baths, basins and sinks in excess of this number, the following charges shall be made:

| | |
|---|---|
| For each water closet— | per annum $11.50 |
| For each bath— | per annum $11.50 |
| For each wash basin— | per annum $ 3.50 |
| For each sink— | per annum $ 3.50 |

For other fixtures, devices or occupancies—as provided for in Section 185-27.

The amounts to be charged for service to buildings or premises in Class 'D' shall be the amounts heretofore specified as minimum charge for service, and in buildings not to exceed one story in height this charge shall include one water closet. In addition the following charges shall be made:

| | |
|---|---|
| For each water closet— | per annum $12.50 |
| For each wash basin— | per annum $ 9.10 |
| For each sink— | per annum $ 9.10 |
| For each miscellaneous opening not otherwise provided for— | per annum $ 9.10 |

For other fixtures, devices or occupancies—as provided for in Section 185-27.

The amounts to be charged for service to buildings in Class 'E' shall be the amounts heretofore specified as minimum charge for service, and in buildings not to exceed one story in height this charge shall include one water closet. In addition, the following charges shall be made:

For fixtures open to general or public use:

| | |
|---|---|
| For each water closet— | per annum $12.50 |
| For each wash basin— | per annum $ 9.10 |
| For each sink— | per annum $ 9.10 |

For fixtures not open to general or public use:

| | |
|---|---|
| For each water closet— | per annum $11.50 |
| For each wash basin— | per annum $ 3.50 |
| For each sink— | per annum $ 3.50 |

For other fixtures, devices or occupancies—as provided for in Section 185-27.

SECTION 3. Section 185-27 is amended by substituting for the column of figures at the right-hand side of said section, as printed, the following figures in consecutive order:

SECTION 6. Section 185-31 is amended to read as follows:

185-31. Metered Service. The rate for metered water shall be two dollars and sixteen cents ($2.16) per one thousand cubic feet, subject to a discount of ten cents (.10) for each one thousand cubic feet charged if paid within ten days from date of bill; and if such payment has been made to an agent of the City of Chicago authorized to collect water rates, the said agent shall be allowed a further period for transmitting the amount of any bills so paid to the cashier of the bureau of water, but such period shall not exceed beyond mid-day of the fifth day following the last day of the period in which the said bill became due and payable; provided that the superintendent of water may allow an expired discount on only one bill for any premises in each calendar year; and provided further where the correctness of a bill is disputed and where complaint of such incorrectness has been made within the period during which the bill for the premises involved would be subject to the usual discount and where the adjusting of such complaint requires additional time, said discount may be allowed up to and including the fifth day succeeding the re-mailing of such bill.

SECTION 7. This ordinance shall be in full force and effect from and after the date of its passage.

### Rates of Fares for Taxicabs Increased.

On motion of Alderman Marzullo the City Council took up for consideration the report of the Committee on Local Transportation deferred and published on December 9, 1969, page 6550, recommending that the City Council pass a proposed ordinance transmitted with the committee's report to amend Section 28-30 (a) of Chapter 28 of the Municipal Code of Chicago concerning regulations governing taxicab rates between point of origin and destination, etc.

On motion of Alderman Marzullo said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, McCutcheon, Singer, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling —46.

*Nays*—None.

The following is said ordinance as passed:

*Be It Ordained by the City Council of the City of Chicago:*

That Section 30(a) of Chapter 28 of the Municipal Code of Chicago be and it is hereby amended to read as follows:

(Taxicab fares) 28-30. (a) Commencing with the effective date of this ordinance, the rates of fare for taxicabs while being operated between a point of origin and a destination within the corporate limits of the City shall be as set forth in the following schedule, which rates are hereby declared to be just and reasonable:

| | |
|---|---|
| For the first 1/5 mile or fraction thereof | 40¢ |
| For each additional 2/7 miles or fraction thereof | 10¢ |
| For each one and one-half minutes of waiting time | 10¢ |
| For each additional passenger of 12 years or more | 20¢ |

Waiting time shall include the time beginning two minutes after call time at the place to which the taxicab has been called, when it is not in motion, the time consumed by unavoidable delays, at street intersections, bridges or elsewhere and the time consumed while standing at the direction of a passenger.

Every passenger under twelve years of age when accompanied by an adult shall be carried without charge.

Ordinary hand baggage of passengers shall be carried without charge.

Immediately on arrival at the passenger's destination it shall be the duty of the chauffeur to throw the taximeter lever to the non-recording position and to call the passenger's attention to the fare registered.

It is unlawful for any person to demand or collect any fare for taxicab service which is more or less than the rates established by the foregoing schedule, or for any passenger to refuse payment of the fare so registered.

### Annual Appropriation Ordinance for Year 1970 Made in Conformity with Budget Document as Revised and Amended by City Council.

On motion of Alderman Keane the City Council took up for consideration the Executive Budget and proposed amendments as recommended by the Committee on Finance to the City Council, consideration of which was deferred on December 9, 1969, page 6523, for consideration, amendment and passage as the Annual Appropriation Ordinance for the year 1970 [Proposed Ordinance and Amendments Printed in Committee Pamphlet No. 18].

Alderman Keane moved to adopt the recommended amendments as proposed by the Committee on Finance. The motion Prevailed and said recommended amendments were *Adopted.*

> As a condition of employment and as a condition of the receipt of any salary or wages under this ordinance commencing March 15, 1970, each city employee shall file a written report with the head of his department on or before March 15, June 15, September 15, and December 15, 1969, reporting all other employment he has had and all business he has engaged in during the first three months of the three and one-half months preceding said dates, respectively. The Civil Service Commission may prescribe the forms on which such reports shall be made.

Alderman Keane then moved to *Amend* the foregoing proposed amendment by adding certain language indicated in Italics, as follows:

> As a condition of employment and as a condition of the receipt of any salary or wages under this ordinance commencing March 15, 1970, each city employee *and each alderman* shall file a written report with the head of his department *and in the case of the aldermen file with the City Clerk* on or before March 15, June 15, September 15, and December 15, 1969, reporting all other employment he has had and all business he has engaged in during the first three months of the three and one-half months preceding said dates, respectively. The Civil Service Commission may prescribe the forms on which such reports shall be made.

Alderman Holman moved to *Refer the foregoing proposed amendment, as amended, to the Committee on Finance.* The motion to Refer *Prevailed.*

Aldermen Sperling, Despres, Rayner, Bohling, Cousins, Staszcuk, Simon, Scholl, McCutcheon, Singer, Hoellen and O'Rourke presented the following amendment:

To amend said Appropriation Ordinance for 1970 by adding the following paragraph after the last sentence of Section 6 thereof:

> "The Mayor shall submit to the corporate authorities and include in his Executive Budget hereafter all funds received or administered, from grant funds, either from the State of Illinois or from the United States of America, and the objects and purposes for which such funds are to be expended, in like manner as funds are otherwise appropriated by the corporate authorities, and submitted in the Mayor's Executive Budget as provided in Article 8-2-1 to Article 8-2-8 of Chapter 24 of the Illinois Revised Statutes 1967 (State Bar Association Edition)."

Alderman Keane moved to *Refer the foregoing proposed amendment to the Committee on Finance.* The motion to Refer *Prevailed.*

Alderman Keane thereupon moved that the City Council *Pass* the pending proposed Annual Appropriation Ordinance for the Year 1970 (being the Budget Document for the Year 1970 as revised and amended by the City Council).

The motion *Prevailed* and said proposed ordinance was *Passed,* by yeas and nays as follows:

*Yeas*—Aldermen Roti, Metcalfe, Holman, Bohling, Lupo, Buchanan, Bilandic, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Singer, Fifielski, Kerwin, Wigoda—36.

*Nays*—Aldermen Despres, Rayner, Cousins, Staszcuk, Scholl, McCutcheon, Hoellen, O'Rourke, Sperling—9.

The following pages of the Annual Appropriation Ordinance for the Year 1970, numbered 1 through 570, are incorporated in this Journal of the Proceedings and will be known as pages 6638-1 through 6638-570 (for reference purposes):

## THE ANNUAL APPROPRIATION ORDINANCE OF THE CITY OF CHICAGO FOR THE YEAR 1970.

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. The following sums of money set apart according to departments and other separate agencies of the City government are appropriated from the respective funds designated in this ordinance for the objects and purposes stated herein to defray necessary expenses and liabilities of the City of Chicago to be paid or incurred during the fiscal year beginning January 1, 1970.

SECTION 2. The estimates of current assets and liabilities as of January 1, 1970, the estimates of the amounts of such assets and of the revenues of 1970 available for appropriation, the amounts appropriated, the objects and purposes of such appropriations and the salary rates of all City officers and employees are shown in detail hereinafter.

SECTION 3. In any appropriation where three asterisks (***) appear immediately after the department code number, expenditures thereunder shall be accounted for under statutory standard accounts, as expended, designating objects and purposes of operation and administration.

SECTION 4. Included in the appropriation for Personal Services in applicable departments, bureaus and agencies is an account appearing as Code No. ".015 Schedule Salary Adjustments" provided for the purpose of implementing the compensation plan for classified city employees adopted by the City Council, the Salary Schedules of which plan, class grades one to twenty-one, both inclusive, are made a part hereof. The amounts set up under account .015 for "Schedule Salary Adjustments" are for the adjustment of Salaries (a) of all employees who are at the entrance rate indicated in the schedule for the grade level of their positions and who after six months of satisfactory service are entitled to a salary increase under Schedule B; (b) of employees who are entitled to adjustments to Intermediate Rates or Maximum Rates prescribed in Schedule B for the grade level of his position after completing the additional twelve month periods indicated; and (c) of employees who are entitled to salary adjustments under Schedule C after completing the periods of service specified in said Schedule C; and (d) base salary schedules for uniformed Firefighters and Sworn Police Personnel, as set forth in Schedule D; and (e) Base salary schedules for Registered Nurses as set forth in Schedule S and longevity schedule as set forth in Schedule T; and (f) Base salary schedules for Physicians as set forth in Schedule E; and (g) Base salary schedule for Technical Employees as set forth in Schedule G and defined in the classification and pay plan as adopted by the Civil Service Commission. The class grade for each class of positions is specified in Schedule A-1 Civil Service Rule 1—Classified Positions; Schedule A-3—Law Department; and Schedule A-4—Board of Election Commissioners as on file at Civil Service Commission. Classification and compensation plan for city employees, adopted by the City Council, is by reference thereto incorporated herein and made a part thereof.

SECTION 5. The appropriations for liabilities at January 1, 1970, shall not be construed as approval of any such liabilities, but shall be regarded only as appropriations for the payment thereof when they have been found to be valid and legal obligations against the City of Chicago and have been properly vouchered and audited.

SECTION 6. The appropriations herein made for personal services shall be regarded as maximum amounts to be expended from such appropriations. Such expenditures shall be further limited to employment of personnel only as needed, or as may be required by law, not to exceed the specified maximum number designated in this ordinance for any office or position by title. When there is no limitation as to the maximum number that may be employed for any office or position by title, one or more persons may be employed regardless of whether such title is printed in the singular or plural. The salary or wage rate fixed shall be regarded as the maximum salary or wage rate for the respective offices or positions; provided that wage rates fixed on a daily, weekly or monthly basis are subject to change by the City Council during the fiscal year in accordance with the prevailing wage rates in private employment for such employees. The salary or wage rates fixed are on a yearly basis unless otherwise indicated. Abbreviations or symbols used in this ordinance are as follows: m. monthly; w. weekly; d. daily; h. hourly; v. visits.

No officer or employee shall have the right to demand continuous employment or compensation by reason of any appropriation if it becomes necessary to lay him off on account of lack of work or lack of funds. In case of a vacancy in any office or position, the head of a department in which the vacancy occurs shall not be required to fill such office or position if, in his judgment and discretion, there is no necessity therefor.

On or before the first day of August 1970, and on or before the first day of February, 1971, the head or acting head of each department, commission, or board covered by this ordinance shall file with the City Comptroller for public inspection, a report showing all federal funds received or administered by it during the preceding months of January through June and the months of July through December, respectively, the amounts disbursed, purposes for which disbursements were made and a list of any pending applications for federal grants of credits or funds to his department, commission or board.

The report shall include funds received or administered (1) directly from the federal government and (2) from the State of Illinois as a grant or disbursement made out of federal funds or grants.

A department head whose department receives or administers no federal funds shall be deemed to satsify this requirement by filing a report stating that fact, which report shall be deemed to continue in effect as a continuing report of no federal funds until such time as there is a change.

SECTION 7. Any employee who is required and is authorized to use his personally owned automobile regularly in the conduct of official City business shall be allowed and paid uniform monthly rates on the basis of the number of miles per month use of such privately owned automobile, according to the following:

| *Miles Per Month* | *Monthly Rates* | *Miles Per Month* | *Monthly Rates* |
|---|---|---|---|
| 1 to 100 | $ 0.13 to $12.50 | 701 to 800 | $66.56 to $72.00 |
| 101 to 200 | 12.62 to 24.00 | 801 to 900 | 72.05 to 76.50 |
| 201 to 300 | 24.11 to 34.50 | 901 to 1,000 | 76.54 to 80.00 |
| 301 to 400 | 34.60 to 44.00 | Over 1,000 | 80.00 plus $0.08 per mile to a maximum of $90.00. |
| 401 to 500 | 44.09 to 52.50 | | |
| 501 to 600 | 52.58 to 60.00 | | |
| 601 to 700 | 60.07 to 66.50 | | |

Any employee who is authorized by his department head to use his personally owned automobile on occasional trips within or outside the City in the conduct of City business shall be paid a mileage allowance at the rate of $0.08 per mile.

## DEPARTMENT OF PURCHASES, CONTRACTS AND SUPPLIES

(See Water Fund for other appropriations)

The Department of Purchases, Contracts and Supplies is responsible for all purchasing, including contracts for public works for all City departments, the Municipal Tuberculosis Sanitarium and the Public Library. It exercises general supervision over storerooms, yards and warehouses, and the salvaging of obsolete and usable material. A Board of Standardization establishes standard specifications for items of common usage.

### GENERAL STORES REVOLVING FUND

The General Stores Revolving Fund is established for the purpose of providing a central agency for the purchase of material and supplies, stationery, postage, printing and miscellaneous items and commodities that are of common or general use in departments or other agencies of the City government; and also for the maintenance of stock in connection therewith for the use and benefit of departments and other agencies of the City government; and the expense for the purchase of which is to be reimbursed from appropriations of City funds.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

The charges for the goods or services furnished shall be based upon the average cost or such other basis as shall be approved by the Comptroller.

Expenditures are authorized for purchases for the purposes designated above.

All administrative expense of operating this account shall be paid from appropriations made to the Department of Purchases, Contracts and Supplies.

## BOARD OF HEALTH

The function of the Board of Health is to enforce all laws of the State and ordinances of the City relating to public health. It causes all nuisances affecting the health of the public to be abated, determines when a disease is contagious or epidemic, and establishes quarantine regulations when necessary.

All City employes under the Workmen's Compensation Act are eligible to receive medical attention from the City Physician, and all hospital and medical bills for such employes are approved by him. The City Physician, when requested by heads of bureaus or departments may visit and examine City employes and report on their physical condition.

## DEPARTMENT OF BUILDINGS

(See Water Fund for other Appropriations)

The function of the Department of Buildings is to enforce the various provisions of the Municipal Code relating to zoning, building, electrical, elevator, heating and ventilating, housing and plumbing inspection. It also passes on building plans and enforces compliance through hearings and court action.

## BUREAU OF EQUIPMENT SERVICE

### Equipment Service Account

The Equipment Service Account is established for the purpose of maintaining, repairing, housing and operating rolling equipment, such as trucks, tractors, trailers and steam rollers and such other activities as this account may be equipped to furnish.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges for the use of such rolling equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be revised and adjusted from time to time on the basis of actual cost for furnishing the use of such equipment which cost shall include expense incidental to the maintenance, housing and operation of such rolling equipment and a reasonable and proper charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A complete cost record shall be kept showing the cost of maintaining and repairing the rolling equipment, the charges for depreciation and the cost of operating such equipment by each piece, or by type or group.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Equipment Service Account to a depreciation reserve fund and expended therefrom for the replacement of equipment and machinery.

Expenditures from this account are authorized for all expense for material, supplies, fuel, repairs, services and other expense and for maintenance of necessary stock, incident to the maintenance, housing and operation of rolling and other equipment.

Expenditures for salaries and wages are authorized for the following employes, at not to exceed the rate or number specified, for such period of time as may be necessary; including increments for schedule salary adjustments; and for vacation relief for Foremen.

### ELECTRICAL CONSTRUCTION CAPITAL ACCOUNT

The Electrical Construction Capital Account is established for the purpose of constructing, maintaining and repairing street lighting and other public electric facilities, and for the purpose of purchasing and maintaining a stock of material and supplies in connection therewith, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing material and services, including for incidental and overhead expense, not to exceed the following percentages: Thirty per cent of the direct labor charges and fifteen per cent of the material and other charges; provided that charges for the use of trucks, compressors, mixers and other rolling and mechanical equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance, housing and operation of such rolling and mechanical equipment and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Electrical Construction Capital Account to a depreciation reserve fund and expended therefrom for the replacement of rolling and mechanical equipment.

Expenditures are authorized to be made for material and supplies for hire of trucks and other equipment and for other services

and items entering into or becoming a part of the cost of the job.

Expenditures are authorized to be made for the purchase of material and supplies, and for freight or other transportation charges on material and supplies received, and for charges and expense for maintaining a stock of material and supplies.

Expenditures are authorized for the payment of salaries and wages for employes authorized under appropriations for the Bureau of Electricity when such expenditures are properly chargeable to the Electrical Construction Capital Account and are to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

Expenditures are authorized to be made for salaries and wages of the following employes for such period of time as may be necessary; including increments for schedule salary adjustments:

### ELECTRIC SERVICE ACCOUNT

The Electric Service Account is established for the purpose of purchasing and maintaining a stock of material and supplies used in the installation, maintenance and repair of electrical equipment, appliances and fixtures, and for the purpose of furnishing services to install, maintain or repair electrical equipment, appliances and fixtures for any department of the City government, including subway lighting but exclusive of City street lighting and police and fire alarm systems under the jurisdiction of the Department of Streets and Sanitation, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based upon the total direct cost plus twenty per cent of the direct labor cost and plus seven per cent of the cost of materials and supplies.

Expenditures are authorized for the following items and are to be charged as overhead expense:

Office supplies and stationery, equipment, tools, instruments and charges and expense for maintaining a stock of material and supplies.

### ENGINEERING REVOLVING FUND

The Engineering Revolving Fund is established for the purpose of doing the necessary work in connection with the engineering, inspection and supervision of projects under the jurisdiction or supervision of the Department of Public Works of the City of Chicago, the expense of which is to be reimbursed from appropriations of the City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Section 7-24.1 to 7-24.10 of the Municipal Code of Chicago and to the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing the services including not to exceed twenty percent for overhead and incidental expenses, provided that the engineering and drafting furniture, machinery and equipment used in the furnishing of services shall be charged for at fair rates as established by the department, subject to the approval of the Comptroller. Such rates for furniture and equipment used in furnishing of services shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance and operation of such equipment and furniture and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Engineering Revolving Fund to a Depreciation Reserve Fund and expended therefrom for the replacement of equipment; including automotive equipment.

Expenditures are authorized for all items as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages, including increments for schedule salary adjustments, and compensation for use of personally-owned automobiles are limited to such positions, such number of positions, and rates of compensation as are specified hereunder.

Additional compensation of twenty-five cents per hour is authorized to be paid to employes during such periods as they may work under compressed air.

Overtime at established rates is authorized to be paid to employes.

# DEPARTMENT OF PUBLIC WORKS

## BUREAU OF MAPS AND PLATS

The Bureau approves plats of subdivisions, street and alley dedications and similar adjustments in real property parcels. It compiles and keeps up-to-date maps and the basic data required for simple and orderly legal description of real property parcels. It also prepares vacation and dedication ordinances, checks frontage consent petitions, assigns house numbers, issues house number and legal description certificates and prepares maps for other City agencies.

# DEPARTMENT OF PUBLIC WORKS

## BUREAU OF ARCHITECTURE AND BUILDING MAINTENANCE

The Bureau performs architectural work for the various City departments, as well as for the Municipal Tuberculosis Sanitarium and The Chicago Public Library. The Bureau is responsible for the general maintenance of all City buildings financed by the Corporate Fund. It operates six City buildings, furnishing custodial, mechanical and janitorial care for the City Hall, Central Office Building, Chicago Police Headquarters, Hubbard Street Building, Social Hygiene Clinic and Municipal Heating Plant. The Bureau operates the telephone switchboards of the City Hall and Central Office Building.

---

**Twenty-five per cent of the amount appropriated for the City Hall building to be reimbursed from the Water fund as its proportionate share of this expense, as per Section 7-14 of the Municipal Code of Chicago.**

### ARCHITECTURAL CAPITAL ACCOUNT

The Architectural Capital Account is established for the purpose of providing architectural or similar services in connection with public buildings, the expense of which is to be reimbursed from appropriations of City Funds.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

The charges for the furnishing of such services shall be based on the total cost thereof, plus not to exceed five per cent for overhead and incidental expense the cost of which is not borne by this account.

Expenditures are authorized for all items as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages, including increments for schedule salary adjustments, are limited to such position, such number of positions, and rates of compensation as are specified below:

## DEPARTMENT OF THE PORT OF CHICAGO

The Department is responsible for protecting City rights in the river area and on such part of the lake front as have not been given over to the authority of the Chicago Park District. It is responsible for the operation of all movable bridges owned or operated by the City and for the management of Navy Pier. The Department issues permits for all construction and repair work on structures that affect the dock walls, on structures upon the dock walls, or on structures within the harbor area.

### WATER DISTRIBUTION DIVISION REVOLVING FUND

The Water Distribution Revolving Fund is established for the purpose of doing necessary work in connection with paving projects, laying mains under Section 185-17 of the Municipal Code of Chicago, and other work in connection with construction and maintenance of the Water Works Distribution System of the City of Chicago, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing the material, services and incidental expense, including overhead at a rate approved by the City Comptroller, provided that machinery, trucks and other equipment used in the furnishing of services shall be charged for at fair rates as established by the department, subject to the approval of the Comptroller; the rates shall be reported to the Committee on Finance of the City Council showing the various details, included as parts of the total rate; and further provided that material charged to other than Water Fund appropriations shall be charged on the basis of average cost, the last purchase price or the known replacement price, whichever is greater.

Expenditures are authorized for all items, as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages and compensation for use of personally owned automobiles are limited to such positions, such number of positions, and rates of compensation as are specified in the appropriations for the Water Distribution Division and the employment of the following:

### WATER DISTRIBUTION STOCK ACCOUNT

The Water Distribution Stock Account is established for the purpose of maintaining a necessary stock of material and supplies in connection with the Water Distribution System of the City of Chicago, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

The charges for materials and supplies shall be based on the average cost, the last purchase price or the known replacement price, whichever is greater when materials and supplies are furnished to other than Water Fund Appropriations plus fifteen per cent overhead to cover administrative, inspection and incidental expense; except that when materials and supplies are furnished to Water Fund Appropriations the charges shall be based on the average cost thereof plus fifteen per cent overhead to cover administrative, inspection and incidental expense.

Expenditures are authorized for the purchase of material and supplies and for freight or other transportation charges on material and supplies received.

Expenditures are authorized for all items, as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages and compensation for use of personally owned automobiles are limited to such positions, such number of positions, and rates of compensation as are specified in the appropriations for the Water Distribution Division and the employment of the following:

## DEPARTMENT OF PUBLIC WORKS

### PUBLIC WORKS CONSTRUCTION CAPITAL ACCOUNT

The Public Works Construction Capital Account is established for the purpose of furnishing services in connection with the construction, maintenance and repair of the water works system and other public works, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies, or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Section 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based upon the total cost of furnishing material and services, including for overhead and incidental expense, at a rate approved by the Comptroller; provided that when work, material, or services are furnished on contract or purchase orders that can be paid directly from regularly authorized appropriations they shall be charged direct to such appropriations; and provided further, that machinery, trucks and other equipment used in the furnishing of services shall be charged for at fair rates including depreciation as established by the department, subject to the approval of the Comptroller. The rates as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate.

Expenditures are authorized for the maintenance of necessary stock of material and supplies, and for tools, machinery and equipment for use in carrying on the activities of this account.

Expenditures are authorized for all items, as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures are authorized to be made for salaries and wages, including additional compensation of twenty-five cents per hour for hoisting engineers when it is necessary to use long boom, as well as one dollar per foot per day for divers descending below 50 feet and for personally owned automobiles as are authorized under the Engineering Revolving Fund.

Expenditures are authorized to be made for salaries and wages of the following employes as needed:

## DEPARTMENT OF STREETS AND SANITATION
### BUREAU OF STREETS

(See Corporate, Motor Fuel Tax and Bond Funds for other appropriations.)

The Vehicle Tax Fund shall be reimbursed for the total cost of restoring street pavements in connection with street openings and for the inspection thereof, including not to exceed ten per-cent for overhead and incidental expense. The charges therefor shall be in accordance with a standard schedule of rates or upon such other basis as shall be established from time to time by the Commissioner of Streets and Sanitation and approved by the Comptroller.

The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis established.

The salaries and wages of employes when assigned to Motor Fuel Tax projects or to other public work projects payable from other than the Vehicle Tax Fund, together with other expense in connection with such projects, shall be charged directly to the Motor Fuel Tax Fund or other funds made available therefor or shall be reimbursed to the Vehicle Tax Fund.

The Bureau of Streets is responsible for the maintenance and repair of streets and alleys, including curbs and gutters; and the designing and planning of new pavements. The bureau issues permits for use of streets, alleys, sidewalks, including permits for opening of streets by public utilities and others.

### ASPHALT PLANT CAPITAL ACCOUNT

The Asphalt Plant Capital Account is established for the purpose of manufacturing and delivering asphalt for street pavements, the expense for which is to be reimbursed from appropriations of City funds or funds of other governmental agencies.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Asphalt and the delivery thereof to jobs shall be made on standard schedules of rates as determined by the Commissioner of Streets and Sanitation and approved by the City Comptroller. The rates as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate. Such rates shall be revised and adjusted from time to time on the basis of the total cost, including maintenance and depreciation of the asphalt plant buildings and equipment, and plus not to exceed ten per cent for general administrative, overhead and other expense.

Expenditures are authorized for salaries and wages of authorized titles, material and supplies, truck service and other expense incident to the manufacture and delivery of asphalt.

## DEPARTMENT OF STREETS AND SANITATION

### BUREAU OF STREET TRAFFIC

The Bureau determines the need for those improvements of streets and intersections that will facilitate the movement of traffic. It checks engineering designs of such facilities, from the traffic engineering standpoint. It determines the need for, and orders installation of traffic signals, traffic and directional street signs. The Bureau analyzes traffic accident records, develops accident prevention measures, and otherwise promotes traffic safety.

### Call to Order.

On Friday, December 19, 1969, at 10:00 A.M. (the day and hour appointed for the meeting) Honorable Richard J. Daley, Mayor, called the City Council to order. The Clerk called the roll of members and it was found that there were present at that time: Aldermen Roti, Metcalfe, Holman, Despres, Bohling, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Frost, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Gabinski, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Scholl, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda—38.

Quorum present.

### CALL FOR MEETING READ.

The Clerk informed the City Council that the following call for the meeting was filed in his office on Wednesday, December 17, 1969:

OFFICE OF THE MAYOR
CITY OF CHICAGO

December 17, 1969.

*Honorable John C. Marcin,*
*City Clerk,*
*Room 107, City Hall,*
*Chicago, Illinois.*

DEAR MR. MARCIN—I have called a special meeting of the City Council for the purpose of paying honor to the life and memory of our beloved colleague and friend, Honorable Joseph J. Krska, Alderman of the 15th Ward. The meeting is to be held on Friday, December 19, 1969, at 10:00 A.M. in the Council Chamber in the City Hall.

Very truly yours,

(Signed) RICHARD J. DALEY,
*Mayor.*

## Resolution Adopted on Death of Joseph J. Krska, Alderman of the 15th Ward.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

**WHEREAS, Almighty God, in His Infinite Wisdom, has taken from our midst our beloved colleague, Joseph J. Krska, Alderman of the 15th Ward; and**

**WHEREAS, Alderman Krska served with distinction in the City Council for a period of over 10 years; a measure of the great esteem in which he was held were the extraordinary majorities with which his constituents in the 15th Ward returned him to office; a measure of his devotion to duty was the fact that during his entire tenure of office as Alderman he was rarely absent from a meeting of the City Council; and**

**WHEREAS, Alderman Krska was truly a representative of the 15th Ward, living in the same neighborhood all his life, giving constant support to local organizations, devoting long hours to the solution of community problems; in a sense, all the people of the 15th Ward were his family; and**

**WHEREAS, Alderman Krska came from humble beginnings; he worked as a young man in the Chicago Stockyards, then with the Chicago Surface Lines; he served as a Deputy Sheriff of Cook County for eleven years and as Superintendent of the County Highway Garage in Blue Island for eleven years; his life was typical of those men whose diligence and competence have moved them to the forefront in responsibility and respect; and**

**WHEREAS, Alderman Krska's loyalty, personal integrity, and quiet strength, were qualities that gave assurance to all who knew him, and thus he was able, by his mere presence, to lend dignity and authority to any proceeding in which he took part; and**

**WHEREAS, Alderman Krska's many years of public service gave him a perspective and an insight into the workings of a great city that were of great value to Chicago and, particularly, to this Council; he shared his experience and common sense in his own modest way and, as a result, contributed much to the success of our continuing experiment in representative government; now, therefore,**

**Be It Resolved,** That the Mayor and members of the City Council of the City of Chicago, assembled in special session this 19th day of December, A.D. 1969, do hereby express publicly their great sorrow at the passing of their colleague and friend, Joseph J. Krska, a distinguished public servant, and do acknowledge with regret the void that his passing leaves and, more personally, in the warm and affectionate relationship that has continued between them for ten years, and extend to his wife Julia their sincere sympathy; and

*Be It Further Resolved,* That a suitable copy of this memorial resolution be presented to Alderman Krska's wife Julia.

Committee consideration was dispensed with by unanimous consent, and on motion of Alderman Keane the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Keane in addressing the City Council spoke of how Alderman Krska had always been on the job, rarely missing a Council meeting or any committee meeting of which he had been a member. He told of how the late Alderman had lived and worked all his life among the people of his community, how he had been able to adjust to situations as times changed and greater fields were opened and developed, and how he had accepted greater responsibilities upon election to office. His ambition as Alderman had been to give the finest service he could, not only for his Ward but for all of the City, which he had so dearly loved and which he fought always to unify. He concluded by saying that all had lost a dear friend who had always been a kind and considerate man, and he extended his sympathy to the late Alderman's lovely wife.

In seconding the foregoing resolution Aldermen Holman, Swinarski, Wigoda, Staszcuk, Burke, Metcalfe, Marzullo, Sain and Aiello spoke feelingly of their departed colleague. They spoke of how intensely Alderman Krska felt about any issue involving his City or the Administration, but that he had not been quarrelsome, nor had he harbored any animosity toward anyone with whom he did not agree. He was praised as a man of strong convictions, always willing to be counted on to stand with righteousness on the side of the Administration.

All spoke of Alderman Krska's well known expression, "God bless Mayor Daley" and all agreed that he had been most sincere in giving voice to that blessing. One of the aldermen stated that he believed his frequent use of the expression was due to a sincere feeling that the Mayor needed all the blessings he could get, and that he felt an obligation to fulfill that necessity. He was cited for his extreme honesty and extremely hard work. Everyone agreed that he truly had been an outstanding, dedicated public servant, a man of rare humility, a deeply religious man and one of great kindness who liked all people, individually as well as collectively. All extended their condolences to Mrs. Krska and the residents of the Fifteenth Ward.

Honorable Richard J. Daley, Mayor thereupon addressed the Council, saying that he had indeed lost a great and loyal friend. He spoke of him as being one of the "old timers" whose presence he would keenly miss. He stated that it was true that the late Alderman had been considered a silent man with no great oratorical ability, and that not all men could be orators or scientists but that each person had his own talent, and that Alderman Krska's had been loyalty and devotion which had been of great comfort to him. He spoke again of his loss of a great friend. He concluded by expressing his sympathy to Mrs. Krska.

---

## ADJOURNMENT.

Alderman Keane moved that the City Council do Adjourn. The question being put, the motion *Prevailed* and the City Council *Stood Adjourned.*

>
> *Be It Resolved,* That the Mayor and the members of the City Council of the City of Chicago, in meeting assembled this twenty-third day of December, A.D. 1969, do hereby express their best wishes to the fine participants who will be representing the City of Chicago at the Orange Bowl in Miami, and wish them success and God-speed.

Alderman Swinarski moved to *Suspend the Rules Temporarily,* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

On motion of Alderman Swinarski the foregoing proposed resolution was *Adopted,* unanimously.

Honorable Richard J. Daley, Mayor, called to the rostrum Mr. Charles Guse, Associate Band Director, who graciously thanked the Mayor and the City Council for the honor bestowed upon the members of the Kelly Park Trojan band and accepted the City Flag, which he said would be carried proudly in the parade preceding the Orange Bowl Game in Miami on New Year's Day.

### *Referred*—PROPOSED RESOLUTION FOR THE CREATION OF CHICAGO URBAN TRANSPORTATION DISTRICT.

Honorable Richard J. Daley, Mayor, submitted the following communication, which was, together with the proposed resolution transmitted therewith, *Referred to the Committee on Finance:*

OFFICE OF THE MAYOR
CITY OF CHICAGO

December 23, 1969.

*To the Honorable, The City Council of the City of Chicago:*

GENTLEMEN—I transmit herewith for your consideration a proposed resolution creating the Chicago Urban Transportation District. This resolution is proposed in accordance with the terms of House Bill 2550 enacted by the 76th General Assembly. The resolution indicates that the welfare and vitality of the central area will be promoted by the creation of the Chicago Urban Transportation District. If adopted, the District will provide a vehicle for developing feeder lines from the West Side Medical Center, University of Illinois area into the loop, as well as connecting McCormick Place and the Hancock Center to the downtown area. In addition, the unsightly loop elevated structures will be removed, paving the way for the revitalization of these enormously important portions of the downtown area.

Your favorable consideration of this proposal is requested.

Very truly yours,
(Signed) RICHARD J. DALEY,
*Mayor.*

### *Referred*—PROPOSED ORDINANCES FOR LEASES OF SPECIFIED PARKING FACILITIES FOR YEAR 1970.

Honorable Richard J. Daley, Mayor, submitted the following communication, which was, together with the proposed ordinances transmitted therewith, *Referred to the Committee on Finance:*

OFFICE OF THE MAYOR
CITY OF CHICAGO

December 23, 1969.

*To the Honorable, The City Council of the City of Chicago:*

GENTLEMEN—I transmit herewith leases covering the operation of 56 neighborhood and downtown parking facilities for the year 1970. The terms of said leases are based upon the recommendation of the Commissioner of Streets and Sanitation, whose report on the subject is attached herewith for your study and information.

Your favorable consideration of this matter will be appreciated.

Very truly yours,
(Signed) RICHARD J. DALEY,
*Mayor.*

## *CITY COUNCIL INFORMED AS TO PUBLICATION OF ORDINANCES.*

The City Clerk informed the City Council that all those ordinances which were passed by the City Council on December 16, 1969, and which were required by statute to be published in book or pamphlet form or in one or more newspapers, were published in pamphlet form on December 22, 1969 by being printed in full text in printed pamphlet copies of the Journal of the Proceedings of the City Council of the regular meeting held on December 16, 1969 [published by authority of the City Council in accordance with the provisions of Section 5-5 of the Municipal Code of Chicago, as passed on December 22, 1947], which printed pamphlet copies were delivered to the City Clerk on December 22, 1969.

---

## *MISCELLANEOUS COMMUNICATIONS, REPORTS, ETC. REQUIRING COUNCIL ACTION (TRANSMITTED TO CITY COUNCIL BY CITY CLERK).*

The City Clerk transmitted communications, reports, etc., relating to the respective subjects listed below, which were acted upon by the City Council in each case in the manner noted, as follows:

### *Annual Report of Municipal Employees', Officers' and Officials' Annuity and Benefit Fund of Chicago.*

The Annual Report of the Municipal Employees', Officers' and Officials' Annuity and Benefit Fund of Chicago, for the Year 1970, submitted by Eugene F. Brennan, Executive Secretary.—*Placed on File.*

### *Court Decision.*

Also a communication from the Law Department signed by Richard F. Friedman, Assistant Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division, advising the City Council that on December 15, 1969 the Illinois Appellate Court rendered an opinion in a cause entitled *Daley* v. *McMullen, et al., Illinois Appellate Court No. 53072.* This was an appeal taken from the decision of the Circuit Court of Cook County which had affirmed the License Appeal Commission's reversal of the order revoking Defendant's alcoholic liquor license. The Appellate Court reversed the lower Court not on a trial of the merits of the issues but because of the failure of the defendant to prosecute the appeal. Judgment affirming License Appeal Commission is therefor reversed. —*Placed on File.*

### *Zoning Reclassifications of Particular Areas.*

Also applications (in triplicate) together with the proposed ordinances for amendment of the Chicago Zoning Ordinance, as amended, for the purpose of reclassifying particular areas, which were *Referred to the Committee on Buildings and Zoning,* as follows:

## COMMITTEE ON LOCAL INDUSTRIES, STREETS AND ALLEYS.

### Grants Made of Privileges in Public Ways.

The Committee on Local Industries, Streets and Alleys, to which had been referred (on November 17, December 2, 9 and 16, 1969) seven proposed ordinances and one proposed order for grants of privileges in public ways, submitted a report recommending that the City Council pass said proposed ordinances and said proposed order (transmitted therewith).

On separate motions made by Alderman Sain *each* of the said proposed ordinances was *Passed*, by yeas and nays as follows:

*Yeas*—Aldermen Roti, Hubbard, Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Bilandic, Swinarski, Staszcuk, Burke, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Kuta, Collins, Marzullo, Sain, Jambrone, McMahon, Keane, Gabinski, Brandt, Sande, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Scholl, Singer, Fifielski, Kerwin, Hoellen, Wigoda, Sperling—42.

*Nays*—None.

*Each of the said seven ordinances contains Sections 3, 4, 5 and 6, which are identical with Sections 3, 4, 5 and 6 respectively of the "Standard Special Provisions" printed on pages 5243-5244 of the Journal of the Proceedings of April 9, 1969.* Sections 1 and 2 of the said ordinances read respectively as follows (the Italic heading in each case not being a part of the ordinance):

*Grant to American-Laundry, Inc.*

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. Permission and authority hereby are given and granted to American Laundry, Inc., a corporation, its successors and assigns, upon the terms and subject to the conditions of this ordinance, to maintain and use as now installed an eight-inch steel culvert containing a two and one-half inch oil suction pipe and a two-inch oil return pipe under and across the north-south public alley used for the purpose of supplying fuel oil from the premises known as No. 918 S. Fairfield Avenue to the premises known as No. 925 S. California Avenue; for a period of ten (10) years from and after January 11, 1970.

The location of said culvert shall be as shown on print hereto attached, which by reference is made a part of this ordinance. Said culvert shall be maintained and used in accordance with the ordinances of the City of Chicago and the directions of the Commissioner of Streets and Sanitation. The grantee shall keep that portion of the public way over said culvert in good condition and repair, safe for public travel and free from snow, ice and dirt, to the satisfaction of the Commissioner of Streets and Sanitation.

SECTION 2. The grantee agrees to pay to the City of Chicago as compensation for the privileges herein granted the sum of one hundred and no/100 dollars ($100.00) per annum, in advance, the first payment to be made as of January 11, 1970, and each succeeding payment on the same day and month annually thereafter. In case of the termination of the privileges herein granted the grantee shall, nevertheless, remain liable to the City of Chicago for the annual compensation which shall have become due and payable under the provisions hereof before the structures and appliances herein authorized are removed and the public way is restored as herein required.

*Grant to Huron and Orleans Building Corporation.*

*Be It Ordained by the City Council of the City of Chicago:*

SECTION 1. Permission and authority hereby are given and granted to Huron and Orleans Building Corporation, a corporation, its successors and assigns; Chicago Title and Trust Company, a corporation, not individually, but as Trustee under a Trust Agreement dated July 11, 1967 and known as Trust No. 50891, its successors and assigns, and Tom Russell Charitable Foundation, Inc., a non-profit corporation, its successors and assigns, upon the terms and subject to the conditions of this ordinance, to maintain and use as now constructed three (3) covered bridges or passageways over and across the east-west eighteen-foot public alley connecting the second, third, fourth, fifth and sixth floors of the premises known as Nos. 362-366 W. Huron Street and Nos. 340-358 W. Huron Street with the corresponding floors of the premises known as Nos. 363-371 W. Superior Street and Nos. 341-359 W. ### *Action Deferred*—ON PROPOSED ORDINANCE FOR VACATION OF PART OF W. QUINCY ST.

The Committee on Local Industries, Streets and Alleys submitted the following report, which was, on motion of Alderman Sain *Deferred* and ordered published:

CHICAGO, December 22, 1969.

*To the President and Members of the City Council:*

Your Committee on Local Industries, Streets and Alleys begs leave to recommend that Your Honorable Body pass the proposed ordinance transmitted herewith (drafted and submitted in compliance with an order passed on March 14, 1969, page 5063) for the vacation of

All that part of W. Quincy Street lying between S. Franklin Street and S. Wacker Drive.

This recommendation was concurred in by seven members of the committee, with no dissenting vote.

Respectfully submitted,

(Signed) HARRY L. SAIN,
*Chairman.*

The following is the proposed ordinance transmitted with the foregoing committee report:

*Whereas,* the City Council of the City of Chicago, after due investigation and consideration, has determined that the nature and extent of the public use and the public interest to be subserved is such as to warrant the vacation of part of public street described in the following ordinance; therefore,

Be It Ordained by the City Council of the City of Chicago:

*Section 1.* That all that part of W. Quincy Street lying South of and adjoining the South line of Lots One (1) to Six (6), both inclusive, and lying North of and adjoining the North line of Lots Nine (9) to Twelve (12), both inclusive, in Block Eighty-three (83) in Subdivision of Blocks Eighty-three (83), Ninety-two (92) and One Hundred Forty (140) in School Section Addition to Chicago of Section Sixteen (16), Township Thirty-nine (39) North, Range Fourteen (14) East of the Third Principal Meridian; and lying North of and adjoining the North line of Lot One (1) and said North line produced East Ten (10) feet, in Pearson's Subdivision of Lots Seven (7) and Eight (8) in Block Eighty-three (83) of School Section Addition to Chicago aforementioned; said part of public street herein vacated being further described as all that part of W. Quincy Street lying between S. Franklin Street and S. Wacker Drive, as colored in red and indicated by the words "TO BE VACATED" on the plat hereto attached, which plat for greater certainty is hereby made a part of this ordinance, be and the same is hereby vacated and closed, inasmuch as the same is no longer required for public use and the public interest will be subserved by such vacation.

*Section 2.* The vacation herein provided for is made upon the express condition that within ninety (90) days after the passage of this ordinance, the Chicago Title and Trust Company, Trustee, Trust No. 53194 shall pay or cause to be paid to the City of Chicago as compensation for the benefits which will accrue to the owner of the property abutting said part of public street hereby vacated, the sum of two million seven hundred sixty-seven thousand five hundred and no/100 dollars ($2,767,500.00), which sum in the judgment of this body will be equal to such benefits; or, in the alternative, the Chicago Title and Trust Company, Trustee, Trust No. 53194, shall have the option and privilege within ninety (90) days after the passage of this ordinance to enter into an agreement with the City to remove and relocate at the owner's sole expense all existing sewers, water mains and appurtenances thereto, all in accordance with plans and specifications furnished and approved by the City and under the supervision and direction of the City of Chicago, as partial payment of compensation for the benefits which will accrue to the owner of the property abutting said part of public street hereby vacated, together with a payment to the City of Chicago of the sum of one million six hundred forty-five thousand five hundred and no/100 dollars

($1,645,500.00), which sum, together with the cost of removal and relocation of all existing sewers, water mains and appurtenances thereto, as herein provided, in the judgment of this body will be equal to the benefits which will accrue to the owner of the property abutting said part of the public street hereby vacated; and further, shall within ninety (90) days after the passage of this ordinance deposit in the City Treasury of the City of Chicago a sum sufficient to defray all costs of removing paving and curb returns and constructing sidewalk and curb across the entrances to the part of W. Quincy Street herein vacated, similar to the sidewalk and curb in S. Franklin Street and S. Wacker Drive, respectively, at W. Quincy Street. The precise amount of the sum so deposited shall be ascertained by the Commissioner of Streets and Sanitation after such investigation as is requisite.

*Section 3.* This ordinance shall take effect and be in force from and after its passage subject to the conditions of Section Two (2) hereof, provided that the said Chicago Title and Trust Company, Trustee, Trust No. 53194 shall within ninety (90) days after the passage of this ordinance, file or cause to be filed for record in the Office of the Recorder of Deeds of Cook County, Illinois, a certified copy of this ordinance.

### *Referred*—PROPOSED AMENDMENT TO RULE 42 OF RULES OF ORDER OF CITY COUNCIL.

Aldermen Despres, Rayner, Cousins, Staszcuk, Simon, McCutcheon, Singer, Hoellen and Sperling presented the following proposed amendment to Rule 42 of the Rules of Order of the City Council, as indicated in Italics as follows:

"Notice of all committee *and subcommittee* meetings shall be in written form to all members of the Council, all other persons who have filed with the committee *or subcommittee* a request for notice of its meetings, all departments of the city government which may be affected by the matters to be considered at the meetings, and to the general public by posting on the bulletin board in the City Council chambers."

*—Referred to the Committee on Committee and Rules.*

—

At this point in the proceedings Alderman Rayner addressed himself to the Chair on a question of personal privilege under Rule 13 of the Council's Rules of Order.

During debate Alderman Despres (on behalf of Alderman Rayner) raised the point of order that Alderman Rayner was entitled, under Rule 13, to pursue his remarks.

The Chair declared the point of order *not well taken.*

Alderman Despres appealed the decision of the Chair.

The Chair then stated the question to be *"Shall the decision of the Chair be sustained?"*. The decision of the Chair was *Sustained,* by yeas and nays as follows:
